## Colour Code Green Ray:

**The Colour Code** Paul Simpson, 2021-10-07 How is The Colour Code different to other books on colour Well the short answer is that it is a whole lot more fun not least because it is extensively illustrated We don't just get a story about Mummy Brown the pigment made from Egyptian mummies we see a painting created with pigments from the remains of French kings We are reminded of the blue gold dress that swept Twitter view paintings by Mondrian red ones sell for higher prices and Van Eyck he invented an enduring green and inspect the red soles of Louboutin shoes We see what lumps of Indian yellow look like while reading what they are made of strained cow's urine We get to see the latest most vibrant pigment YinMn Blue and have a real estate agent's tour of Frank Sinatra's ranch he was obsessed by orange We see William Morris's arsenic inflected wallpapers and hear about whether wallpaper killed Napoleon We encounter the pink pussy hats worn on the Women's March and Elvis's pink jackets from Lansky's in Memphis take in a history of the black dress from Audrey Hepburn to Princess Diana and a rare black chicken even its eggs are black from Indonesia Featuring a cast of actors artists chemists composers dentists dictators fashion designers film makers gods musicians mystics physicists poets quacks tigers and tycoons The Colour Code will change the way we all perceive the spectrum and see the world
