Coon Hunting

Coon hunting has deep roots in the Ozark Mountains that trace back to the early days of the settlers in this region. The Ozarks, known for their dense forests and abundant wildlife, provided the perfect place for the emergence of coon hunting as a necessity and as a tradition.

As pioneers settled in the Ozarks, they quickly discovered the abundance of raccoons in the dense woods. Raccoons were a common sight and a valuable resource for their fur and meat. Coats made from the fur of raccoons were very popular in the 1800s and a single pelt could be sold for twenty-five cents. This fashion trend led to a rise in both pelts prices and the hunting and trapping of raccoons. One type of coon hunting is done by setting traps that are periodically checked. Another type of coon hunting is typically done at night with specially trained dogs such as the Treeing Walker, Black and Tan, and

Blacks. These dogs are trained as young as 6 weeks old to follow a hunter's lead and follow only when the dogs have to track the coon. Once the dogs have located the coon, the hunter will follow them and then kill the raccoon for use for its

Coon Trap STEM Challenge

On our tour we just walked outside to take out the garbage and discovered a huge mess. A possum had gotten into your garbage can again, and you're fed up enough. You decide to take matters into your own hands by designing a raccoon trap and designing a device to trap the raccoon and set it free in the woods.

Your Task

Design a trap that you can use to solve the problem! What do you need to know about raccoons to solve the problem? What do you need to know about traps to solve the problem? What do you need to know about the environment to solve the problem? What do you need to know about the raccoon's behavior to solve the problem?
