more than catch the rebels he must destroy the hope their message represents from the inside out With dissension in his own camp and the CityWatch soldiers closing in Remko feels control slipping through his fingers To protect those he loves he must conquer his fears and defeat Gold before one of them becomes his undoing The Returning Twenty years have passed since Carrington and Remko Brant's baby Elise was kidnapped and they were forced to leave her captive in the Authority City Though they fled with the Seers far from Authority reach they've never given up hope of rescuing their daughter from the man who betrayed them Now Authority President he's ushered the city into a new era of peace one where the Scientist Roth Reynard's Genesis Serum has eradicated all memory of emotion or rebellion But the mysterious Aaron and his Seers are once again on the move threatening the illusion the Authority has worked so hard to build As the Seers send seven chosen warriors to rescue Elise and bring restoration to the Authority City the lines are drawn for a final battle between light and darkness The key to ultimate victory may rest within the strangely powerful girl who has felt forgotten but was never abandoned a truth she'll need to wage war against the powerful forces of evil

*Thinking about Things and Other Frivolities* Edward Farley, 2014-02-13 This memoir records the story of the author's personal journey toward a life of university teaching and probes that story in reflective essays on a variety of subjects One group of essays has to do with the characteristic activities and institutional setting of a professor Other essays explore ways of experiencing the world as mysterious beautiful and tragic One piece offers a rather somber account of current ways in which the American experiment in democracy is in peril Scraps of what looks like an intellectual autobiography are scattered over the pages of the narrative recalling the puzzles that gave rise to a number of writing projects In a way this is a book of paradoxes and antitheses Janus like it faces toward the past and the future It offers generalized convictions and specific observations treats both the ordinary themes of life experience and tangled esoterica and presents both the experiences of an individual and an analysis of educational institutions As a whole the book invites readers to join the author in thinking about things
