

The **Skills development** section includes additional readings and skills practice.

The **Grammar Builder** section provides additional grammar exercises as well as grammar reference pages called **Grammar highlights**. This section reviews and clarifies structures presented in each unit of the Student Book.

The Grammar Builder can be used alongside the Workbook units or at a later stage for extra reinforcement or review.

The Language Booster is a flexible resource that offers self-access material for students in a wide range of teaching situations. It is not necessary for students to work through all the material, although they can do so if they wish.

Teacher's Edition

The **Teacher's Edition** contains unit-by-unit lesson notes interleaved with the relevant Student Book pages. The notes include suggestions on how to teach the material, ideas for extension activities, as well as all answer keys and listening audioscripts. Photocopiable unit and quarterly tests are provided at the end of the Teacher's Edition, as well as an extensive Grammar reference section.

All answer keys to the Language Booster and the tests are found at the end of the Teacher's Edition.

Class Audio CDs

The **Class Audio CDs** contain all the recorded material from the Student Book: the Dialogues, the Pronunciation, Useful expressions, and Vocabulary sections, the Listening exercises, the models for the Communication activities, the Readings, and the Putting it together photostories.

Teaching tips

Classroom management

Setting up an environment where students feel encouraged, motivated, challenged, and valued is the key to a successful class. Some helpful practices include:

- **Maintain class structure.** Plan each lesson well. Maintain a regular routine when beginning and ending class, when doing exercises and practices, when assigning pairs and groups, and when checking work; in this way students will have a clear understanding of the structure of the class and what is expected of them.
- **Personalize.** Learn student names at the start of the term; learn about your students' personalities and interests; use this to tailor exercises and content to a particular class. Maintain eye contact with your students as you teach. Let each student know you are interested in his or her progress.

- **Keep students involved.** Limit the amount of time you spend explaining information—instead, elicit information from students by asking simple questions in English. Alternate asking questions of the entire class and calling on individual students to answer; this will ensure all students are listening, involved, and have an opportunity to participate.
- **Maintain a fun, challenging pace.** Set a time limit for activities so students will know they have a limited amount of time to complete the activity; when most students have finished an activity, move on to the next stage—this will motivate students to work hard and maintain student interest in the lesson.
- **Give clear instructions.** Always elicit one or more answers at the start of a written exercise or provide a model (teacher-student, student-student, etc.) for pair and group work so that all students understand what to do. If you discover at the start of an exercise that many students have misunderstood the instructions, immediately stop the activity to clarify instructions and provide another model.
- **Monitor and reward students.** Walk around the room as individuals, pairs, or groups are working on an activity. Keep an eye on all students so that you know which ones need your help or guidance. Reward students both verbally and non-verbally for their effort and achievement as they work. When students have finished an activity, always perform a check for the class and give feedback.
