Draper, 2015-10-30 Forensic psychology is where psychology meets the criminal justice system An understanding of the intersection of criminal law and psychological issues relating to criminal responsibility is critical for criminal justice students This accessible text focuses on the criminal law implications of

forensic psychology as it relates to topics such as competency to stand trial state of mind at the time of the crime suicide by cop and involuntary psychiatric medication administered in custody Unlike more traditional texts on this topic which are primarily concerned with the clinical practice of forensic psychology this book focuses on critical thinking as it relates to these topics Each chapter presents a critical analysis of the topic under study going beyond merely identifying the legal parameters of criminal responsibility to explore the ethical philosophical and theoretical foundations of that concept

Eyewitness Testimony Elizabeth F. Loftus, 1996 Every year hundreds of defendants are convicted on little more than the say so of a fellow citizen Although psychologists have suspected for decades that an eyewitness can be highly unreliable new evidence leaves no doubt that juries vastly overestimate the credibility of eyewitness accounts It is a problem that the courts have yet to solve or face squarely In *Eyewitness Testimony* Elizabeth Loftus makes the psychological case against the eyewitness Beginning with the basics of eyewitness fallibility such as poor viewing conditions brief exposure and stress Loftus moves to more subtle factors such as expectations biases and personal stereotypes all of which can intervene to create erroneous reports Loftus also shows that eyewitness memory is chronically inaccurate in surprising ways An ingenious series of experiments reveals that memory can be radically altered by the way an eyewitness is questioned after the fact New memories can be implanted and old ones unconsciously altered under interrogation These results have important implications for court reform police interrogation methods defense strategy and many other aspects of criminal and civil procedure *Eyewitness Testimony* is a powerful book that should be required reading for trial lawyers social psychologists and anyone who considers the chilling prospect of confronting an eyewitness accusation in a court of law **Psychomythics**

William R. Uttal, 2014-04-04 Psychology deals with the most complex subject matter of any science As such it is subject to misunderstandings artifacts and just simple errors of data logic and interpretation This book teases out the details of some of the sources of these errors It considers errors in psychological data and theories that arise from confusing endogenous and exogenous causal forces in perceptual research misinterpreting the effects of inevitable natural laws as psychological phenomena improper application of statistics and measurement and flawed assumptions Examples of each of these sources of error are presented and discussed Finally the book concludes that a return to a revitalized kind of behaviorism is preferred rather than continuing on the current cognitive path *The Rhetoric of Seeing in Attic Forensic Oratory* Peter A.

O'Connell, 2017-03-01 In ancient Athenian courts of law litigants presented their cases before juries of several hundred citizens Their speeches effectively constituted performances that used the speakers appearances gestures tones of voice and emotional appeals as much as their words to persuade the jury Today all that remains of Attic forensic speeches from the fifth and fourth centuries BCE are written texts but as Peter A O Connell convincingly demonstrates in this innovative book a careful study of the speeches rhetoric of seeing can bring their performative aspect to life Offering new interpretations of a wide range of Athenian forensic speeches including detailed discussions of Demosthenes *On the False Embassy* Aeschines

Against Ktesiphon and Lysias Against Andocides O Connell shows how litigants turned the jurors scrutiny to their advantage by manipulating their sense of sight He analyzes how the litigants words work together with their movements and physical appearance how they exploit the Athenian preference for visual evidence through the language of seeing and showing and how they plant images in their jurors minds These findings which draw on ancient rhetorical theories about performance seeing and knowledge as well as modern legal discourse analysis deepen our understanding of Athenian notions of visibility They also uncover parallels among forensic medical sophistic and historiographic discourses that reflect a shared concern with how listeners come to know what they have not seen

Evidence for the Crucifixion and Resurrection of Jesus Christ Examined through Islamic Law Suheil Madanat,2023-08-31 For almost 1 400 years Christians have wrestled with appropriate ways to defend their claims to truth in the context of Islam Dr Suheil Madanat proposes that the answer lies neither in the antagonization of polemics nor apologetic arguments rooted in Western legal systems but instead in utilizing the authority of Islamic law itself While evidence for the resurrection has been legally examined since the seventeenth century legal apologetics has primarily utilized secular law systems such as Anglo American common law In this study Dr Madanat tests evidence for the crucifixion and resurrection against Islam s fixed theocratic law of Sharia Offering an overview of the evolution and constitution of Islamic law Dr Madanat examines how eyewitness testimonies and confessions in the New Testament hold up against Islam s strict standards for evidence Authenticating the Gospels using the same standards Islamic scholars use to defend the authenticity of the Qur an and Sunna Madanat examines the testimonies of the four evangelists the confessions of James and Paul and the circumstantial evidence offered by archeology church history and the Christian impact on civilization This book engages with Islam and its sacred texts seriously and with respect providing a powerful resource for those interested in apologetics and comparative religion

Mind over Matter Sarah Eron,2021-04-01 How do we understand memory in the early novel Departing from traditional empiricist conceptualizations of remembering Mind over Matter uncovers a social model of memory in Enlightenment fiction that is fluid and evolving one that has the capacity to alter personal histories Memories are not merely imprints of first hand experience stored in the mind but composite stories transacted through dialogue and reading Through new readings of works by Daniel Defoe Frances Burney Laurence Sterne Jane Austen and others Sarah Eron tracks the fictional qualities of memory as a force that much like the Romantic imagination transposes time and alters forms From Crusoe s island and Toby s bowling green to Evelina s garden and Fanny s east room memory can alter reconstitute and even overcome the conditions of the physical environment Memory shapes the process and outcome of the novel s imaginative world making drafting new realities to better endure trauma and crises Bringing together philosophy of mind formalism and narrative theory Eron highlights how eighteenth century novelists explored remembering as a creative and curative force for literary characters and readers alike If memory is where we fictionalize reality fiction and especially the novel is where the truths of memory can be found

Thought-based

Linguistics Wallace Chafe, 2018-04-19 The extent to which language is inseparable from thought has long been a major subject of debate across linguistics psychology philosophy and other disciplines In this study Wallace Chafe presents a thought based theory of language that goes beyond traditional views that semantics syntax and sounds are sufficient to account for language design Language begins with thoughts in the mind of a speaker and ends by affecting thoughts in the mind of a listener This obvious observation is seldom incorporated in descriptions of language design for two major reasons First the role of thought is usually usurped by semantics But semantic structures are imposed on thought by languages and differ from one language to another Second thought does not lend itself to familiar methods of linguistic analysis Chafe suggests ways of describing thoughts traces the path languages follow from thoughts to sounds and explores ways in which thoughts are oriented in time memory imagination reality and emotions *Intuition, Imagination, and Philosophical Methodology*

Tamar Szabó Gendler, 2013-07-18 Tamar Gendler draws together in this book a series of essays in which she investigates philosophical methodology which is now emerging as a central topic of philosophical discussions Three intertwined themes run through the volume imagination intuition and philosophical methodology Each of the chapters focuses in one way or another on how we engage with subject matter that we take to be imaginary This theme is explored in a wide range of cases including scientific thought experiments early childhood pretense thought experiments concerning personal identity fictional emotions self deception Gettier cases and the general relation of conceivability to possibility Each of the chapters explores in one way or another the implications of this for how thought experiments and appeals to intuition can serve as mechanisms for supporting or refuting scientific or philosophical claims And each of the chapters self consciously exhibits a particular philosophical methodology that of drawing both on empirical findings from contemporary psychology and on classic texts in the philosophical tradition particularly the work of Aristotle and Hume By exploring and exhibiting the fruitfulness of these interactions Gendler promotes the value of engaging in such cross disciplinary conversations in illuminating philosophical issues

Luke among the Ancient Historians John J. Peters,2022-05-24 For centuries scholars have analyzed the composition of Luke Acts presupposing that the reference to many accounts in Luke s Preface indicates the written texts which served as the author s primary sources of information To justify this portrait of Luke as a text based author scholars have appealed to analogies with the text based authors Dionysius of Halicarnassus Diodorus Siculus Plutarch and Arrian Luke among the

Ancient Historians challenges this portrait of Luke's method through surveying the origins and development of ancient Greek historiography in chapters on Herodotus Thucydides Polybius Josephus and Luke By focusing on the values and practices of ancient historians Peters demonstrates not only that ancient authors following the model of Thucydides regarded the testimony of eyewitnesses as opposed to texts as the proper sources for historians but that Luke emulated the values practices and craft terminology of the contemporary historiographical tradition Taking seriously the self presentation of Luke as a reporter of contemporary events who claims to write on the basis of eyewitnesses from the beginning and personal investigation this book argues against analogies with text based historians who wrote about non contemporary events and instead situates Luke within a portrait of the values and practices of historians of contemporary events Miscarriages of Justice in Canada Kathryn M. Campbell, 2018-06-12 Innocent people are regularly convicted of crimes they did not commit A number of systemic factors have been found to contribute to wrongful convictions including eyewitness misidentification false confessions informant testimony official misconduct and faulty forensic evidence In Miscarriages of Justice in Canada Kathryn M Campbell offers an extensive overview of wrongful convictions bringing together current sociological criminological and legal research as well as current case law examples For the first time information on all known and suspected cases of wrongful conviction in Canada is included and interspersed with discussions of how wrongful convictions happen how existing remedies to rectify them are inadequate and how those who have been victimized by these errors are rarely compensated Campbell reveals that the causes of wrongful convictions are in fact avoidable and that those in the criminal justice system must exercise greater vigilance and openness to the possibility of error if the problem of wrongful conviction is to be resolved **New Light on Luke** Barbara Shellard, 2004-10-27 This radical new interpretation reveals many connections between Luke and Johannine traditions Comparision of pericopae shared by Luke and John suggests that the usual assumptions of Lukan priority may be mistaken instead his may be chronologically the fourth gospel Luke nevertheless treats his sources in different ways his response being both critical and creative He aims to give security to Christians by including as much as possible and reconciling conflicting traditions while firmly excluding heretical misinterpretation Shellard also includes a consideration of Luke's use of possible sources both canonical and extra canonical and places Luke Acts in its literary context noting among other things the presentation of Rome as a facilitator of evangelization and a promoter of co existence This is volume 215 in the Journal for the Study of the New Testament Supplement series *Epistemology and Logic in the New Testament* Douglas W. Kennard, 2016-11-30 Biblical contributors express an oral stage engaging Christianity within a properly basic communal worldview similar to Alvin Plantinga advocates This approach includes a communal Christian application of common sense realism within a worldview and rhetoric similar to Hillite Pharisaism Each biblical contributor provided vivid testimony using rabbinic language and thought forms For example Jewish Christian midrash re appropriates Old Testament quotes and narrative in a new performative pesher manner to

present Jesus as the Christ Moving beyond the word studies of biblical epistemologists Pharisaic rabbinic Judaism use of biblical revelation mystical vision dream or audible divine voice frame mystical empiricism similar to William Alston Non foundational realism facilitates a communal resilient oral tradition similar to the rabbinics Additionally Luke Acts extensively engages Hellenistic historiographic method and the concept of witness When multiple interpretations occur concerning miracles epistemic dualistic non foundational Lockean epistemology emerges to contribute to the authority of communal kingdom testimony Occasionally this Lockean approach adds an internal transformation much as Jonathan Edwards modified Locke to set forth his religious affections as a divine virtue epistemology confirming the authentic narrow way through Peircean pragmatism This internal knowledge provides self referential confirmation for a personal relationship and filial knowledge Each of these expressions of knowledge fosters an ultimate Kierkegaardian commitment to the Trinitarian Christian God
