Wright,Michael G. Walling,2012-10-20 U S Army LTC Darron Wright and former U S Coast Guard officer Mike Walling join forces to detail a complete unique history of the Iraq War through first hand street level accounts of the key events and battles that shaped the conflict From 2003 through 2010 more than 200 000 men and women were deployed in Iraq For seven years they fought ferociously in the blistering sands in the Land Between the Two Rivers Some fought for pride or survival some to bring democracy to a forsaken land that has known only tyranny and strife Scores of books have been published about the war most criticizing the strategies and execution Some have been personal memoirs capturing the heroism and sacrifice Here U S Army LTC Darron Wright a proven combat leader joins forces with author Mike Walling to lift the veil on the Iraq War revealing the build up of troops the equipping training and planning the capture of Saddam Hussein the formation of the new Government and the last patrol Through vivid stories and military documents this provides readers with a first hand of the full conflict **From Berlin to Baghdad** Hal Brands,2021-12-14 On November 9 1989 a mob of

joyful Berliners dismantled the wall that had divided their city for nearly forty years this act of destruction anticipated the momentous demolition of the European communist system Within two years the nations of the former Eastern Bloc toppled their authoritarian regimes and the Soviet Union ceased to exist fading quietly into the shadows of twentieth century history and memory By the end of 1991 the United States and other Western nations celebrated the demise of their most feared enemy and reveled in the ideological vindication of capitalism and liberal democracy As author Hal Brands compellingly demonstrates however many American diplomats and politicians viewed the fall of the Soviet empire as a mixed blessing For more than four decades containment of communism provided the overriding goal of American foreign policy allowing generations of political leaders to build domestic consensus on this steady reliable foundation From Berlin to Baghdad incisively dissects the numerous unsuccessful attempts to devise a new grand foreign policy strategy that could match the moral clarity and political efficacy of containment Brands takes a fresh look at the key events and players in recent American history In the 1990s George H W Bush envisioned the United States as the guardian of a new world order and the Clinton administration sought the enlargement of America s political and economic influence However both presidents eventually came to accept albeit grudgingly that America s multifaceted roles responsibilities and objectives could not be reduced to a single fundamental principle During the early years of the George W Bush administration it appeared that the tragedies of 9 11 and the subsequent war on terror would provide the organizing principle lacking in U S foreign policy since the containment of communism became an outdated notion For a time most Americans were united in support of Bush s foreign policies and the military incursions into Afghanistan and Iraq As the swift invasions became grinding occupations however popular support for Bush s policies waned and the rubric of the war on terror lost much of its political and rhetorical cachet From Berlin to Baghdad charts the often onerous course of recent American foreign policy from the triumph of the fall of the Berlin Wall to the tragedies of 9 11 and beyond analyzing the nation s search for purpose in the face of the daunting complexities of the post Cold War world

five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world s leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity s need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today s tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull s remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage
