How Terrorists Learn Carolin Görzig, Michael Fürstenberg, Florian Köhler, Imad Alsoos, 2023-09-01 This volume helps us understand the transformations of terrorist organisations and the conflicts they are involved in by broadening the perspective on what is considered terrorist learning Using a variety of methodological approaches and empirical data the volume offers a look at the clandestine inner lives of groups from different continents and ideological backgrounds in order to explore from whom they learn and how and what the outcomes are Their internal and external interactions are examined within their socio political contexts to illuminate how they adapt to challenges or fail to do so Unpacking the question of how do terrorists learn helps us to grasp not only changes of violent means of action but also of operational and strategic approaches and ultimately even transformations of the ends pursued The chapters demonstrate that terrorist learning is not principally different from that of other human organisations The contributors draw on conceptual frameworks of organizational learning but also broaden the scope beyond the organizational framework to acknowledge the variety of forms of informal and decentralized learning characteristic of much contemporary terrorism This book will be of much interest to students of terrorism studies violent extremism organisational studies and International Relations

**Caravan of Martyrs** David B. Edwards, 2017 What compels a person to strap a vest loaded with explosives onto his body and blow himself up in a crowded street Scholars have answered this question by focusing on the pathology of the terrorist mind or the

brainwashing practices of terrorist organizations In *Caravan of Martyrs* David Edwards argues that we need to understand the rise of suicide bombing in relation to the cultural beliefs and ritual practices associated with sacrifice Before the war in Afghanistan began the sacrificial killing of a sheep demonstrated a tribe's desire for peace After the Soviet invasion of 1979 as thousands of people were killed sacrifice took on new meanings The dead were venerated as martyrs but this informal conferral of status on the casualties of war soon became the foundation for a cult of martyrs exploited by political leaders for their own advantage This first repurposing of the machinery of sacrifice set in motion a process of mutation that would lead nineteen Arabs who had received their training in Afghanistan to hijack airplanes on September 11 and that would in time transform what began as a cult of martyrs created by a small group of Afghan jihadis into the transnational scattering of suicide bombers that haunts our world today Drawing on years of research in the region Edwards traces the transformation of sacrifice using a wide range of sources including the early poetry of jihad illustrated martyr magazines school primers and legal handbooks martyr hagiographies videos produced by suicide bombers the manual of ritual instructions used by the 9/11 hijackers and Facebook posts through which contemporary Talifans promote the virtues of self destruction

military launched a genocidal campaign against the Rohingya Muslims in Myanmar This was followed by reports of ever growing atrocities against Christian minorities in Nigeria Without waiting too long in 2018 China proceeded with its genocidal campaign against the Uyghur Muslims In 2020 the Tigrayans became the victims of ethnic targeting Five cases of mass atrocities that in the space of just five years all easily meet the legal definition of genocide Again the response that followed each case has been inadequate and unable to make a difference to the targeted communities This legacy does not give much hope for the future The question that this books hopes to address is what needs to change to ensure that we are better equipped to address genocide and prevent the crime in the future
