Revenue Statistics in Latin America and the Caribbean 2018 OECD,Inter-American Center of Tax Administrations,Inter-American Development Bank,Economic Commission for Latin America and the Caribbean,2018-03-27 Revenue Statistics in Latin America and the Caribbean 2018 compiles comparable tax revenue statistics for 25 Latin American and Caribbean economies the majority of which are not OECD member countries The publication is based on the OECD Revenue Statistics database

A Comparative Analysis of Tax Administration in Asia and the Pacific Asian Development Bank,2022-05-01 This report is the 5th edition of ADB s A Comparative Analysis of Tax Administration in Asia and the Pacific It provides internationally comparative data on aspects of

tax systems and their administration in 38 economies and detailed analysis of the comparative results across the region aiming to assist the revenue bodies to improve their performance by providing opportunities to benchmark their administration against similar economies in the region The comparable data and analysis are based largely on the 2020 round of the International Survey on Revenue Administration for the 2018 and 2019 fiscal years

Trends in Emerging Markets Finance, Institutions and Money Duc Khuong Nguyen ,Stéphane Goutte,2020-12-02 Since the waves of financial liberalization in the 1980s emerging market economies have been accessible to foreign investors Altogether they contributed up to 43.8% of the global GDP in 2018 and many of them such as China India Bangladesh Philippines Myanmar and Vietnam from 2010 to 2019 are among the fastest growing economies in the world Given the high economic growth the assets issued by companies in emerging markets are viewed as a new set of investment opportunities for global investors and fund managers who seek to improve the risk adjusted performance of their portfolios In addition to their risky profile due to the lack of transparency as well as stable and matured institutions their recent development path faces a number of challenges arising not only from the slow pace of economic reforms but also from their increased integration with the world Geopolitical risks the US China trade wars and rising policy uncertainty around the world are expected to reduce their growth potential and performance This Special Issue dedicates special attention to the current dynamics of emerging financial markets as well as their perspectives of development as a key driver for sustainable firms and economies Accordingly the focus is particularly placed on market integration and interdependence valuations and risk management practices and the financing means for inclusive growth

[A Fine Mess](#) T. R. Reid,2018-04-03 New York Times bestselling author T R Reid travels around the world to solve the urgent problem of America's failing tax code unravelling a complex topic in plain English and telling a rollicking story along the way The U S tax code is a total write off Crammed with loopholes and special interest provisions it works for no one except tax lawyers accountants and huge corporations Not for the first time we have reached a breaking point That happened in 1922 and again in 1954 and again in 1986 In other words every thirty two years Which means that the next complete overhaul is due in 2018 But what should be in this new tax code Can we make the U S tax system simpler fairer and more efficient Yes yes and yes Can we cut tax rates and still bring in more revenue Yes Other rich countries from Estonia to New Zealand to the UK advanced high tech free market democracies have all devised tax regimes that are equitable effective and easy on the taxpayer But the United States has languished So byzantine are the current statutes that by our government's own estimates Americans spend six billion hours and 10 billion every year preparing and filing their taxes In the Netherlands that task takes a mere fifteen minutes Successful American companies like Apple Caterpillar and Google effectively pay no tax at all in some instances because of loopholes that allow them to move profits offshore Indeed the dysfunctional tax system has become a major cause of economic inequality In *A Fine Mess* T R Reid crisscrosses the globe in search of the exact solutions to these urgent problems With an uncanny knack for making a complex subject not just

accessible but gripping he investigates what makes good taxation not that's not an oxymoron and brings that knowledge home where it is needed most Never talking down or reflexively siding with either wing of politics T R Reid presses the case for sensible root and branch reforms with a companionable ebullience This affects everyone Doing our taxes will never be America's favorite pastime but it can and should be so much easier and fairer *Missing Dollars*, 2024-07-29 Illicit financial flows IFFs associated with commodity trade erode the tax base of resource rich developing countries Efforts to curb IFFs and reform taxation stumble over enhanced North South tensions but remain crucial to helping poorer countries mobilise domestic resources for development The 17th volume of International Development Policy examines this key part of the wider agenda to restore trust in the multilateral system calling for a more transparent effective and equitable trade and tax framework Based on a six year multidisciplinary research project encompassing academic institutions in commodity exporting and trading countries its 24 authors offer a mix of theoretical and empirical contributions and discuss findings of macro and micro level studies The book sheds new light on issues such as addressing push and pull factors through domestic and international policy measures the preferences of key stakeholders for short term fixes versus long term policy reforms and prescriptive approaches and other options to address tax base erosion in resource rich developing countries

Preventing Treaty Abuse Daniel Blum, Markus Seiler, 2016-09-19 Analysis of notion roots and measures of treaty abuse The OECD initiative on Base Erosion and Profit Shifting has put the issue of treaty abuse and the means to counter it on top of the global political agenda Preventing treaty abuse is therefore currently one of the most debated topics in international tax law Diverging national legal traditions in combatting abuse both under domestic and tax treaty law have led to a globally diversified legal framework in this respect and make the OECD's agenda to harmonize these attempts even more challenging The aim of this book is to analyze the notion of treaty abuse its historical roots and the measures to counter it The book's topics cover a wide range of both policy and legal issues The contributions main focus lies on analyzing the proposals put forward by the OECD in BEPS action items 6 and 7 In addition this book analyzes the lessons which can be learnt from the US tax treaty policy and elaborates on the effects the intensified fight against treaty abuse will have from a Non OECD member state perspective Also EU law is taken into account and the question raised which impact the fundamental freedoms might have on the development of new anti avoidance rules Finally the relation between domestic and treaty based anti avoidance is analyzed in great detail identifying the methodical problems of ensuring a sound and abuse safe legal framework With this book the authors and editors hope to contribute to the discussion on selected issues of preventing treaty abuse and the challenges they present to policy makers judges tax administrations and tax advisers
