Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge, 2007-11-30 In 1800 Europeans governed about one third of the world s land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism

Finnish Colonial Encounters Raita Merivirta, Leila Koivunen, Timo Särkkä, 2022-01-01 Breaking new ground in the study of European colonialism this book focuses on a nation historically positioned between the Western and Eastern Empires of Europe Finland Although Finland never had overseas colonies the authors argue that the country was undeniably involved in the colonial

world with Finns adopting ideologies and identities that cannot easily be disentangled from colonialism This book explores the concepts of colonial complicity and colonialism without colonies in relation to Finland a nation that was oppressed but also itself complicit in colonialism It offers insights into European colonialism on the margins of the continent and within a nation that has traditionally declared its innocence and exceptionalism The book shows that Finns were active participants in various colonial contexts including Southern Africa and S pmi in the North Demonstrating that colonialism was a common practice shared by all European nations with or without formal colonies this book provides essential reading for anyone interested in European colonial history Chapters 1 7 and 8 are available open access under a via link [springer com](https://www.springer.com)

Imperialism in the Modern World William Bowman, Frank Chiteji, J. Megan Greene, 2016-11-03 Imperialism in the Modern World combines narrative primary and secondary sources and visual documents to examine global relations in the nineteenth and twentieth centuries The three co editors Professors Bowman Chiteji and Greene have taught for many years global history classes in a variety of institutions They wrote Imperialism in the Modern World to solve the problem of allowing teachers to combine primary and secondary texts easily and systematically to follow major themes in global history some readers use primary materials exclusively Some focus on secondary arguments This book is more focused than other readers on the markets for those teachers who are offering more specialized world history courses one important trend in global history is away from simply trying to cover everything to teaching real connections in more chronologically and thematically focused courses The reader also provides a genuine diversity of global perspectives and invites students to study seriously world history from a critical framework Too many readers offer a smorgasbord approach to world history that leaves students dazed and confused This reader avoids that approach and will therefore solve many problems that teachers have in constructing and teaching world history courses at the introductory or upper division levels The reader will allow show students how to read historical documents through a hands on demonstration in the introduction The book also incorporates images as visual documents Finally the book conceives of global history in the widest possible terms it contains pieces on political diplomatic economic and military history to be sure but it also has selections on technology medicine women the environment social changes and cultural patterns Other readers can not match this text s breadth because they are chronologically and thematically so extended

Masculinity and the Other Heather Ellis,Jessica Meyer,2009-01-14 Histories of masculinity have generally examined both social ideologies of masculinity and subjective male identities within frameworks that define them against the feminine Yet historians and sociologists have increasingly argued that men have been and continue to be defined both socially and subjectively as much by their relations to other men as in relation to women This collection brings together the work of scholars of masculinities working in a variety of fields including literature history and art history to examine some of the forms of otherness against which ideas of masculinity have been defined throughout history The collection reflects the current breadth of scholarship relating to the study of masculine alterity While the subjects addressed are largely historical the time span covered is broad and the disciplinary approaches to the subject matter are equally wide ranging A huge variety of men masculine behaviours and definitions of masculinity are considered in an exciting and invigorating collection that showcases both established academics and emerging scholars in the field **Empire of Love** Matt K. Matsuda,2005-01-20 In

this broad ranging survey of Paris Tahiti Indochina Japan New Caledonia and the South Pacific generally Matt Matsuda illustrates the fascinating interplay that shaped the imaginations of both colonizer and colonized Drawing on a wealth of primary sources Matsuda describes the constitution of a French Pacific through the eyes of Tahitian monarchs Kanak warriors French politicians and prisoners Asian revolutionaries and Central American laborers among others He argues that French imperialism in the Pacific both real and imagined was registered most forcefully in languages of desire and love for lost islands promised wealth and riches carnal and spiritual pleasures and political affinities Exploring the conflicting engagements with love for and against the empire in the Pacific this book is an imaginative and ground breaking work in global imperial and colonial histories as well as Pacific histories *Cultures of Commemoration* Keith L.

Camacho, 2011-11-30 In 1941 the Japanese military attacked the US naval base Pearl Harbor on the Hawaiian island of Oahu Although much has been debated about this event and the wider American and Japanese involvement in the war few scholars have explored the Pacific War's impact on Pacific Islanders *Cultures of Commemoration* fills this crucial gap in the historiography by advancing scholarly understanding of Pacific Islander relations with and knowledge of American and Japanese colonialisms in the twentieth century Drawing from an extensive archival base of government military and popular records Chamorro scholar Keith L. Camacho traces the formation of divergent colonial and indigenous histories in the Mariana Islands an archipelago located in the western Pacific and home to the Chamorro people He shows that US colonial governance of Guam the southernmost island and that of Japan in the Northern Mariana Islands created competing colonial histories that would later inform how Americans Chamorros and Japanese experienced and remembered the war and its aftermath Central to this discussion is the American and Japanese administrative development of loyalty and liberation as concepts of social control collective identity and national belonging Just how various Chamorros from Guam and the Northern Mariana Islands negotiated their multiple identities and subjectivities is explored with respect to the processes of history and memory making among this Americanized and Japanized Pacific Islander population In addition Camacho emphasizes the rise of war commemorations as sites for the study of American national historic landmarks Chamorro Liberation Day festivities and Japanese bone collecting missions and peace pilgrimages Ultimately *Cultures of Commemoration* demonstrates that the past is made meaningful and at times violent by competing cultures of American Chamorro and Japanese commemorative practices *At the Intersection of Hermeneutics and Homiletics* Yung Suk

Kim, 2025-04-18 While hermeneutics involves comprehensive study of the biblical text whether through historical or literary or reader focused approaches homiletics is concerned with a selected theme message and on the composition and delivery of sermonic discourse aimed at a particular audience But the border between hermeneutics and homiletics is blurry because both disciplines require readers to engage the biblical text from their own contexts This collection deals with the intersection of hermeneutics and homiletics by exploring two revelatory texts one from the Hebrew Bible and the other from the New

Testament the book of Ruth and Matthew 15 21 28 a Canaanite woman's encounter with Jesus Both reflect agonizing issues that readers must tackle in migration family community identity agency race ethnicity gender class culture economy and religion A diverse group of scholars brings their transgressive perspectives to the above texts Unfolding new areas of interest inquiry and insight they will transgress authoritative readings of biblical texts fashion hermeneutic horizons in dialogue with the text and forge homiletic trajectories toward contemporary audiences Without limiting interpretation to a box this volume looks to register bold voices to perennial issues in our day Homiletic transformation occurs through the relentless resistant reading of the text and through reimagining our world *The Spanish Empire* H. Micheal Tarver, Emily Slape, 2016-07-25

The Demographics of Empire Karl Ittmann, Dennis D. Cordell, Gregory H. Maddox, 2010-11-15 *The Demographics of Empire* is a collection of essays examining the multifaceted nature of the colonial science of demography in the last two centuries The contributing scholars of Africa and the British and French empires focus on three questions How have historians demographers and other social scientists understood colonial populations What were the demographic realities of African societies and how did they affect colonial systems of power Finally how did demographic theories developed in Europe shape policies and administrative structures in the colonies The essays approach the subject as either broad analyses of major demographic questions in Africa's history or focused case studies that demonstrate how particular historical circumstances in individual African societies contributed to differing levels of fertility mortality and migration Together the contributors to *The Demographics of Empire* question demographic orthodoxy and in particular the assumption that African societies in the past exhibited a single demographic regime characterized by high fertility and high mortality **Scripted Geographies** Gayle R. Nunley, 2007 This study offers the first book length exploration of travel narratives by nineteenth century Spanish authors Focusing on texts produced during a crucial period in the development of Spain's modern consciousness at the close of its imperial age *Scripted Geographies* shows how writers strategies of travel representation

reflected and participated in this process of cultural transformation The first two chapters devoted to travel within Europe explore constructions of Spain s sometimes problematic encounter with Western society and traditions The final chapters shift to orientalist travel allowing reflection on how Spanish renderings of the non Western other intersect with patterns found in the better known corpus of orientalist literature produced in then ascendant imperial powers like Britain and France These textual constructions of cultural difference reflect at a profound level their authors preoccupations and hopes for Spain as well as their strong awareness of both the powers and dangers inherent in the process of representing real world experience via language Professor of Spanish at the University of Vermont Against the Grain Anshuman Prasad,2012 It represents one of the most serious challenges to Eurocentric habits of thought that continue to bedevil current practices of scholarship **Contested Embrace** Jaeun Kim,2016-07-20 Scholars have long examined the relationship between nation states and their internal others such as immigrants and ethnoracial minorities Contested Embrace shifts the analytic focus to explore how a state relates to people it views as external members such as emigrants and diasporas Specifically Jaeun Kim analyzes disputes over the belonging of Koreans in Japan and China focusing on their contested relationship with the colonial and postcolonial states in the Korean peninsula Extending the constructivist approach to nationalisms and the culturalist view of the modern state to a transnational context Contested Embrace illuminates the political and bureaucratic construction of ethno national populations beyond the territorial boundary of the state Through a comparative analysis of transborder membership politics in the colonial Cold War and post Cold War periods the book shows how the configuration of geopolitics bureaucratic techniques and actors agency shapes the making unmaking and remaking of transborder ties Kim demonstrates that being a homeland state or a member of the transborder nation is a precarious arduous and revocable political achievement *A History of Western Society, Volume C* John P. McKay,Bennett D. Hill,John Buckler,Clare Haru Crowston,Merry E. Wiesner-Hanks,Joe Perry,2010-10-13 Now from Bedford St Martin s A History of Western Society is one of the most successful textbooks available because it captures students interest in the everyday life of the past and ties social history to the broad sweep of politics and culture The tenth edition has been thoroughly revised to strengthen the text s readability heighten its attention to daily life and incorporate the insights of new scholarship including an enhanced treatment of European exploration and a thoroughly revised post 1945 section With a dynamic new design new special features and a completely revised and robust companion reader this major revision makes the past memorable and accessible for a new generation of students and instructors
