Gordin,2015-04-13 English is the language of science today No matter which languages you know if you want your work seen studied and cited you need to publish in English But that hasn t always been the case Though there was a time when Latin dominated the field for centuries science has been a polyglot enterprise conducted in a number of languages whose importance waxed and waned over time until the rise of English in the twentieth century So how did we get from there to here How did French German Latin Russian and even Esperanto give way to English And what can we reconstruct of the experience of doing science in the polyglot past With *Scientific Babel* Michael D Gordin resurrects that lost world in part through an ingenious mechanism the pages of his highly readable narrative account teem with footnotes not offering background information but presenting quoted material in its original language The result is stunning as we read about the rise and fall of languages driven by politics war economics and institutions we actually see it happen in the ever changing web of multilingual examples The history of science and of English as its dominant language comes to life and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices but also of the possibilities of the polyglot and the losses that the dominance of English entails Few historians of science write as well as Gordin and *Scientific Babel* reveals his incredible command of the literature language and intellectual essence of science past and present No reader who takes this linguistic journey with him will be disappointed **Esperanto, Interlinguistics, and Planned Language** Humphrey Tonkin,1997 A collection of 11 papers one in German and an interview in French with Umberto Eco The topics include the term planned language Esperanto as a unique model for general linguistics a dialogue between sociolinguistic sciences and Esperanto culture the experience of Esperanto in developing a language for international law and machine translation No index Annotation copyrighted by Book News Inc Portland OR *The National Union Catalog, Pre-1956 Imprints* ,1980 **Classified Catalogue of the Carnegie Library of Pittsburgh. 1907-1911** Carnegie Library of Pittsburgh,1914 **Classified Catalogue** Carnegie Library of Pittsburgh,1914 *Classified Catalogue of the Carnegie Library of Pittsburgh. 1907-1911* ,1912 [Classified Catalogue of the Carnegie Library of Pittsburgh](#) Carnegie Library of Pittsburgh,1914 [Metalinguistic Awareness: Recomposing Cognitive, Linguistic and Cultural Conflicts](#) Oreste Floquet ,Sergio Melogno,2024-04-16 This volume is dedicated to Maria Antonietta Pinto s research across the past five decades The title reflects not only the dominance of metalinguistic awareness in Pinto s work but also the pathway through which this construct has been elaborated over the years Under the influence of two great mentors Jean Piaget for

the cognitive aspects and Renzo Titone for the psycholinguistic aspects Pinto created an original construct of metalinguistic awareness and instruments to measure it at different developmental stages The volume pays tribute among other aspects to the heuristic value of this construct and its use in international research Esperanto Revolutionaries and Geeks Guilherme Fians, 2022-01-04 This book explores how Esperanto often regarded as a future oriented utopian project that ended up confined to the past persists in the present Constructed in the late nineteenth century to promote global linguistic understanding this language was historically linked to anarchism communism and pacifism Yet what political relevance does Esperanto retain in the present What impacts have emerging communication technologies had on the dynamics of this speech community Unpacking how Esperanto speakers are everywhere but concentrated nowhere the author argues that digital media have provided tools for people to re politicise acts of communication produce horizontal learning spaces and ultimately build an international community As Esperanto speakers question the post political consensus about communication rights this language becomes an ally of activism for open source software and global social justice This book will be of relevance to students and scholars researching political activism language use and community building as well as anyone with an interest in digital media more broadly **Library Bulletin** Fitchburg Public Library, 1904 **Zamenhof** Aleksander Korzhenkov, Aleksander Korĵenkov, 2010 Released to the public for the first time in 1887 Esperanto had its specific origins in the fertile brain of a single individual Zamenhof and in the particular circumstances into which he was born and came of age It is the story of these origins that Aleksander Korzhenkov's biography sets out to tell That biography was originally published in Esperanto the present version in Ian Richmond's excellent translation is an abridged version of the original text prepared for English readers by the author Zamenhof was a child of his times buffeted by the social upheavals of Eastern Europe in the late nineteenth century eager to find solutions to social ills but alive to new ways of thinking that accompanied this change Seeking to solve the specific problems of his own day he created a language equally well suited to addressing those of ours Humphrey Tonkin Bulletin of the Wilmington Institute Free Library Wilmington Institute Free Library (Wilmington, Del.), 1905 *Classified Catalogue of the Carnegie Library of Pittsburgh* Pittsburgh, Pa.
