**Transnational Spanish Studies** Catherine Davies, Rory O'Bryen, 2020-06-17 The focus of this book is two fold First it traces the expansive geographical spread of the language commonly referred to as Spanish This has given rise to multiple hybrid formations over time emerging in the clash of multiple cultures languages and religions within and between great empires Roman Islamic Hispano Catholic each with expansionist policies leading to wars huge territorial gains and population movements This long history makes Hispanophone culture itself a supranational trans imperial one long before we witness its various national cultures being refashioned as a result of the transnational processes associated with globalization today Indeed the Spanish language we recognise today was transnational long before it was ever the foundation of a single nation state Secondly it approaches the more recent post national translingual and inter subjective border crossings that characterise the global world today with an eye to their unfolding within this long trans imperial history of the Hispanophone world In doing so it maps out some of the contemporary post colonial decolonial and trans Atlantic inflections of this trans imperial history as manifest in literature cinema music and digital cultures Contributors Christopher J Pountain L P Harvey James T Monroe Rosaleen Howard Mark Thurner Alexander Samson Andrew Ginger Samuel Llano Philip Swanson Claire Taylor Emily Baker Elzbieta Slodowska Francisco J Hernandez Adri n Henriette Partzsch Helen Melling Conrad James and Benjamin Quarshie

**Manual of Romance Sociolinguistics** Wendy Ayres-Bennett, Janice Carruthers, 2018-06-11 The Romance languages offer a particularly fertile ground for the exploration of the relationship between language and society in different social contexts and communities Focusing on a wide range of Romance languages from national languages to minoritised varieties this volume explores questions concerning linguistic diversity and multilingualism language contact medium and genre variation and change It will interest researchers and policy makers alike

**Language Variation and Contact-Induced Change** Jeremy King, Sandro Sessarego, 2018-03-15 This collection of original contributions dealing with Hispanic contact linguistics covers an array of Spanish dialects distributed across North South and Central America the Caribbean the Iberian Peninsula and the Bosphorus It deals with both native and non native varieties of the language and includes both synchronic and diachronic studies The volume addresses and challenges current theoretical assumptions on the nature of language variation and contact induced change through empirically based linguistic research The sustained contact between Spanish and other languages in different parts of the world has given rise to a wide number of changes in the language which are driven by a concomitance of different linguistic

and social processes This collection of articles provides new insight into such phenomena across the Spanish speaking world

**New worlds for old words / Mundos nuevos para viejas palabras** Christopher J. Pountain, Bozena Wislocka Breit, 2021-09-07 New worlds for old words Mundos nuevos para viejas palabras is a collection of chapters on the theme of lexical borrowing in the languages of Western Europe with particular focus on borrowing from Latin or from Greek via Latin into Spanish Such cultured or learned borrowing as it has sometimes been designated is an especially intriguing feature of the Romance languages since they also derive from Latin It is also of particular interest to historical linguists since it is an example of what has been called change from above innovation first evidenced in the written usage of the culturally elite which then diffuses into more general acceptance with the result that some cultured borrowings e.g. problem problema social program me programa are now amongst the most common words in the modern languages Despite their enormous influence on such major languages as English Spanish Portuguese French and Italian the mechanisms by which these borrowings become established in their host languages have to date been relatively little studied This book seeks to make a contribution to this question and revive interest in what has become a neglected area of historical linguistics and contains contributions both by internationally respected scholars and new researchers in the field This bilingual collection will appeal to academics scholars and postgraduate students of Hispanic Studies Cultural History and particularly Historical Linguistics and Romance Linguistics New worlds for old words Mundos nuevos para viejas palabras es una colección sobre los préstamos léxicos en los idiomas de Europa occidental centrándose sobre todo en los préstamos del latín o del griego a través del latín al español Los cultismos son un rasgo especialmente interesante de las lenguas romances ya que ellos mismos proceden del latín También es de gran interés para la lingüística histórica dado que es un ejemplo de lo que se conoce como cambio desde arriba cambios atestiguados primero en la lengua escrita de la elite cultural que luego comienza a tener un uso más generalizado y cuyo resultado es que algunos de estos

cultismos por ejemplo problema social programa se encuentran entre las palabras más comunes en los idiomas modernos A pesar de su enorme influencia en lenguas tan importantes como el inglés el español el portugués el francés o el italiano los mecanismos por los que estos préstamos se establecen en los idiomas de acogida se han estudiado relativamente poco hasta ahora Este volumen es una contribución a esta cuestión y su objetivo es reavivar el interés en lo que se ha convertido en un rea olvidada de la lingüística diacrónica Se incluyen capítulos de académicos conocidos internacionalmente y de investigadores noveles Esta colección bilingüe será de gran utilidad para académicos investigadores y alumnos de posgrado en estudios hispánicos estudios culturales y particularmente lingüística histórica y lingüística de las lenguas romances
