Educated Fiji English Lena Zipp, 2014-02-15 This volume contains a comprehensive corpus based study of prepositional constructions in written Fiji English. It explores the endo and exonormative dynamics of norm giving and norm developing varieties and contributes to our understanding of structural nativization and variety formation in a multi ethnic setting. The book provides an account of the sociolinguistic development of English in Fiji against the backdrop of the country's colonial and post independence history with special focus on the Indo Fijian part of the population. Drawing on the written sections of the Indian Great Britain New Zealand and preliminary Fiji components of the International Corpus of English, quantitative and qualitative analyses of prepositional phenomena are conducted on the word level frequency, semantic effects and stylistic variation, phrase level productivity in verb particle combinations and pattern level prepositions and ing clauses. The book will be relevant to scholars interested in lexico grammar variety and corpus linguistics and sociolinguistics in general. *Collins COBUILD English Guides*, 1991 *Collins COBUILD English Guides* Roger Berry, Edwin Carpenter, Geoff Thompson, Alice Deignan, Jonathan Payne, Sylvia Chalker, University of Birmingham, 1991 **Corpus Linguistics for Translation and Contrastive Studies** Mikhail Mikhailov, Robert Cooper, 2016-05-20 *Corpus Linguistics for Translation and Contrastive Studies* provides a clear and practical introduction to using corpora in these fields. Giving special attention to parallel corpora which are collections of texts in two or more languages and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers, this book explores the different types of parallel corpora available and shows how to use basic and advanced search procedures to analyse them. It explains how to compile a parallel corpus and discusses their uses for translation purposes and to research linguistic phenomena across languages. It demonstrates the use of corpus extracts across a wide range of texts including dictionaries, novels by authors including Jane Austen and Mikhail Bulgakov and newspapers such as The Sunday Times. It is illustrated with case studies from a range of languages including Finnish, Russian, English and French. Written by two experienced researchers and practitioners, *Corpus Linguistics for Translation and Contrastive Studies* is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies. **Collins Cobuild English guides** Sylvia Chalker, John Sinclair, 1996 *English Guides 1: Prepositions* Sinclair John, **Linking Words** Sylvia Chalker, 1996 Derived from the COBUILD database, each book in this series provides clear and detailed explanations supported by numerous English examples on specific areas of English.
