**Desired Language** Francesc Feliu, 2023-01-15 National linguistic ideology has been at the base of most historical processes that whether they are complete or not have brought us to the current reality a world of languages that represent with greater or lesser exactitude the diversity and convergences of human groups Various of today s thinkers have predicted the decline or even the end of national ideologies In the area of language postmodernism would make the linguistic affiliation of the community individuals irrelevant de ideologise language use and extend plurilingualism and language alternation in association with a new distribution of physical or functional spaces of linguistic practice But is this true everywhere Are languages now nowhere the core of collective identity Or are we witnessing a distinction between languages that because of their magnitude status strategic position etc can continue to exercise the function of national languages and languages that have to renounce this function Has national linguistic ideology really ceased to make sense What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there What kinds of languages are desired by politicians intellectuals and philologists This book aims to bring some thoughts about these questions

**Gender and Sexual Dissidence on Catalan and Spanish Television Series** Silvia Grassi, 2016-09-23 Taking as a starting point an interpretation of the television medium as an Ideological State Apparatus this book examines how gender roles and non heteronormative sexualities are constructed in Spanish and Catalan television series In the first part which focuses on the construction of gender roles in Catalan soap operas it applies the analytical paradigms founded by Anglo Saxon feminist scholars for the content of soap operas to a corpus of material which has rarely been analysed through this perspective In the second part which focuses on the construction of non heteronormative sexualities in Spanish and Catalan television series the book challenges the rhetoric of normalisation and the essentialist paradigms which have so far dominated the examination of the construction of sexuality in television series As such this book addresses the role performed by television in the construction of meanings which surround gender issues and non heteronormative sexualities This is a timely exercise because gender studies and studies of sexual dissidence are fairly recent fields in Spanish and Catalan academia and television has been largely disregarded especially as far as the analysis of characters and storylines is concerned As a result this book represents a major contribution to these fields in the Spanish and Catalan contexts
