## Eyes Like Butterflies:

Eyes Like Butterflies Terence E. R. Hodgson, 2006 Publisher description      *Eyes Like Butterflies* Terence E. R. Hodgson, 2003 This innovative treasury of similes and metaphors from modern literature in English will delight any reader. The images were selected from over 3000 novels for their humor, poignancy, and the way they distill a vivid thought into an original phrase. e.g. hair like the insides of a Salvation Army mattress, a smile like a torch with a weak battery, adolescents like spies in a cold waiting room. This is an unmatched literary tool for writers, students, and teachers to show how skilled authors engaged readers.      There But For The Ali Smith, 2011-09-13 From the acclaimed award-winning author, when a dinner party guest named Miles locks himself in an upstairs room and refuses to come out, he sets off a media frenzy. He also sets in motion a mesmerizing puzzle of a novel, one that harnesses acrobatic verbal playfulness to a truly affecting story. Miles communicates only by cryptic notes slipped under the door. We see him through the eyes of four people who barely know him, ranging from a precocious child to a confused elderly woman. But while the characters' wit and wordplay soar, their story remains profoundly grounded. As it probes our paradoxical need for both separation and true connection, *There but for the* balances cleverness with compassion, the surreal with the deeply moving, real in a way that only Ali Smith can.      **Insect Ecomorphology** Oliver Betz, 2025-02-25 *Insect Ecomorphology: Linking Functional Insect Morphology to Ecology and Evolution* offers the most up-to-date knowledge and understanding of the morphology of insects and the functional basis of their diversity. This book covers the form and function of insect body structures synthesized with their physiological performance capabilities, biological roles, and evolutionary histories. Written by international experts, this book provides a modern outline of the topic, exploring the ecomorphology of functional systems such as insect feeding, locomotion, sensing, and reproduction. The combination of conceptual and review chapters, methodological approaches, and case studies enables readers to delve into active research fields and attain a general idea of the explanatory power of the form-function-performance paradigm. The book uncovers key structures of the different regions of the insect body, elucidates how they function, and investigates their ecological and evolutionary implications. *Insect Ecomorphology: Linking Functional Insect Morphology to Ecology and Evolution* is a vital resource for entomologists, biologists, and zoologists, especially those seeking to better understand the morphology and physiological impacts of insects on environments and evolution. Integrates traditionally separate fields of research with the aim of understanding insect morphology, ecology, and evolution. Considers the impacts of insect ecomorphology on biomimetic applications. Includes conceptual and methodological chapters to help readers appreciate the ways in which ecomorphological studies are performed.      *The Greatest Mysteries of Earl Derr Biggers - 11 Titles in One Volume (Illustrated Edition)* Earl Derr Biggers, 2023-12-22 In *The Greatest Mysteries of Earl Derr Biggers: 11 Titles in One Volume (Illustrated Edition)*, readers are treated to a masterful compilation of Biggers' iconic works, which intricately weave elements of mystery, humor, and social commentary.
