Broadcasting & Cable ,2009-05 Media Today Joseph Turow,2022-09-13 This eighth edition of Joseph Turow's pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. It teaches students to think critically about the role of media and what these changes mean for their lives. The book's media systems approach helps students to look carefully at how media content is created, distributed, and exhibited in the new world that the digital revolution has created. From news media to video games and social networking to mobile platforms, it provides students with the tools they need to understand and critique the media they encounter and consume. The first part examines the media world as a whole, while the second delves deep into key media industries such as the movie, television, and video game industries. This new edition includes critical expanded coverage of social media, new forms of both audio and audiovisual media, and international case studies, as well as updated figures, tables, and pedagogy, including key terms and further activities. Media Today is an excellent introduction to the world of media in the digital age, perfect for students seeking a solid grounding in media studies. Extensive pedagogical materials also make this a highly teachable book, well suited to the classroom. The accompanying website has also been updated with new student and instructor resources, including chapter recaps, recommended readings, and instructor's manual. And these days, much of it comes not from TV cables, satellite dishes, and radio antennas, but from our digital devices around the house, streaming over the Internet and local networks. And that's why we created the Digital Entertainment Superguide, a primer with everything you need to know to get started. This book walks you through how to set up your home network and choose the right hardware: set-top boxes, smart TVs, media center computers, streaming speakers, remote controls, and more for your needs. Like to watch TV shows and movies but not sure where to find what? We've got you covered with a guide to streaming video sources for your TV or mobile devices. We don't leave music lovers out either, as we help you choose the best streaming audio service. Do you want Mog, Rdio, Rhapsody, Slacker, or Spotify? How much does each service cost? Which sounds best? We answer all those questions and more in the pages that follow. Finally, if you're wondering how to move audio and video around the house, stream music wirelessly from an iPhone to an AirPlay speaker in the living room, or send video from a computer to your beautiful wall-mounted HDTV, you've come to the right place. We'll even show you how to use your smartphone or tablet to control it all. So read on and let the fun begin. **Independent Film Producing** Paul Battista,2013-10-08 The number of independent films produced each year has almost doubled in the past decade, yet only a fraction will succeed.
