Colonialism And Violence In Zimbabwe:

Colonialism & Violence in Zimbabwe Heike Ingeborg Schmidt, 2013 A highly original treatment of significant topics in African Studies and beyond violence colonialism landscape memory and religion **Colonialism and Violence in Zimbabwe** Heike I. Schmidt, 2013-02-21 Suffering the experience of violation brought on by an act of violence or violent circumstances is omnipresent in today's world if only indirectly through global media representation Despite this apparent immediacy understanding how a person makes sense of his or her suffering tends to be fragmentary and often elusive This book examines this key question through the lens of rural Zimbabwe and a frontier area on the border with Mozambique It shows how African women men and children fashioned their life worlds in the face of conflict Historian Heike Schmidt challenges the apparently inseparable twin pairing of Africa and suffering Even in situations of great distress she argues individuals and groups may articulate their social desires and political ambitions and reforge their identities as long as the experience of violence is not one of sheer terror She emphasizes the crucial role women chiefs and youths played in the renegotiation of a sense of belonging during different periods of time Based on sustained fieldwork *Colonialism and Violence* offers a compelling history of suffering in a small valley in Zimbabwe over the course of 150 years BR Heike Schmidt is Lecturer in Modern History University of Reading **Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle** Munyaradzi Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe's anti colonial liberation struggle resisting simple binaries in favour of more nuanced critical analysis Most historiographies characterize Zimbabwe's liberation struggle as being defined by simple bifurcations along racial ethnic class and ideological perspectives This book argues that the nationalist struggle is far more complex than such simple configurations would suggest and that many actors have been overlooked in the analysis The book broadens our understanding by analysing the roles of a wide range of political figures organizations and members of the military as well as the media and the often overlooked part that women played Over the course of the book the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts in particular by the ZANU PF ruling party and what that means for the country's interpretation of their recent past Highlighting in particular the expertise of leading scholars from within Zimbabwe across a range of disciplines this book will be of interest to researchers of African history politics and postcolonial studies *The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies* Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter insurgent security forces has risen markedly since the Second World War just as those of conventional or inter state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting

interest in counter insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter insurgency which began with Britain s declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti colonial violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

German Colonialism in a Global Age Bradley Naranch, Geoff Eley, 2015-02-20 This collection provides a comprehensive treatment of the German colonial empire and its significance Leading scholars show not only how the colonies influenced metropolitan life and the character of German politics during the Bismarckian and Wilhelmine eras 1871 1918 but also how colonial mentalities and practices shaped later histories during the Nazi era In introductory essays editors Geoff Eley and Bradley Naranch survey the historiography and broad developments in the imperial imaginary of the nineteenth and twentieth centuries Contributors then examine a range of topics from science and the colonial state to the disciplinary constructions of Africans as colonial subjects for German administrative control They consider the influence of imperialism on German society and culture via the mass marketing of imperial imagery conceptions of racial superiority in German pedagogy and the influence of colonialism on German anti-Semitism The collection concludes with several essays that address geopolitics and the broader impact of the German imperial experience Contributors Dirk Bönker Jeff Bowersox David Ciarlo Sebastian Conrad Christian S Davis Geoff Eley Jennifer Jenkins Birthe Kundus Klaus Mählhahn Bradley Naranch Deborah Neill Heike Schmidt J P Short George Steinmetz Dennis Sweeney Brett M Van Hoesen Andrew Zimmerman

African Music, Power, and Being in Colonial Zimbabwe Mhoze Chikowero, 2015-11-24 In this new history of music in Zimbabwe Mhoze Chikowero deftly uses African sources to interrogate the copious colonial archive reading it as a confessional voice along and against the grain to write a complex history of music colonialism and African self liberation Chikowero's book begins in the 1890s with missionary crusades against African performative cultures and African students being inducted into mission bands which contextualize the music of segregated urban and mining company dance halls in the 1930s and he builds genealogies of the Chimurenga music later popularized by guerrilla artists like Dorothy Masuku Zexie Manatsa Thomas Mapfumo and others in the 1970s Chikowero shows how Africans deployed their music and indigenous knowledge systems to fight for their freedom from British colonial domination and to assert their cultural sovereignty

The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

Paperback edition is available from the Society of Biblical Literature www.sbl-site.org Robert Mugabe and the Will to Power in an African Postcolony William J. Mpfu, 2021-03-04 This book is a philosopher's view into the chaotic postcolony of Zimbabwe delving into Robert Mugabe's Will to Power The Will to Power refers to a spirited desire for power and overwhelming fear of powerlessness that Mugabe artfully concealed behind performances of invincibility Nietzsche's philosophical concept of the Will to Power is interpreted and expanded in this book to explain how a tyrant is produced and enabled and how he performs his tyranny Achille Mbembe's novel concept of the African postcolony is mobilised to locate Zimbabwe under Mugabe as a domain of the madness of power The book describes Mugabe's development from a vulnerable youth who was intoxicated with delusions of divine commission to a monstrous tyrant of the postcolony who mistook himself for a political messiah This account exposes how post political euphoria about independence from colonialism and the heroism of one leader can easily lead to the degeneration of leadership However this book is as much about bad leadership as it is about bad followership Away from Eurocentric stereotypes where tyranny is isolated to African despots this book shows how Mugabe is part of an extended family of tyrants of the world He fought settler colonialism but failed to avoid being infected by it and eventually became a native coloniser to his own people The book concludes that Zimbabwe faces not only a simple struggle for democracy and human rights but a Himalayan struggle for liberation from genocidal native colonialism that endures even after Robert Mugabe's dethronement and death White Narratives: The depiction of post-2000 land invasions in Zimbabwe Irikidzayi Manase, 2016-12-29 The post 2000 period in Zimbabwe saw the launch of a fast track land reform programme resulting in a flurry of accounts from white Zimbabweans about how they saw the land the land invasions and their own sense of belonging and identity In White Narratives Irikidzayi Manase engages with this fervent output of texts seeking definition of experiences conflicts and ambiguities arising from the land invasions He takes us through his study of texts selected from the memoirs fictional and non fictional accounts of white farmers and other displaced white narrators on the post 2000 Zimbabwe land invasions scrutinising divisions between white and black in terms of both current and historical ideology society and spatial relationships He examines how the revisionist politics of the Zimbabwean government influenced the politics of identities and race categories during the period 2000-2008 and posits some solutions to the contestations for land and belonging **The Crises of Postcoloniality in Africa** Omeje, Kenneth, 2017-05-05 The Crises of Postcoloniality in Africa is an assemblage of transdisciplinary essays that offer a spirited reflection on the debate and phenomenon of postcoloniality in Africa including the changing patterns and ramifications of problems challenges and opportunities associated with it A key conceptual rhythm that runs through the various chapters of the book is that far from being demised postcoloniality is still firmly embedded in Africa manifesting itself in both blatant and insidious forms Among the important themes covered in the book include the concepts of postcolonialism postcoloniality and neocolonialism Africa's precolonial formations and the impact of colonialism the enduring patterns of colonial legacies in

Africa the persistent contradictions between African indigenous institutions and western versions of modernity the unravelling of the postcolonial state and issues of armed conflict conflict intervention and peacebuilding postcolonial imperialism in Africa and the US led global war on terror the historical and postcolonial contexts of gender relations in Africa as well as pan Africanism and regionalist approaches to redressing the crises of postcoloniality *Politics, Religion and Hate Speech in Zimbabwe* Francis Machingura, Nomatter Sande, 2023-12-16 This book is empirically grounded on Zimbabwe and looks at hate speech as a bad omen for any society family nation and organisation Hate speech divides and kills any peace unity tolerance inclusivity philosophy race and geographical area sacred places of worship freedoms identities culture unity and development in any space It is not a good recipe for both animate and inanimate It is never a solution to be applied in any geographical location Hate speech conflict and violence usually go together The book clearly shows that hate speech must never be tolerated in any religion space both private and public spaces scriptures society and nation It is poisonous and manifests in different forms such as language verbal or electronic discriminations beliefs practices laws censorship graffiti and even physical assault

Breaking the Colonial "Contract" Everisto Benyera, 2020-05-22 The book exposes various mechanisms and methods by which covert colonial mechanisms are employed to perpetuate colonialism especially in Africa Less overt and more covert perpetuation of colonialism is done through the use of networks The main achievement of the initial phase of colonialism was the establishment of networks that are nefarious and omnipresent constituting distributed presence which allows for action at a distance As a result colonial subjects became willing participants in these processes unbeknownst to them which perpetuated their own colonialism The book exposes forms of colonialism where manufactured consent is used to perpetuate colonialism Trapped in this capitalist Western Christian language and moral world order without sovereignty African countries continuously sink deeper into the colonial quagmire
