*Fundamentals of Crisis Counseling* William Getz, 1977      *Crisis Intervention and Time-Limited Cognitive Treatment* Albert R. Roberts, 1995-09-07

In these turbulent times thorough grounding in crisis intervention and cognitive approaches are important components of every practitioner's repertoire. The chapters in this volume provide highly informative up to date and practical resources for the application of these interrelated approaches to many major crisis situations in which we must prepare ourselves and our students to intervene. This is an excellent resource for my graduate students and community training interns.

John Kalafat Ph D Professor of Psychology Spalding University and Co Chair School Committee American Association of Suicidology

In a world of increasing global awareness of violence and disaster coupled with decreasing budgets and an emphasis on briefer interventions practitioners need to expand and modify intervention strategies. The contributors to this volume present a wide range of techniques within Albert R Roberts's crisis intervention model. For those in the trauma field this book is a wealth of information and referral sources.

Mary Beth Williams Ph D LCSW Trauma Recovery Education Counseling Center Warrenton Virginia

Albert R Roberts has provided a much needed text that belongs on every criminal justice professional's bookshelf. *Crisis Intervention and Time Limited Cognitive Treatment* covers the emerging trends within the field in an outstanding manner.

Harvey Wallace J D Director Victims Institute and Professor Department of Criminal Justice California State University Fresno

Albert R Roberts's edited book is the most comprehensive book I have seen on the application of cognitive therapy to the practice of crisis intervention and time limited treatment. *Crisis Intervention and Time Limited Cognitive Treatment* will be necessary reading by all mental health and social service administrators and practitioners who are often struggling to respond to the changing realities brought about by managed care. This is the first book to provide a national perspective on 24 hour crisis hotlines, cognitive therapy and crisis intervention units of community mental health centers. It includes detailed information on crisis intervention and 24 hour crisis hotlines in every state in the nation. This exceptionally well written book also includes valuable guidelines, practice wisdom and cognitive therapy techniques for intervening with domestic stalking victims, battered women, rape victims, persons with sexual disorders, persons with AIDS, disaster victims and families of homicide victims. This groundbreaking provocative volume does an excellent job of integrating theory and foundation skills with the latest brief cognitive therapy technology in dealing with a wide range of client problems that practitioners deal with on a regular basis. I predict that this timely book will become a classic for all of us who strive to resolve acute psychological as well as situational crises.

Gilbert J Greene Associate Professor of Social Work The Ohio State University

Albert R Roberts's new volume significantly extends his earlier groundbreaking work in the field of crisis intervention by showing how cognitive approaches can help clients cope with a wide variety of crises. Using detailed case histories Roberts and his contributors have shown how short term treatment can play a major role in helping people regain their equilibrium when faced with high risk situations.

Bernard Bloom Professor Emeritus of

Psychology University of Colorado at Boulder With the publication of this book Dr Roberts has met a critical need At a time when a wide range of criminal justice and other professionals are called upon to respond to individuals and communities in crisis situations Dr Roberts has developed an outstanding resource and most inclusive book on crisis intervention The thorough presentation of both established and cutting edge strategies crisis treatment trauma therapy and survivors services will make this book the essential tool for criminologists criminal justice professors victimologists forensic psychologists as well as service providers This volume is packed with vivid case examples and practical step by step applications and up to date information about how to help persons in crisis including suicide attempters disaster victims hostages stalking victims rape victims and parents of murdered children The book also includes a 90 page directory of suicide prevention agencies rape crisis programs battered women s shelters addiction treatment programs and victim assistance programs Jane Nady Burnley Ph D Executive Director VALOR Victims Assistance Legal Organization Inc and former Director
