The Eighteenth-Century Wyandot John L. Steckley, 2014-04-17 The Wyandot were born of two Wendat peoples encountered by the French in the first half of the seventeenth century the otherwise named Petun and Huron and their history is fragmented by their dispersal between Quebec Michigan Kansas and Oklahoma This book weaves these fragmented histories together with a focus on the mid eighteenth century Author John Steckley claims that the key to consolidating the stories of the scattered Wyandot lies in their clan structure Beginning with the half century of their initial diaspora as interpreted through the political strategies of five clan leaders and continuing through the eighteenth century and their shared residency with Jesuit missionaries notably the distinct relationships different clans established with them Steckley reveals the resilience of the Wyandot clan structure He draws upon rich but previously ignored sources including baptismal marriage and mortuary records and a detailed house to house census compiled in 1747 featuring a list of male and female elders to illustrate the social structure of the people including a study of both male and female leadership patterns A recording of the 1747 census as well as translated copies of letters sent between the Wyandot and the French is included in an appendix

Power and Resistance Wayne Antony, 2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty

racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

The Rowman & Littlefield Handbook of Women's Studies in Religion, Helen T. Boursier, 2021-06-15 The handbook offers interreligious and multicultural perspectives on women's studies in religion in conversation with specific contextualized gender biased justice challenges Contributing authors address 25 current and trending themes from their diverse socio cultural religious backgrounds Themes move across the spectrum of women's studies in religion blurring the boundaries beyond religious studies to include perspectives from ethics philosophy sociology economics and law as Religious diversity addresses challenges for women's studies through the lens of Wicca Buddhist Asian Trans Pacific Hinduism Judaism Muslima and Christian The handbook is practical contemporary and relevant as it moves theory to practical application in the section on challenging and changing system gender injustice with chapters on sexual violence and the MeToo movement femicide and feminicide a Mohawk response to colonial dominion and violations to Indigenous lands and women and a religio politico witness for love and justice include how to engage the theories of women's studies in religion in the public square through civic engagement to create empowerment for actual practical change It shows the future movement of the becoming of women's studies with chapters digital activism reimagining women's mosque spaces online minoritized sexual identities and spiritual homelessness and charges readers to see hope now by challenging and changing gender injustice

Power and Resistance, 7th ed. Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z *Power and Resistance* debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of *Power and Resistance*

includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy **Full Circle** John Steckley, Bryan David Cummins, 2001 This book examines both traditional and contemporary aboriginal societies in Canada reflecting the diversity of First Nations voices Through discussions of aboriginal languages oral tradition writers and individuals the content touches on several issues such as colonialism education health justice and social action **Achieving Aboriginal Student Success** Pamela Rose Toulouse, 2011-10-14 In this guide for K-8 classrooms author Pamela Rose Toulouse provides strategies lesson plans and hands-on activities that support both Indigenous and non-Indigenous learners Find support for topics such as infusing Indigenous teaching strategies in the classroom increasing literacy success by implementing an Indigenous model teaching character education with the Seven Teachings of the Anishinabek engaging and connecting with local Indigenous communities incorporating seasonal lessons with the 13 moons of the Anishinabek using literature-based lesson plans for grades K to 8 Using Anishinaabe teachings as a model this book will help you infuse Indigenous perspectives into your curriculum as well as teach to the specific needs of Indigenous students Find best practices for classroom management assessment tools suggestions for connecting with local Indigenous communities and much more **Separate but Unequal** Frances Widdowson, 2019-11-05 Separate but Unequal provides an in-depth critique of the ideology of parallelism the prevailing view that Indigenous cultures and the wider Canadian society should exist separately from one another in a nation-to-nation relationship Using the Final Report of the Royal Commission on Aboriginal Peoples as an example this historical and material analysis shows how the single-minded pursuit of parallelism will not result in a more balanced relationship between Indigenous and non-Indigenous peoples On the contrary it merely restores archaic economic political and ideological forms that will continue to isolate the Indigenous population This book provides an alternative framework for examining Indigenous dependency This new perspective the political economy of neotribal rentierism shows that Indigenous Peoples' circumstances have been inextricably linked to the development of capitalism in Canada While Indigenous Peoples were integral participants in the fur trade the transition from mercantilism to industrial capitalism led to their marginalization This book is published in English Separate but Unequal fournit une analyse approfondie de l'idéologie du parallélisme la vision dominante selon laquelle les cultures autochtones et la société canadienne en général devraient vivre séparément les unes des autres dans une relation de nation à nation En s'appuyant sur le rapport final de la Commission royale sur les peuples autochtones cette analyse historique et matérielle montre que les propositions parallèles visant accroître l'autonomie des Autochtones dans tous les aspects des politiques publiques ne se solderont pas en une relation plus équilibrée entre peuples autochtones et non autochtones tant donné qu'elles ne font que rétablir des formes économiques politiques et idéologiques archaïques qui continueront d'isoler la population autochtone Elle propose de recadrer la question de la dépendance autochtone en ayant recours à la notion de rentierisme néotribal Ce cadre d'économie politique met en lumière le fait que les conditions des peuples autochtones ont été inextricablement liées au développement

examines prospects for the enhanced practice of Indigenous political sovereignty within the Canadian state As Indigenous rights include the right to self determination the book contends that restored practices of Indigenous sovereignty constitute important steps forward in securing better relationships between Indigenous peoples and the Canadian state While the Canadian state maintains its position of dominance with respect to the exercise of state sovereignty Tim Schouls reveals how Indigenous nations are nevertheless carving out and reclaiming areas of significant political power as their own By means of strategically acquired legal concessions through hard fought political negotiations and sometimes through simple declarations of intent Indigenous nations have repeatedly compelled the Canadian state to roll back its jurisdiction over them In doing so they have enhanced their prospects for political sovereignty within Canada As such they now increasingly occupy what Schouls refers to metaphorically as the spaces in between The book asserts that occupation of these jurisdictional spaces in between not only goes some distance in meeting the requirements of Indigenous rights but also contributes to Indigenous community autonomy and well being enhancing prospects for reconciliation between Indigenous peoples and the Canadian state
