Gesammelte Abhandlungen Amerikanischen Sprach Altertumskunde

Miguel Leon-Portilla

Gesammelte Abhandlungen Amerikanischen Sprach Altertumskunde:

Tlacuilolli Karl Anton Nowotny, 2005 Appearing for the first time in English Karl Anton Nowotny's Tlacuilolli is a classic work of Mesoamerican scholarship A concise analysis of the pre Columbian Borgia Group of manuscripts it is the only synthetic interpretation of divinatory and ritual codices from Mexico Originally published in German and unavailable to any but the most determined scholars Tlacuilolli has nevertheless formed the foundation for subsequent scholarly works on the codices Its importance extends beyond the study of Mexican codices Nowotny's sophisticated reading of these manuscripts informs our understanding of Mesoamerican culture Of particular importance are Nowotny's corrections of errors in fact and interpretation in the Spanish edition of Eduard Seler's commentary on the Borgia Group George A Everett and Edward B Sisson have translated Nowotny's masterwork into English while maintaining the flavor of the original German edition To the core text they have added an extensive bibliography and constructed a framework of annotation that relates the principles in Tlacuilolli to current research This edition includes a selection of eleven stunning full color images chosen from the original catalog

The Indigenous Languages of the Americas Lyle Campbell, 2024 The Indigenous Languages of the Americas is a comprehensive assessment of what is known about their history and classification It identifies gaps in knowledge and resolves controversial issues while making new contributions of its own The book deals with the major themes involving these languages classification and history of the Indigenous languages of the Americas issues involving language names origins of the languages of the New World unclassified and spurious languages hypotheses of distant linguistic relationships linguistic areas contact languages pidgins lingua francas mixed languages and loanwords and neologisms *Handbook of South American Indians: The Andean civilizations* Julian Haynes Steward, 1946 **Handbook of South American Indians** Julian Haynes Steward, 1946 American Anthropologist , 1929 Bibliography of American Folklore, 1915-1928 , 1928

Landscape And Power In Ancient Mesoamerica Rex Koontz, Kathryn Reese-Taylor, Annabeth Headrick, 2018-02-23 From the early cities in the second millennium BC to the Aztec capital of Tenochtitlan on the eve of the Spanish conquest Ancient Mesoamericans created landscapes full of meaning and power in the center of their urban spaces The sixteenth century description of Tenochtitlan by Bernal Diaz del Castillo and the archaeological remnants of Teotihuacan attest to the power and centrality of these urban configurations in Ancient Mesoamerican history In *Landscape and Power in Ancient Mesoamerica* Rex Koontz Kathryn Reese Taylor and Annabeth Headrick explore the cultural logic that structured and generated these centers Through case studies of specific urban spaces and their meanings the authors examine the general principles by which the Ancient Mesoamericans created meaningful urban space In a profoundly interdisciplinary exchange involving both archaeologists and art historians this volume connects the symbolism of those landscapes the performances that activated this symbolism and the cultural poetics of these ensembles *Framing the Sacred* Eleanor Wake, 2012-11-08 Christian churches erected in Mexico during the early colonial era represented the triumph of European conquest and

religious domination Or did they Building on recent research that questions the cultural conquest of Mesoamerica Eleanor Wake shows that colonial Mexican churches also reflected the beliefs of the indigenous communities that built them European authorities failed to recognize that the meaning of the edifices they so admired was being challenged pre Columbian iconography integrated into Christian imagery altars oriented toward indigenous sacred landmarks and carefully recycled masonry In *Framing the Sacred* Wake examines how the art and architecture of Mexico s religious structures reveals the indigenous people s own decisions regarding the conversion program and their accommodation of the Christian message As Wake shows native peoples selected aspects of the invading culture to secure their own culture s survival In focusing on anomalies present in indigenous art and their relationship to orthodox Christian iconography she draws on a wide geographical sampling across various forms of Indian artistic expression including religious sculpture and painting innovative architectural detail cartography and devotional poetry She also offers a detailed analysis of documented native ritual practices that she argues assist in the interpretation of the imagery With more than 200 illustrations including 24 in color *Framing the Sacred* is the most extensive study to date of the indigenous aspects of these churches and fosters a more complete understanding of Christianity s influence on Mexican peoples **Aztec Thought and Culture** Miguel

Leon-Portilla, 2012-11-28 For at least two millennia before the advent of the Spaniards in 1519 there was a flourishing civilization in central Mexico During that long span of time a cultural evolution took place which saw a high development of the arts and literature the formulation of complex religious doctrines systems of education and diverse political and social organization The rich documentation concerning these people commonly called Aztecs includes in addition to a few codices written before the Conquest thousands of folios in the Nahuatl or Aztec language written by natives after the Conquest Adapting the Latin alphabet which they had been taught by the missionary friars to their native tongue they recorded poems chronicles and traditions The fundamental concepts of ancient Mexico presented and examined in this book have been taken from more than ninety original Aztec documents They concern the origin of the universe and of life conjectures on the mystery of God the possibility of comprehending things beyond the realm of experience life after death and the meaning of education history and art The philosophy of the Nahuatl wise men which probably stemmed from the ancient doctrines and traditions of the Teotihuacans and Toltecs quite often reveals profound intuition and in some instances is remarkably modern This English edition is not a direct translation of the original Spanish but an adaptation and rewriting of the text for the English speaking reader **Star Gods of the Maya** Susan Milbrath, 2010-01-01 A prodigious work of unmatched

interdisciplinary scholarship on Maya astronomy and religion *Journal of Interdisciplinary History* Observations of the sun moon planets and stars played a central role in ancient Maya lifeways as they do today among contemporary Maya who maintain the traditional ways This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Pre Columbian Maya art and confirmed by the current practices of living Maya peoples

Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy along with essential information on naked eye observation. She devotes subsequent chapters to Pre Columbian astronomical imagery which she traces back through time starting from the Colonial and Postclassic eras. She delves into many aspects of the Maya astronomical images including the major astronomical gods and their associated glyphs, astronomical almanacs in the Maya codices, and changes in the imagery of the heavens over time. This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture. Indeed, it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture. Milbrath has given us a comprehensive reference work that facilitates access to a very broad and varied body of literature spanning several disciplines. *Isis* Destined to become a standard reference work on Maya archaeoastronomy. Utterly comprehensive. Andrea Stone, Professor of Art History, University of Wisconsin-Milwaukee

Aztec Warfare Ross Hassig, 1988 In exploring the pattern and methods of Aztec expansion, Ross Hassig focuses on political and economic factors. Because they lacked numerical superiority, faced logistical problems presented by the terrain, and competed with agriculture for manpower, the Aztecs relied as much on threats and the image of power as on military might to subdue enemies and hold them in their orbit. Hassig describes the role of war in the everyday life of the capital, Tenochtitlan; the place of the military in Aztec society; the education and training of young warriors; the organization of the army; the use of weapons and armor; and the nature of combat.

Luzac's Oriental List and Book Review, 1907

Art, Ideology, and the City of Teotihuacan Janet Catherine Berlo, 1992

Lexical Acculturation in Native American Languages Cecil H. Brown, 1999-02-04 Lexical acculturation refers to the accommodation of languages to new objects and concepts encountered as the result of culture contact. This unique study analyzes a survey of words for 77 items of European culture, e.g., chicken, horse, apple, rice, scissors, soap, and Saturday, in the vocabularies of 292 Amerindian languages and dialects spoken from the Arctic Circle to Tierra del Fuego. The first book ever to undertake such a large and systematic cross-language investigation, Brown's work provides fresh insights into general processes of lexical change and development, including those involving language universals and diffusion.

The Broken Spears: 2007 Revised Edition Miguel Leon-Portilla, 2011-02-07 For hundreds of years, the history of the conquest of Mexico and the defeat of the Aztecs has been told in the words of the Spanish victors. Miguel Leon-Portilla has long been at the forefront of expanding that history to include the voices of indigenous peoples. In this new and updated edition of his classic *The Broken Spears*, Leon-Portilla has included accounts from native Aztec descendants across the centuries. These texts bear witness to the extraordinary vitality of an oral tradition that preserves the viewpoints of the vanquished instead of the victors. Leon-Portilla's new Postscript reflects upon the critical importance of these unexpected historical accounts.

Taxing Difference in Peru and New Spain (16th-19th Century) Sarah Albiez-Wieck, 2022-09-19 This book addresses the negotiation of categorizations in colonial societies in Spanish America from a new vantage point: fiscality. In early modern empires, poll taxes were a significant

factor to organize and perpetuate social inequalities By this fiscal categorizations had very concrete effects on the daily life of the categorized on their assets and on their labor force They intersected with social categorizations such as gender profession age and what many authors have termed race or ethnicity but which is denominated here more accurately with a term from the sources calidad They were imposed by legislation from above and contested via petitions from below the latter being a type of source scarcely analyzed until now

Carlos Chávez and His World Leonora Saavedra, 2015-08-25 Carlos Ch vez 1899 1978 is the central figure in Mexican music of the twentieth century and among the most eminent of all Latin American modernist composers An enfant terrible in his own country Ch vez was an integral part of the emerging music scene in the United States in the 1920s His highly individual style diatonic dissonant contrapuntal addressed both modernity and Mexico s indigenous past Ch vez was also a governmental arts administrator founder of major Mexican cultural institutions and conductor and founder of the Orquesta Sinf nica de M xico Carlos Ch vez and His World brings together an international roster of leading scholars to delve into not only Ch vez s music but also the history art and politics surrounding his life and work Contributors explore Ch vez s vast body of compositions including his piano music symphonies violin concerto late compositions and Indianist music They look at his connections with such artistic greats as Aaron Copland Miguel Covarrubias Henry Cowell Silvestre Revueeltas and Paul Strand The essays examine New York s modernist scene Mexican symphonic music portraits of Ch vez by major Mexican artists of the period including Diego Rivera and Rufino Tamayo and Ch vez s impact on El Colegio Nacional A quantum leap in understanding Carlos Ch vez and his milieu this collection will stimulate further work in Latin American music and culture The contributors are Ana R Alonso Minutti Amy Bauer Leon Botstein David Brodbeck Helen Delpar Christina Taylor Gibson Susana Gonz lez Aktories Anna Indych L pez Roberto Kolb Neuhaus James Krippner Rebecca Levi Ricardo Miranda Juli n Orb n Howard Pollack Leonora Saavedra Antonio Saborit Stephanie Stallings and Luisa Vilar Pay Bard Music Festival 2015 Carlos Ch vez and His World Bard College August 7 9 and August 14 16 2015
