NULL Mexico: 2021 Article IV Consultation-Press Release; and Staff Report International Monetary Fund. Western Hemisphere Dept.,2021-11-05 Spurred by strong U S growth and rising vaccination rates the economy is rebounding The government has successfully maintained external financial and fiscal stability despite the deepest recession in decades Nonetheless Mexico is bearing a very heavy humanitarian social and economic cost from COVID 19 including over half a million excess deaths sizable under employment an increase in already high levels of poverty and learning losses for the

young Real income per capita is continuing its long run divergence from the U S while additional challenges are emerging from technological shifts and climate change      **Mexico** International Monetary Fund. Western Hemisphere Dept.,2024-11 Economic activity is decelerating and inflation pressures are receding The fiscal deficit is expected to register a substantial increase in 2024 Mexico maintains sizable buffers a strong external position and effective financial oversight A range of supply side reforms will be needed to catalyze lasting higher growth      **Balance of Payments Manual, Sixth Edition Compilation Guide** Mr.Eduardo Valdivia-Velarde,Ms.Tamara Razin,2014-12-08 The Balance of Payments and International Investment Position Manual 6 Compilation Guide is a companion document to the sixth edition of the Balance of Payments and International Investment Position Manual BPM6 The purpose of the Guide is to show how the conceptual framework described in the BPM6 may be implemented in practice and to provide practical advice on source data and methodologies for compiling statistics on the balance of payments and the international investment position The Guide is not intended to be a stand alone manual and readers should be familiar with the BPM6      **Tracking Global Demand for Advanced Economy Sovereign Debt** Mr.Serkan Arslanalp,Mr.Takahiro Tsuda,2012-12-03 Recent events have shown that sovereigns just like banks can be subject to runs highlighting the importance of the investor base for their liabilities This paper proposes a methodology for compiling internationally comparable estimates of investor holdings of sovereign debt Based on this methodology it introduces a dataset for 24 major advanced economies that can be used to track US 42 trillion of sovereign debt holdings on a quarterly basis over 2004 11 While recent outflows from euro periphery countries have received wide attention most sovereign borrowers have continued to increase reliance on foreign investors This may have helped reduce borrowing costs but it can imply higher refinancing risks going forward Meanwhile advanced economy banks exposure to their own government debt has begun to increase across the board after the global financial crisis strengthening sovereign bank linkages In light of these risks the paper proposes a framework sovereign funding shock scenarios FSS to conduct forward looking analysis to assess sovereigns vulnerability to sudden investor outflows which can be used along with standard debt sustainability analyses DSA It also introduces two risk indices investor base risk index IRI and foreign investor position index FIPI to assess sovereigns vulnerability to shifts in investor behavior
