Lindblad, Peter Post, 2009-01-01 This collection of essays provides insights into the complex process of economic decolonization in Indonesia from a variety of perspectives The emancipation from Dutch colonialism in the economic sphere is linked to the unique features of the new nation state emerging in newly independent Indonesia This included a key role in business for the military A key part was also played by indigenous Indonesian business firms that were shaped by the Japanese occupation and the Indonesian Revolution The analysis embraces two types of comparisons Different experiences of economic decolonization across regions are illustrated by events unfolding in the agricultural estate areas of Deli in North Sumatra and Jember in East Java Here the focus is on confrontations between

private Dutch capital and Indonesian labour unions In addition the overall experience of Indonesia is offset against similar processes at work in other former European colonies in Asia in particular neighbouring Malaysia The international comparison shows how dramatic and difficult economic decolonization was and also how profound its consequences were With contributions from Tri Chandra Apriyanto Anne Booth Jasper van de Kerkhof J Thomas Lindblad editor Daan Marks Peter Post editor Bambang Purwanto and Thee Kian Wie

Robins, 2021-05-21 Oil palms are ubiquitous grown in nearly every tropical country they supply the world with more edible fat than any other plant and play a role in scores of packaged products from lipstick and soap to margarine and cookies And as Jonathan E Robins shows sweeping social transformations carried the plant around the planet First brought to the global stage in the holds of slave ships palm oil became a quintessential commodity in the Industrial Revolution Imperialists hungry for cheap fat subjugated Africa's oil palm landscapes and the people who worked them In the twentieth century the World Bank promulgated oil palm agriculture as a panacea to rural development in Southeast Asia and across the tropics As plantation companies tore into rainforests evicting farmers in the name of progress the oil palm continued its rise to dominance sparking new controversies over trade land and labor rights human health and the environment By telling the story of the oil palm across multiple centuries and continents Robins demonstrates how the fruits of an African palm tree became a key commodity in the story of global capitalism beginning in the eras of slavery and imperialism persisting through decolonization and stretching to the present day

Legitimacy Crisis in Thailand Marc Askew, 2010-10-08 Intense political polarization confrontation and violence have rocked Thailand recently much of it a divisive legacy of the 2006 coup Conflicts centre on the legitimacy of institutions and the uses and abuses of power alongside the parallel crisis of state legitimacy posed by the ongoing violence in the country's Deep South This collection of essays explores themes and issues arising from the continuing confrontations that have dominated Thailand's domestic affairs and affected its international relations in the years 2008 to early 2010 Based on extensive research and documentation this

Bondarenko, 2023-05-30 Using historical and anthropological analysis in *Post Colonial Nations in Historical and Cultural Context*. Dmitri M. Bondarenko examines nation building in Tanzania, Uganda, and Zambia. He examines the nation and state as concepts and how these are changing globally, particularly in regard to the idea that the fundamental characteristic of a nation is a culturally homogeneous community. This feature became a cornerstone of the concept of the nation at its formation in the West by the end of the eighteenth century, but post-colonial migration flows from the Global South to the Global North are increasing multi-culturalism in the North. In contrast, liberated states of Asia and Africa have been multi-cultural from earlier on as they inherited the colonial borders in which typically many peoples were united. Throughout the book, Bondarenko argues that this history of multi-culturalism is an advantage to development in the Global South and that it is necessary to depart from the classical Western concept of the nation to simultaneously support citizen unity while preserving cultural diversity. *Elgar Encyclopedia of Public Management* Schedler, Kuno, 2022-08-16 This comprehensive

A Gentleman's Word Nilanjana Sengupta, 2012 The great Indian nationalist leader Subhas Chandra Bose arrived in Singapore in 1943 to revitalize the Indian National Army (INA). Taking the opportunity of the Japanese occupation of parts of Southeast Asia, he launched armed struggle against British colonial rule in India. Two years later, that attempt failed at the eastern gates of India. Yet it was a temporary failure because the INA helped set in motion a series of developments within India. These

would culminate in its freedom in a further two years Bose is household name in India He is remembered in Southeast Asia as well particularly among Indians However while his contributions to India s independence movement have been recorded exhaustively less is known about the legacy that he left behind in Southeast Asia This book seeks to fill that gap in the international understanding of a great Indian nationalist and pan Asianist It records how participation in the nationalist struggle invested Southeast Asian Indians with a rare sense of dignity and helped foster a mushrooming of militant trade unions making it difficult for the returning British planters to perpetuate their control over what had been a docile workforce The INA s Rani of Jhansi movement proved to be a pioneering effort at drawing Southeast Asian Indian women out of their traditional roles and expectations It inspired some of them to take up mainstream roles for the cause of equality and emancipation A Gentleman s Word retraces this journey of self discovery of those who were inspired by Subhas Chandra Bose The great Indian nationalist leader Subhas Chandra Bose arrived in Singapore in 1943 to revitalize the Indian National Army INA Taking the opportunity of the Japanese occupation of parts of Southeast Asia he launched armed struggle against British colonial rule in India Two years later that attempt failed at the eastern gates of India Yet it was a temporary failure because the INA helped set in motion a series of developments within India These would culminate in its freedom in a further two years Bose is household name in India He is remembered in Southeast Asia as well particularly among Indians However while his contributions to India s independence movement have been recorded exhaustively less is known about the legacy that he left behind in Southeast Asia This book seeks to fill that gap in the international understanding of a great Indian nationalist and pan Asianist It records how participation in the nationalist struggle invested Southeast Asian Indians with a rare sense of dignity and helped foster a mushrooming of militant trade unions making it difficult for the returning British planters to perpetuate their control over what had been a docile workforce The INA s Rani of Jhansi movement proved to be a pioneering effort at drawing Southeast Asian Indian women out of their traditional roles and expectations It inspired some of them to take up mainstream roles for the cause of equality and emancipation A Gentleman s Word retraces this journey of self discovery of those who were inspired by Subhas Chandra Bose

As Empires Fell Ooi Kee Beng, 2020-06-22 To understand how independence was gained for a politically complex country such as Malaysia and how its structure took form requires familiarity with the key players involved More importantly only by locating these actors within the changing socio political context in which they specifically lived does their influence both before and after the birth of the country become clear Having written potent biographies about Malaysian and Singapore leaders such as Ismail Abdul Rahman the Deputy Prime Minister of Malaysia who died in 1973 Goh Keng Swee the economic architect and one of the founding fathers of the Republic of Singapore and Lim Kit Siang the unwavering opposition leader of Malaysia Ooi Kee Beng now tells the story of Lee Hau Shik based on the latter s extensive private papers housed at ISEAS Library Singapore Born in Hong Kong to a highly prominent family at a time when the Qing Dynasty was falling Hau Shik received degrees in Law and Economics in

Cambridge and became a successful tin miner in British Malaya and an influential member of Kuala Lumpur's colonial society. After the Second World War his influence in elite circles in China, Britain and Malaya allowed him to play a key role in the gaining of independence for Malaysia. He was one of the founders of the Malayan Chinese Association and served as the country's first Minister of Finance. Ooi Kee Beng's new book on H. S. Lee provides a remarkable picture of an unlikely politician who made major contributions to the formation of the early Malayan state. It adds another dimension of study to the formidable task of nation building in a multi-communal society and is an excellent follow-up to his widely praised study of Tun Ismail as the reluctant politician. Wang Gungwu, National University of Singapore. Set against the global turbulence that marks the birth of modern Malaysia, Ooi Kee Beng has given us a compelling account of Sir Henry Lee Hau Shik's personal life and political career, his role in the move to independence and the indelible imprint he left on the country's history. In highlighting and contextualizing H. S. Lee's own papers, *As Empires Fell* should be read by all those interested in how Malaysia came to be. Barbara Watson Andaya, University of Hawai'i.

Islam in Modern Thailand Rajeswary Ampalavanar Brown, 2013-10-01. This book addresses the complexity of Islam in Thailand by focusing on Islamic charities and institutions affiliated to the mosque. By extrapolating through Islam and the waqf (Islamic charity) in different regions of Thailand, the diversity in races and institutions, it demonstrates the regional contrasts within Thai Islam. The book also underlines the importance of the internal histories of these separate spaces and the processes by which institutions and ideologies become entrenched. It goes on to look at the socio-economic transformation that is taking place within the context of trading networks through Islamic institutions and civil networks linked to mosques, madrasahs and regional power brokers. Brown casts this study of private Islamic welfare as strengthening rather than weakening relations with the secular Thai state. The current regime's effectiveness in coopting these Muslim elites, including Lutfi and Wisoot into state bureaucracies, assists in widening their popular base in the south, in the north-east and in Bangkok. Such appointments were efficacious in reinforcing the elite's Islamic identity within a modern secular, literate and cosmopolitan Thai culture. In challenging existing studies of Thai Muslims as furtive protest minorities, this book diverts our attention to how Islamic philanthropy provides the logic and dynamism behind the creation of autonomous spaces for these independent groups, affording unusual insights into their economic, political and social histories.
