Shortage of Health Care Professions Caring for the Elderly, 1993 **Healthcare Teamwork** Theresa J.K. Drinka, Phillip G. Clark, 2016-06-27 Both comprehensive and accessible this is an ideal resource for anyone who plans to teach or practice integrated cost effective healthcare in the 21st century Currently there is no coordinated system for training health profession students to address the needs of patients with complex illnesses nor is there a coordinated system for effectively delivering care to these patients This book explores both sides of the problem bringing interprofessional practice and education together to show how they are complementary and how they can be integrated to provide better care In many respects this book is a personal account of the authors experience with interprofessional teamwork and education over the past 40 years It discusses what works and what doesn t and includes interviews examples and case studies that illustrate the perspectives of healthcare professionals patients and caregivers This second edition illuminates ways in which today s business model has changed interprofessional healthcare team practice and education and it examines the needs of patients relative to healthcare teams and practitioner education An entire chapter is devoted to the patient s position as both teacher and learner in relation to the team The theoretical foundations of practice and education are highlighted but the book also shares models that can be used for the practical development of programs **The Encyclopedia of Aging** George L. Maddox, 2013-12-11 Comprehensive multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a brief authoritative introduction to key topics and issues in aging Signed entries contain cross references Contains lengthy bibliography General index **National Directory of Educational Programs in Gerontology**, 1991 Handbook of Bioethics: G. Khushf, 2006-04-11 In general the history of virtue theory is well documented Sherman 1997 O Neill 1996 Its relationship to medicine is also recorded in our work and in that of others Pellegrino and Thomasma 1993b 1996 Drane 1994 Ellos 1990 General publications stress the importance of training the young in virtuous practices Still the popularity of education in virtue is widely viewed as part of a conservative backlash to modern liberal society Given the authorship of some of these works by professional conservatives like William Bennett 1993 1995 this concern is authentic One might correspondingly fear that greater adoption of virtue theory in medicine will be accompanied by a corresponding backward looking social agenda Worse yet does reaffirmation of virtue theory lacquer over the many challenges of the postmodern world view as if these were not serious concerns After all recreating the past is the retro temptation of our times Searching for greater certitude than we can now obtain preoccupies most thinkers today One wishes for the old clarity and certitudes Engelhardt 1991 On the other hand the same thinkers who yearn for the past like Engelhardt sometimes seems to do might stress the unyielding gulf between past and present that creates the postmodern reaction to all systems of Enlightenment thought 1996 **Gerontology and Geriatrics for NPs and PAs - E-Book** Jill R.

Beavers-Kirby, Freddi I. Segal-Gidan, 2023-03-23 Written by NPs and PAs who have a wealth of experience in the care of older adults across all practice settings Gerontology and Geriatrics for NPs and PAs takes an evidence based approach to both gerontology and geriatrics incorporating the latest national and international guidelines and standards of care This first of its kind text takes an interprofessional teamwork based approach that reflects Interprofessional Education Collaborative IPEC core competencies as well as the unique perspectives that NPs and PAs each bring to the collaborative care of older adults Covers both primary care and acute care of older adults and fully addresses both graduate level and practitioner core competencies necessary for optimal care of older adults Places a strong emphasis on wellness including nutrition and the Healthy People 2020 targets normal aging common syndromes of aging disease management patient safety particularly in acute care settings and a patient centered care approach Features vibrant full color illustrations a full color design for ease of navigation and graduate level learning features that include Key Points at the end of each chapter for quick reference and exam preparation Addresses a wide range of topics specifically focused on the common medical problems of older adults with chapters logically organized for efficient study and quick clinical reference Evolve Instructor site with an image collection and test bank is available to instructors through their Elsevier sales rep or via request at <https://evolve.elsevier.com>
