Color Symbolism in F. Scott Fitzgerald's "The Great Gatsby"

Julia Deitermann, 2006-09-18 Seminar paper from the year 2004 in the subject American Studies Literature grade A 1 San Diego State University course Major American Writers language English abstract F Scott Fitzgerald's masterpiece The Great Gatsby was written in a time of social decadence in which values no longer played an important role among the warshattered population The Roaring Twenties were shaped by the post war generation and especially by the newly rich and wannabe famous whose life circled around parties money and affairs On the surface Fitzgerald's story seems to be about success money and love thus about the mentioned newly rich Although the superficial life of the rich and powerful is a major theme in The Great Gatsby it mostly explores underlying complexities and depths and therefore reveals the other side of the American Dream to the reader Corruption despair and desperate desire come along with idealism faith and illusions The protagonist Jay Gatsby personifies the American Dream as he is a man with a dubious background who managed to accomplish a luxurious style of living and to achieve everything he wanted to have by his own efforts except of his great love that is Daisy The Great Gatsby is built upon the desperate desires of the protagonist and reveals a glance behind the glittering facade Fitzgerald manages to draw the reader's attention to significant details and symbols in the text in order to make one think about the so called truths in the story Therefore symbolism plays a major role in The Great Gatsby Symbolism is the most powerful device of allowing the reader to gain insight into a character's personality and of revealing hidden ideas values and profundity The most significant symbolism applied in the text is color symbolism In this paper I will concentrate on analyzing Fitzgerald's use of colors as symbols and thus try to expose the meaning of color symbolism on the basis of the most meaningful examples The most prominent colors that can be found throughout the novel are green white gray blue and yellow so I will analyze their symbolic meaning in the following

The Symbolic Use of the Color Green in F. Scott Fitzgerald's "The Great Gatsby" Julia Deitermann, 2006-09-18 Seminar paper from the year 2004 in the subject American Studies Literature grade A San Diego State University course Major American Writers language English abstract F Scott Fitzgerald's masterpiece The Great Gatsby was written in a time of social decadence in which values no longer played an important role among the newly rich and wannabe famous whose life was about parties money and affairs On the surface

Fitzgerald's story also seems to deal with success, wealth, and love. Although the superficial life of the rich and powerful is a major theme in *The Great Gatsby*, however, it mostly explores underlying complexities and personalities and in this way reveals the negative side of the American Dream to the reader. Corruption, despair, and desperate desire come along with idealism, faith, and illusions. The protagonist Jay Gatsby personifies the American Dream as he is a man with a dubious background who managed to accomplish a luxurious style of living and to achieve everything he wanted to have by his own efforts except of his great love that is Daisy. *The Great Gatsby* is built upon the desperate desires of the protagonist and reveals a glance behind the glittering facade of the rich. Fitzgerald manages to draw the reader's attention to significant details and symbols in the text in order to make one think about so-called truths and about the sham reality of a society that tries to keep up appearances. Consequently, symbols are an essential device of adding profundity to the text and of allowing the reader to gain insight into a character's personality. The most significant symbolism applied in *The Great Gatsby* is color symbolism, green, white, gray, blue, and yellow being the most prominent colors throughout the novel. In this paper, I will concentrate on analyzing Fitzgerald's symbolic use of the color green based on the most significant examples and thus try to expose the meaning of its appliance in regard to society and the protagonists in the novel. *The Great Gatsby* Harold Bloom, 2006. This series provides comprehensive reading and study guides for some of the world's most important literary masterpieces.

Inside The Great Gatsby A.E. Elmore, 2025-02-15 Inside The Great Gatsby The Hidden Subtext is a revolutionary analysis of the famed novel that reveals its important previously unknown literary foundations drawn from classical and modern literature including the works of Dante Milton Conrad Spengler Frazer Weston Joyce Eliot and the King James Bible Other studies of the novel have focused primarily on its biographical cultural or social issues but none prior to Elmore's have systematically examined the unrecognized debts Gatsby owes to previous literary works The ultimate irony is that Gatsby lauded as one of the greatest novels in the English language earned its stature based solely on recognition of

only a part of its whole the literal narrative or surface story without realization or acknowledgment of its foundational subtext the hidden layer that links it to the universal library of human experience most of which remained undetected until the centennial year of the novel's original publication Approaches to Teaching Fitzgerald's The Great Gatsby Jackson R.
