Exploring Humanity Intercultural Perspectives On Humanism Reflections On Inhumanity:

Exploring Humanity Mihai Spariosu, Jörn Rüsen, Sorin Antohi, Chun-Chieh Huang, 2012 *Exploring Humanity* Mihai I. Spariosu, Jörn Rüsen, 2012-09-11 The old humanistic model aiming at universalism ecumenism and the globalization of various Western systems of values and beliefs is no longer adequate even if it pleads for an ever wider inclusion of other cultural perspectives and for intercultural dialogue In contrast it would be wise to retain a number of its assumptions and practices which it incidentally shares with humanistic models outside the Western world We must now reconsider and remap it in terms of a larger global reference frame This anthology does just that thus contributing to a new field of study and practice that could be called intercultural humanism *Humanism in Intercultural Perspective* Henner Laass, Univ. Prof. Dr. Dr.h.c.mult., 2015-07-15 This book is a breakthrough in illuminating humanism For the first time it is presented in an intercultural perspective It introduces Chinese Indian African Islamic and Western traditions into the intercultural discussion about basic issues of understanding the human world By this means it recognizes different disciplinary perspectives history philosophy as well as religious literary and gender studies Special emphasis is put on the controversial relationship between humanism and religion This complex network of argumentations is an answer to the challenge of cultural orientation at the age of globalization Humanism is brought to life as a synthesis of transcultural values and a mutual and critical recognition of cultural differences *Approaching Humankind* Jörn Rüsen, 2013 *Approaching Humankind* Jörn Rüsen, 2013-06-19 Every human life form encapsulates an idea of humankind and humanity Today this very idea is challenged by the various and diverging needs for cultural orientation in the age of globalization One of the recent attempts to meet these challenges is provided by a new humanism with an intercultural intent Such humanism can be conceptualized only by the collaborative efforts of different academic disciplines at exploring the human being as the gist of what is meant by humanity Thus this volume explores the pertinent fields of knowledge from the perspectives of philosophy theology anthropology sociology economy psychology neurobiology history and gender studies Focusing on the guiding question of what is meant by being a human the contributions of this volume encompass a fascinating spectrum of insights which will orientate future discussions on humanity and humanism **Humanism: Foundations, Diversities, Developments** Jörn Rüsen, 2021-04-25 The book describes humanism in a systematic and historical perspective It analyzes its manifestation and function in cultural studies and its role in the present Within the book special attention is given to the intention of contemporary humanism to overcome ethno centric elements in the cultural orientation of contemporary living conditions and to develop humane dimensions of this orientation This is linked to a fundamental critique of the current post human self understanding of the humanities Furthermore the intercultural aspect in the understanding of humanism is emphasized for non Western cultures also have their own humanistic traditions Two further aspects are also addressed the Holocaust as the most radical challenge to humanistic thinking and the relationship of humanism to nature Sitting at the intersection of history and philosophy the book

is perfect for those exploring humanism from an historical perspective *The Concept of Humanity in an Age of Globalization* Longxi Zhang, 2011-12-07 Rethinking humanity as a concept in our age of globalization and its relevance to the social and political reality of our times are the topic of this book It calls for the reclaiming of humanism as an effective response to the conflict turmoil and violence we witness in the world today Concepts of humanity and humanism have become suspect of na vet at best and guilty of bad faith and repressive ideologies at worst Yet hope for improvement is incorrigibly human the concept of humanity still holds enormous attraction to intellectuals and humanistic scholars At the same time it is important to realize that the critique of humanism is very much based on and limited to Western social and historical experience To re conceptualize humanity and humanism from a truly global perspective will help reclaiming a more inclusive kind of humanism In this sense a cross cultural perspective is important for reclaiming humanism in our age of globalization The present volume is the result of such an effort The diversity of the authors views speaks eloquently of the complexity of the concept of humanity or what constitutes the distinctly human and therefore the necessity to have an in depth dialogue on the fate of humanity **Humanity's Awakening: A Guide to Ethical and Religious Humanism**

Pasquale De Marco, 2025-04-18 In a world grappling with uncertainty and division Humanity s Awakening A Guide to Ethical and Religious Humanism emerges as a beacon of hope illuminating a path towards a more just equitable and compassionate world This comprehensive guide unveils the essence of humanism dispelling common misconceptions and offering profound insights into its transformative potential for individuals and society at large Humanity s Awakening is an invitation to embark on a journey of self discovery ethical reflection and spiritual exploration It delves into the historical roots of humanism tracing its evolution from ancient philosophical traditions to its modern manifestations Readers will encounter the wisdom of prominent humanist thinkers throughout history gaining a deeper understanding of human nature ethics and the pursuit of a meaningful life At the heart of humanism lies a profound commitment to preserving human freedom dignity and well being Humanity s Awakening examines the multifaceted nature of these core values exploring their implications for personal conduct social interactions and political systems It delves into the ethical dilemmas that arise in the pursuit of these ideals offering thoughtful insights and practical guidance for navigating the complexities of human existence This book also explores the intricate relationship between secular and religious humanism While both share a commitment to human reason and ethical conduct they diverge in their approach to spirituality and transcendence Humanity s Awakening sheds light on the common ground and distinctions between these two branches of humanism fostering a deeper understanding of the diverse expressions of humanist thought Humanity s Awakening is not merely an academic treatise it is a call to action inspiring readers to embody humanist values in their daily lives and to work collectively towards creating a more just equitable and compassionate world It challenges readers to confront the challenges and obstacles that hinder human progress such as skepticism misconceptions and the inherent complexities of human nature Through thought provoking

analysis and real world examples the book empowers readers to become agents of positive change advocating for human rights social justice and environmental responsibility With its comprehensive exploration of humanism its commitment to ethical reflection and its call to action for a better world Humanity's Awakening is an essential guide for anyone seeking to live a more meaningful and fulfilling life It is a book that will resonate with readers from all walks of life offering a profound understanding of human nature the challenges we face and the transformative power of humanism in shaping a better future for all If you like this book write a review on google books

Inclusive Humanism Christoph Antweiler, 2012 The diversity of interconnected cultures on a bounded planet requires more shared orientations The humanities and politics have to face fundamental questions What does a humanism look like that does not move too rapidly to universalize the views and historical experiences of the European or American world How can we conceive of globality as a new entity without playing unity and diversity off against one another Does a world culture that is becoming ever closely related in fact need common values or only rules of human exchange How can we succeed at civilizing an ever present ethnocentrism How do we keep the terms culture and humanity from being misused as weapons in identity wars Any realistic cosmopolitanism must proceed from an understanding of humankind as one entity without requiring us to re design cultures to fit on with some sort of global template Answers can be gained by deploying shared characteristics of humans as well as pan cultural commonalities This book offers an anthropologically informed foundation for addressing pertinent questions of intercultural exchange

Becoming Human Paul Sheehan, 2003-07-30 The postmodern condition has delivered us into a world where our humanity can no longer be taken for granted Whether his place is ceded to nature or technology man is no longer the measure of all things rather he is locked into processes in which the only permanence is change Becoming Human offers a sustained engagement with these and other paradoxes about human being and its nature in the 21st century world Beginning with the notion that the human is not an immutable given but rather an ever changing entity this collection of essays considers our multifarious condition through the perspective of a variety of fields including philosophy sociology literature and film studies In this book the authors make coherent and accessible a sprawling field The diversity of writers and approaches challenges current thinking about humanity providing material for future scholars and researchers and prompting us to ponder these questions more deeply while at the same time offering the reader a comprehensive intelligible survey of recent inquiries into a potentially bewildering field

What It Means to be Human Joanna Bourke, 2013-07-23 In 1872 a woman known only as An Earnest Englishwoman published a letter titled Are Women Animals in which she protested against the fact that women were not treated as fully human In fact their status was worse than that of animals regulations prohibiting cruelty against dogs horses and cattle were significantly more punitive than laws against cruelty to women The Earnest Englishwoman's heartfelt cry was for women to become animal in order to gain the status that they were denied on the grounds that they were not part of mankind In this fascinating account Joanna Bourke addresses the profound question of

what it means to be human rather than animal How are people excluded from political personhood How does one become entitled to rights The distinction between the two concepts is a blurred line permanently under construction If the Earnest Englishwoman had been capable of looking 100 years into the future she might have wondered about the human status of chimeras or the ethics of stem cell research Political disclosures and scientific advances have been re locating the human animal border at an alarming speed In this meticulously researched illuminating book Bourke explores the legacy of more than two centuries and looks forward into what the future might hold for humans women and animals *Humanism and Muslim Culture* Stefan Reichmuth, Jörn Rüsen, Aladdin Sarhan, 2012 The background of this book was an international symposium on Humanism in Islam An Inter Cultural Discourse held from 6 to 8 April 2009 in Alexandria Egypt This event was among the international conferences convened by the project Humanism in the Era of Globalisation An Intercultural Dialogue on Humanity Culture and Values of the Institute for Advanced Study in the Humanities KWI Essen Germany It was held in cooperation with the Goethe Institute Alexandria at the Bibliotheca Alexandrina in Egypt P 9

Reflections on the Posthuman in International Relations Matt Harker, 2017 **Humanism in Intercultural Perspective Experiences and Expectations** Henner Laass, 2009 Humanism Carole McGranahan, 2018-11-30 Anthropology has long centered on the human taking human life as a main focus and exploring multiple ways to be human In recent years however we have also seen the rise of the idea of the Anthropocene and emerging debates on the place of the post human Can and should the human still occupy a privileged position in a universe composed of the nonhuman the other than human the inhuman and the trans human Reckoning with concepts practices and relations across these categories requires that we move beyond classical understandings of humanism to replace them with a contemporary reworking of the possibilities and limits of anthropological humanism This timely book is the product of the second Annual Debate of Anthropological Keywords a collaborative project between HAU the American Ethnological Society and L Homme The aim of the debate is to reflect critically on keywords and terms that play a pivotal and timely role in discussions of different cultures and societies This volume brings together leading thinkers to reflect anew on humanism and the anthropological project with insightful contributions from Cl o Carastro Didier Fassin Hugh Gusterson Saba Mahmood Carole McGranahan Joel Robbins Danilyn Rutherford and Lucy Suchman

Humanism in Trans-Civilizational Perspectives Jana S. Ročker, 2024-09-29 This book introduces into the current global ethics debate models of humanism developed in classical Chinese traditions which have not yet been comprehensively presented to Western scholarship or integrated into the framework of global discourses on social ethics and morality It creates new paradigms for an understanding of humanism that meets the demands of our time It begins by presenting European descriptions and critical assessments of this discourse and then moves to an exploration of humanistic ideas shaped through historical developments in Asia with a focus on the Chinese tradition In this sense the book is written from a transcivilizational perspective The methods used in the research transcend that is surpass and overcome the rigid isolating

and essentialist concept of civilization At the same time the book points to the possibility of transformation through the exchange of knowledge and ideas between different civilizations Within this framework the book starts from the assumption that the ontology of civilizations and cultures is not based on immutable substances but on the relations between different factors that constitute them as categories The transcivilizational perspective rooted in transcultural dialogues between philosophies that originated in different cultures and civilizations is particularly valuable because of the globalized world in which we live today This means that the problems that affect people in different parts of the world and the issues that are embedded in different geopolitical and developmental frameworks also affect all of humanity This book is of particular interest to scholars and students of global ethics globalization Asian philosophy and Sinology *Universal Humanity* Mostafa Maleki Tehrani, 2024-03-03 Exploring the intricate layers of human interconnectedness and the imperative of embracing diversity Through clear and accessible language this handy book sheds light on the essence of being a cosmopolitan human offering concise definitions and profound reflections on each aspect From discussions on the foundational role of human and ethical worldviews to the challenges and rewards of fostering global understanding the author presents a compelling narrative that calls upon individuals to recognise their shared humanity and actively contribute to a more inclusive and interconnected world
