Fun Cantonese Colloquial Expressions 2015:

Cantonese as a Second Language John C. Wakefield, 2019-04-09 Cantonese is a language from southern China that is spoken by roughly 70 million people worldwide. It is the language of Hong Kong cinema and has traditionally been the most prominent language spoken in Chinatowns around the world. People choose to learn Cantonese for a variety of social and economic reasons because it is a heritage language that one's relatives speak because it is the language of one's partner and monolingual in laws because it is necessary for living and working in Hong Kong, Macau, Guangzhou, or other Cantonese speaking communities because it is the bridge to fully appreciating and understanding Cantonese culture or simply because it is an irresistible challenge. Whatever the motivation, more and more people are choosing to learn Cantonese as an additional language. This book discusses many issues related to both acquiring and teaching Cantonese. If you are a learner of Cantonese, this long overdue volume is essential to understanding both the grammatical and the social issues involved with learning this notoriously difficult language. If you are a teacher, this book will be invaluable to gaining insight into your students' motivations and needs. And finally, if you are an applied linguist, the unique aspects related to the acquisition of Cantonese offer a fascinating contribution to the literature.

Choreographies of Multilingualism Tong-King Lee, 2022 Singapore boasts a complex mix of languages and is therefore a rich site for the study of multilingualism and multilingual society. In particular, writing is a key medium in the production of the nation's multilingual order, one that is often used to organize language relations for public consumption. In *Choreographies of Multilingualism*, Tong King Lee examines the linguistic landscape of written language in Singapore, from street signage and advertisements to institutional anthologies and text-based memorabilia, to language primers and social media-based poetry, to reveal the underpinning language ideologies and how those ideologies figure in political tensions. The book analyzes the competing official and grassroots narratives around multilingualism and takes a nuanced approach to discuss the marginalization, celebration, or appropriation of Singlish. Bringing together theoretical perspectives from sociolinguistics, multimodal semiotics, translation, and cultural studies, Lee demonstrates that multilingualism in Singapore is an emergent and evolving construct through which identities and ideologies are negotiated and articulated. Broad-ranging and cross-disciplinary, this book offers a significant contribution to our understanding of language in Singapore and more broadly to our understanding of multilingualism and the sociolinguistics of writing.
