Heritage, Culture and Rights Andrea Durbach, Lucas Lixinski, 2017-05-18 Cultural heritage law and its response to human rights principles and practice has gained renewed prominence on the international agenda. The recent conflicts in Syria and Mali, China's use of shipwreck sites and underwater cultural heritage to make territorial claims, and the cultural identities of nations post conflict highlight this field as an emerging global focus. In addition, it has become a forum for the configuration and contestation of cultural heritage rights and the broader politics of international law. The manifestation of tensions between heritage and human rights are explored in this volume in particular in relation to heritage and rights in collaboration and in conflict and heritage as a tool for rights advocacy. This volume also explores these issues from a distinctively legal standpoint considering the extent to which the legal tools of international human rights law facilitate or hinder heritage protection. Covering a range of issues across Africa, Asia, Europe, Latin America and Australia, this volume will be of interest to people working in human rights, heritage studies, cultural heritage management and identity politics around the world. This book fills an important gap in the literature on heritage and rights and in particular human rights law. With articles from leading experts addressing the legal human rights dimensions of cultural heritage protection, it makes a significant contribution to debates over issues such as: Why should we safeguard heritage and for whom? and What is the relationship between heritage safeguarding and protecting human rights? These are deep questions of profound significance to individuals, communities and even nations around the world and are of increasing urgency today. It critically analyses the relationship between heritage and human rights that can be potentially pernicious as well as mutually reinforcing, placing this analysis within the wider context and with a broad geographical scope, with examinations of the heritage rights relationship in Southeast Asia, Cambodia, China and sub-Saharan Africa. Dr Janet Blake, Associate Professor in Law, Shahid Beheshti University, Tehran. Traversing the destruction of mausoleums in Timbuktu to war crimes trial by the International Criminal Court, *Heritage, Culture and Rights* explores the crucial links between human rights and the protection of cultural heritage. The essays are accessible to all, viewing the destruction of cultural heritage as a breach of human dignity and identity. Unputdownable. Professor Gillian Triggs, President of the Australian Human Rights Commission. This collection of essays by leading scholars, though primarily Australian in origin, is universal in orientation. Ranging from a broad survey of the applicable laws of armed conflict to a detailed consideration of urban design in Southeast Asia, the essays offer significant insights into the relationship between the protection and use of cultural heritage on one hand and fundamental human rights on the other. Ultimately, the mutual reinforcement of the two disciplines of law prevails over carefully acknowledged tensions between them. Readers at all levels of expertise will find the book of great interest. Professor James Nafziger, Thomas B. Stoel Professor of Law and Director of International Programs at the Willamette University College of Law. *World Heritage Review*, 2001. **Dharmanomics** Sriram Balasubramanian, 2024-11-18 Dharmanomics seeks to present a coherent and

structured economic framework based on the idea of Dharma for at least 1500 years Ever wondered what is the socio economic commonality between the Angkor Wat temple in Cambodia Brihadeeswar temple in Tanjavur and the M Son Shiva temple in Vietnam Dharmanomics which serves as sequel to Kautiyanomics for modern times discusses economic models across Saraswati Sindhu civilization and CE kingdoms including the Cholas Pallavas Pandyas Vijaynagar Kambuja Desa Champa Siam among others The argument put forth in the book seeks to position Dharma as the central interface for economic policy along with the presence of Kautilyan Dharmic capitalism Dharmic ecosystem and the role of Srenis in economic policies This would also entail understanding state market dynamics rule of law sustainable growth trade and commerce through the prism of ethics responsibilities and harmony Furthermore the book tries to provide a socio economic historical perspective of some of these kingdoms with inscriptive and anecdotal evidence to bolster the presented argument and also emphasize that Bharatiya rulers had a time series continuity of economic policy prescriptions far ahead of the Adam Smith s of the modern world 2119 , **Confucius** Michael Burgan,2009 A biography of the Ancient Chinese philosopher Confucius whose teachings greatly influenced Chinese culture **Whitaker's Books in Print** ,1998 **Pnuma Anuario 2010** United Nations,2011-06-16 Conceptualization of 'xihuitl' Mutsumi Izeki,2008 This study is concerned with how the Postclassic Mexica people developed their unique perspective of history and environment in a dynamic cultural context By focusing on the process of conceptualization of the Nahuatl word xihuitl the author analyzes the way the Mexica expressed their cognition Xihuitl covers a range of meanings turquoise grass solar year comet preciousness blue green and fire The correlations of the meanings of xihuitl can be explained from a structural point of view However structural analysis does not reveal the dynamic experiential processes that produced such correlations in the minds of the Mexica In order to account for this dynamic aspect of the concept the author employs a theory drawn from cognitive science This theory argues that the meanings and representations of a concept are metaphoric extensions that derive from the central sense of the concept Applying this theory the author examines the metaphoric extension of each xihuitl representation from the central sense The author also analyzes the four media of expression linguistic iconographic material and ritual in which representations of xihuitl occur The representations of xihuitl in each medium embody a particular aspect of the concept At the same time the concept as a whole was affected by the Mexica conceptual system the way the Mexica saw their world rooted in the connections they believed existed between themselves and those who established earlier Central Mexican civilizations
