Eyes Of The Wild Journeys Of Transformation With The Animal Powers:

Eyes of the Wild Eleanor O'Hanlon, 2012-12-06 The shamanic understanding of animals as guides to self knowledge and the soul comes alive in close encounters with some of the most magnificent creatures of the wild **Wild Horses, Wild Wolves** Maureen Enns, 2013-06-03 Established in 1967 the Ghost River Wilderness Area located along the eastern slopes of the Rocky Mountains in southern Alberta is one of only three provincially designated wilderness areas in the province As such it is supposed to have the strictest form of government protection available in Canada with development motorized transportation and recreational activities either tightly controlled or altogether forbidden This has not been the case however It is in this beautiful threatened and geographically remote area that Maureen Enns a well known artist author educator and conservationist has come to discover an incredible world inhabited by wild horses one of the region s most elusive and iconic creatures Descendants of the original settlers of the area have been known to describe the wildies of the Ghost Wilderness as ugly nondescript Roman nosed and useless animals But such descriptions stand in sharp contrast to some of the athletic and beautiful stallions mares and foals that Enns has encountered Using a stunning combination of drawn and painted images conventional and remote photography using hidden cameras activated by heat or motion and traditional stories told by Peigan and Stoney Nakoda people Enns invites the reader to join her as she untangles old myths regarding Alberta s heritage and reveals some uncomfortable realities facing the province in the 21st century The wild horses wolves moose deer and bear profiled in this book have had little contact with humankind As communities developers and governments struggle to understand the impacts of conservation recreation and development in sacred places it is becoming more and more difficult to keep the wild in wild animals This project is passionate plea for understanding conservation and action Rise Up - with Wings Like Eagles Chris Sunderland, 2016-12-09 At a time of great importance in the history of life on the planet human beings find themselves with enormous economic and technological power but also with a terrible inner weakness This book takes a careful look at our vulnerability and proposes some radical new pathways towards a life more in harmony with the natural world Emergent Miriam Kate McDonald, 2022-11-25 In *Emergent* Miriam McDonald explores the relationships that bind our world together It is by reintegrating lost species with historic ranges that rewilding reignites the miraculous dance of life across landscapes It is through reforming severed relationships that regenerative farmers build soil produce nutrient dense food and foster a renewed sense of kinship and community And it is by reweaving our lives with those of the wild that we can restore our earth and ourselves Regenerative agriculture and rewilding grow from the same root but appear as separate entities to our unaccustomed eyes divided by how we view ourselves within or banish ourselves from the land *Emergent* delves into this divide to explore the fascinating story of our exclusion from the wild and the scientific discovery of our interdependence with it Above all *Emergent* gives us a reason to be hopeful To embrace all that humanity is and can be as an amazingly beneficial force in a complex and connected world **Demystifying Sustainability** Haydn

Washington,2015-02-11 What is sustainability Much has been said about the terms sustainability and sustainable development over the last few decades but they have become buried under academic jargon This book is one of the first that aims to demystify sustainability so that the layperson can understand the key issues questions and values involved Accessible and engaging the book examines the old sustainability of the past and looks to the future considering how economic ecological and social sustainability should be defined if we are to solve the entwined environmental economic and social crises It considers if meaningful sustainability is the same as a sustainable development based on endless growth examining the difficult but central issues of overpopulation and overconsumption that drive unsustainability The book also explores the central role played by society s worldview and ethics along with humanity s most dangerous characteristic denial Finally it looks to the future discussing the appropriate technology needed for sustainability and suggesting nine key solutions This book provides a much needed comprehensive discussion of what sustainability means for students policy makers and all those interested in a sustainable future

The Saviour Fish Mark Weston,2022-04-29 Mark Weston s book is a delight From charming neighbourhood children to failing fish stocks not forgetting the perfect recipe for banana beer *The Saviour Fish* is a compelling account of life on a remote Tanzanian island told by a writer who has his eyes wide open and his heart fully engaged James Copnall Presenter Newsday BBC World Service and author of *A Poisonous Thorn in our Hearts* Sudan and South Sudan s Bitter and Incomplete Divorce Sent to live on a remote island in the Tanzanian half of Lake Victoria Mark Weston finds a community grappling with one of the world s great unknown environmental crises You used to be able to stand on the beach and fish In my father s time you could catch them with your bare hands Lake Victoria was once one of the most biodiverse places on Earth but a predator released into its waters by East Africa s British colonisers has left a trail of destruction in its wake The lives of millions of people have been upended as a fateful confluence of overfishing pollution and deforestation has triggered one of history s greatest mass extinctions On remote Ukerewe Island Mark Weston finds out how local communities are responding to the crisis He lives for two years alongside the families and fishermen hardest hit by the upheaval and gets to know the aid workers sorcerers and holy men whose businesses are booming A captivating blend of travel writing and environmental reportage *The Saviour Fish* paints an intimate picture of rural Tanzanian life and of the human cost of biodiversity loss

A Sense of Wonder Towards Nature Haydn Washington,2018-08-06 Environmental scientist and writer Haydn Washington argues that we will not solve the environmental crisis unless we change our worldview and ethics and to do so we must rejuvenate our sense of wonder at nature This book focuses on humanity s relation with nature and the sense of wonder and belonging common to indigenous cultures and children everywhere Drawing on events in the author s own four decades working to protect wild places and the current literature on wonder it examines what a sense of wonder is what it has been called in different cultures and our high points of wonder at nature It also looks at the Great Divide in worldview between anthropocentrism and ecocentrism and considers the problem of

anthropocentric theory in academia arguing that the focus should instead be on harmony with nature The book concludes with an examination of why wonder has become buried in Western society and considers ways in which it can be revived including rituals and education It also considers how wonder helps humanity to become whole The final chapter presents the road back to wonder and how wonder towards nature can be restored in Western society This book will be of great interest to environmental scientists conservation biologists environmental philosophers and ecological ethicists as well as environmentalists educators eco psychologists and students looking at sustainability deep ecology and environmental philosophy and ethics

Things My Dog Has Taught Me Jonathan Wittenberg, 2017-10-19 A wonderful read Lorraine Kelly In this book for dog lovers everywhere Jonathan Wittenberg says his dogs have taught him more than anything else how to appreciate the wonderful world in which we live and how to develop better relationships with his friends and families In this wonderful warm account of one man and his dog Jonathan brings all the big themes of friendship faithfulness kindness cruelty grief prayer and spiritual companionship to the fore and shows us how we can learn so much from a dog's approach to life If you're one of the 8.5 million dog owners in the UK the answer to a better way of living may already be under your roof

Conservation Helen Kopnina, Haydn Washington, 2019-08-05 This book provides keys to decrypt current political debates on the environment in light of the theories that support them and provides tools to better understand and manage environmental conflicts and promote environmentally friendly behaviour As we work towards global sustainability at a time when efforts to conserve biodiversity and combat climate change correspond with land grabs by large corporations food insecurity and human displacement While we seek to reconcile more than human relations and responsibilities in the Anthropocene we also struggle to accommodate social justice and the increasingly global desire for economic development These and other challenges fundamentally alter the way social scientists relate to communities and the environment This book takes as its point of departure today's pressing environmental challenges particularly the loss of biodiversity and the role of communities in protected areas conservation In its chapters the authors discuss areas of tension between local livelihoods and international conservation efforts between local communities and wildlife and finally between traditional ways of living and modernity The central premise of this book is while these tensions cannot be easily resolved they can be better understood by considering both social and ecological effects in equal measure While environmental problems cannot be seen as purely ecological because they always involve people who bring to the environmental table their different assumptions about nature and culture so are social problems connected to environmental constraints While nonhumans cannot verbally bring anything to this negotiating table aside from vast material benefits that society relies on the distinct perspective of this book is that there is a need to consider the role of nonhumans as equally important stakeholders albeit without a voice This book develops an argument that human environmental relationships are set within ecological reality and ecological ethics and rather than being mutually constitutive processes humans have obligate dependence on nature not vice

versa This would enable an ethical position encompassing the needs of other species and giving simultaneous without one being subordinated to another consideration to justice for humans and non humans alike The book is accessible to both social scientists and conservation specialists and intends to contribute to strengthening interdisciplinary collaborations in the field of conservation

must navigate a world filled with peril magic and shifting allegiances Torn between two groups one ragtag but free the other powerful but binding he must decide where he truly belongs Along the way he encounters a Golden Lion who dreams of a new world a Water Spouter who wields wisdom like a river and a Dust Dragon who seeks to rule with fire and fear But as ancient forces rise the wolfdog's very shape begins to change reflecting the battle between light and shadow within himself Animal Spell is a mythic journey of transformation loyalty and destiny one that invites readers to explore their own hidden

depths and discover their true soul self Lore of Proserpine Maurice Hewlett, 2019-11-27 In *Lore of Proserpine* Maurice Hewlett crafts a rich tapestry of prose infused with vivid imagery and lyrical resonance exploring the themes of love loss and the eternal cycle of nature and human experience Set against the backdrop of classical mythology particularly the Roman goddess Proserpine the narrative weaves together elements of romance and existential contemplation encapsulating the human quest for meaning amid a world both beautiful and treacherous Utilising a style reminiscent of the Romantics Hewlett invites readers into a lush evocative landscape that captivates the senses while prompting deeper philosophical inquiries into mortality and rebirth Maurice Hewlett 1861 1923 was not only a novelist but also a poet and essayist deeply engaged with the intellectual currents of his time including medieval history and aesthetics His extensive travels across Europe and thorough studies of classical literature undoubtedly influenced his portrayal of mythological figures and themes of transformation Hewlett s desire to bridge the past and present through his narratives reflects a broader cultural fascination with myth during the late 19th and early 20th centuries making his work resonate with contemporaneous literary movements *Lore of Proserpine* is a compelling read for anyone intrigued by the interplay between myth and reality Hewlett s ability to blend poetic elegance with philosophical depth makes this book an essential exploration for lovers of literature who appreciate the nuanced relationships between human emotion and mythological narratives This captivating work invites readers to reflect on their own existential journeys while reveling in the beauty of language *T&T Clark Handbook of the Doctrine of Creation* , 2024-03-07 The T how the doctrine of creation informs and is informed by various dogmatic commitments and how the doctrine of creation relates to a range of human concerns and activities The Handbook represents a celebration of fascination with bewilderment at lament about and hope for all that is and serves as a scholarly innovative and constructive reference for those interested in attending to what Christian belief has to contribute to thinking about and living with the mysterious existence named creation **Superdove** Courtney Humphries, 2008-08-12 Why do we see pigeons as lowly urban pests and how did they become such common city dwellers Courtney Humphries traces the natural history of the pigeon recounting how these shy birds that once made their homes on the sparse cliffs of sea coasts came to dominate our urban public spaces While detailing this evolution Humphries introduces us to synanthropy The concept that animals can become dependent on humans without ceasing to be wild they can adapt to the cityscape as if it were a field or a forest Superdove simultaneously explores the pigeon s cultural transformation from its life in the dovecotes of ancient Egypt to its service in the trenches of World War I to its feats within the pigeon racing societies of today While the dove is traditionally recognized as a symbol of peace the pigeon has long inspired a different sort of fetishistic devotion from breeders eaters and artists and from those who recognized and exploited the pigeon s astounding abilities Because of their fecundity pigeons were symbols of fertility associated with Aphrodite while their keen ability to find their way home made them ideal messengers and even pilots Their usefulness largely forgotten today s pigeons have become as ubiquitous and reviled as rats

But Superdove reveals something more surprising By using pigeons for our own purposes we humans have changed their evolution And in doing so we have helped make pigeons the ideal city dwellers they are today In the tradition of Rats the book that made its namesake rodents famous Superdove is the fascinating story of the pigeon s journey from the wild to the city the home they ll never leave **Llewellyn's 2025 Witches' Companion** Llewellyn,2024-07-08 Pivotal Perspectives on Modern Magic Now featuring more articles than ever Llewellyn s 2025 Witches Companion makes it easy to stay on top of the trends in today s Pagan and Witchcraft communities Packed with advice from prominent practitioners and hands on tips to fortify your magical prowess this inclusive almanac provides nearly thirty articles exploring the forefront of contemporary magic Coming Out to Your Non Witchy Friends Befriending Deities Climate Change and Paganism The Wheel of the Year for Modern Witches Avoiding Scams for Spiritual Services Rituals to Honor Military Service People Magickally Responsible Travel Morning Coffee with the Ancestors Finding the Spiritual Side of a Fight Witchcraft s Human Element in the Age of AI This year s edition includes spells rituals projects and advice from some of the most popular Witch and Pagan writers Elizabeth Barrette Emily Carlin Autumn Damiana Lilith Dorsey Emma Kathryn Phoenix LeFae Najah Lightfoot Kate Freuler Dodie Graham McKay Ari Jason Mankey Melanie Marquis Diana Rajchel Stephanie Rose Bird Michelle Skye Tess Whitehurst Laura Tempest Zakroff Includes lunar information for spellwork and rituals **Pagan Portals - Cerridwen** Danu Forest,2024-11-26 Harken back to the call of Cerridwen mistress of initiation and keeper of the cauldron of inspiration Follow the footsteps of the bards and dive into her mysterious depths in search of the radiant brow of inner vision Drink of her Awen her divine brew and sit with Taliesin keeper of the bright knowledge of spirit Cerridwen has been honoured by the Welsh bards for centuries and is known most famously as the mother and initiator of the bardic poet and divine child Taliesin whose works are the greatest treasures of Welsh medieval literature unlocking a spiritual tradition whose roots go far back to Britain s most ancient past *Human-Animal Relationships in San and Hunter-Gatherer Cosmology, Volume I* Mathias Guenther,2019-08-21 Exploring a hitherto unexamined aspect of San cosmology Mathias Guenther s two volumes on human animal relations in San cosmology link new Animism with Khoisan Studies providing valuable insights for Khoisan Studies and San culture but also for anthropological theory relational ontology folklorists historians literary critics and art historians In Volume I therianthropes and transformations two manifestations of ontological mutability that are conceptually and phenomenologically linked are contextualized in broader San myth Guenther explores the pervasiveness of human animal hybridity and transformation in San expressive culture myth stories and storytelling ludic dancing and art ancestral rock art and contemporary easel art ritual trance dance curing female and male rites of passage and hunting Transformation is shown to be experienced by humans particularly via rituals and dancing that evoke animal identity mergers but also by hunters who may engage with their prey animals in terms of sympathy and inter subjectivity particularly through the use of hunting medicines Sacral Grooves, Limbo Gateways Keith Cartwright,2013 We re seeing people that we didn t know exist the
