The Irish Presbyterian Mind Andrew R. Holmes, 2018-09-13 *The Irish Presbyterian Mind* considers how one protestant community responded to the challenges posed to traditional understandings of Christian faith between 1830 and 1930 Andrew R Holmes examines the attitudes of the leaders of the Presbyterian Church in Ireland to biblical criticism modern historical method evolutionary science and liberal forms of protestant theology He explores how they reacted to developments in other Christian traditions including the so called Romeward trend in the established Churches of England and Ireland and the Romanisation of Catholicism Was their response distinctively Presbyterian and Irish How was it shaped

by Presbyterian values intellectual first principles international denominational networks identity politics the expansion of higher education and relations with other Christian denominations The story begins in the 1830s when evangelicalism came to dominate mainstream Presbyterianism the largest protestant denomination in present day Northern Ireland It ends in the 1920s with the exoneration of J E Davey a professor in the Presbyterian College Belfast who was tried for heresy on accusations of being a modernist Within this timeframe Holmes describes the formation and maintenance of a religiously conservative intellectual community At the heart of the interpretation is the interplay between the Reformed theology of the Westminster Confession of Faith and a commitment to common evangelical principles and religious experience that drew protestants together from various denominations The definition of conservative within the Presbyterian Church in Ireland moved between these two poles and could take on different forms depending on time geography social class and whether the individual was a minister or a member of the laity

The Persistence of Faith Jonathan Sacks,2025-07-03 Confidence in a faith is a subtle quality and lack of it shows in many ways some contradictory Dr Sacks has that confidence and the quiet charisma to communicate it Sacks argues that faiths must remain open to criticism keep alive their separate communities and still contribute far more to national debates on moral issues They must also learn to get along better His thesis is that we still live under a Biblical canopy and that a cohesive morality needs the uniting bonds of faith The subject of this book religions and ethics is good ground for him to build on The Jewish contribution to ethics is distinctly rational and has a long and illustrious tradition Moral philosophy is after all a Jewish preoccupation In recent years he writes religion has taken us unawares The rise of the Moral Majority in the USA the Islamic Revolution the growth of religious parties in Israel the power of Catholicism in Poland and the African continent all run contrary to the basic thesis that modernity and secularization went hand in hand and could almost be regarded as synonyms Instead and against all prediction religion has resurfaced in the public domain In this book Sacks argues the case for a broadly based return to tradition within the context of religious pluralism and tolerance Religious values remain a strong force within our culture to be renewed For our society to be viable indeed they must be renewed
