Gestion Ganadera En Excel:

Gestión de la producción ganadera Concepción Maroto Álvarez,1997 **Gestión de la empresa agropecuaria de la pampa arenosa** José Javier Rodríguez Alcaide,1997 *Gestión agrícola ganadera utilizando Microsoft Excel* Alejandro A. Pazos,Matías S. García Fronti,2006-01-01 El objetivo de este libro es mejorar el uso de Microsoft Excel en la actividad agropecuaria Aunque muchos conocen las virtudes de esta aplicación no todos saben utilizar correctamente esta poderosa herramienta para administrar, controlar o analizar su negocio Si bien podemos realizar un libro enfocado solamente a explicar el paso a paso de cómo utilizar la herramienta para su negocio creemos que eso no alcanza En el mercado editorial existe una gran variedad de libros explicando el producto pero no cómo aplicar el producto a la actividad específica El contenido de esta obra se compone de diferentes aplicaciones informáticas desarrolladas especialmente para la actividad agropecuaria las cuales se encuentran en el CD ROM Cuando decimos aplicaciones informáticas nos referimos a soluciones generadas en Microsoft Excel que usted podrá utilizar en su ordenador pudiendo aplicarlas a su negocio o bien modificarlas para que se acerquen a sus necesidades Para poder hacerlo deberá tener instalado el producto y seguir los pasos explicados en cada manual de uso incluidos en este libro El libro se compone de cuatro partes La primera de ellas trata sobre aspectos generales de la industria agropecuaria mientras que la segunda y la tercera parte son específicas para la ganadería y el cultivo Por último cierra el libro una explicación de aquellas herramientas que nosotros consideramos tienen mayor aplicación en esta actividad y creemos que es fundamental que usted las conozca *Uso responsable de antimicrobianos en la apicultura* Organización de las Naciones Unidas para la Alimentación y la Agricultura,Istituto Zooprofilattico Sperimentale del Lazio e della Toscana "M. Aleandri",2023-04-24 Las presentes directrices se centran en el uso responsable de antimicrobianos en favor de una apicultura sostenible La aplicación de estos principios con el enfoque Una salud no solo proteger la salud humana sino también la salud de las abejas y las melíferas ya que por ejemplo reducir la probabilidad de que se registren residuos en los productos apícolas y prevenir la resistencia a los antimicrobianos RAM y del medio ambiente La menor manera de lograr este objetivo es prevenir las enfermedades que afectan a las abejas y las melíferas mediante la aplicación de buenas prácticas apícolas y medidas de bioseguridad Se proporcionan recomendaciones específicas para los casos en que sea necesario administrar medicamentos a las abejas y las melíferas a fin de reducir sus consecuencias negativas elegir medicamentos con un bajo impacto medioambiental y usarlos en el momento correcto y durante el tiempo adecuado con prudencia y siguiendo las instrucciones de la etiqueta Es imperativo aplicar solo ingredientes activos registrados para su uso en abejas y las melíferas y a ser posible prescritos por un veterinario Debe evitarse al máximo el uso de antibióticos a fin de reducir el riesgo de que se observen residuos en los productos apícolas y prevenir la RAM El uso prudente y limitado de antimicrobianos en la apicultura beneficiará la calidad de los productos de las abejas y la seguridad de los ecosistemas circundantes al tiempo que ralentiza el desarrollo de la RAM un problema generalizado que afecta a múltiples sectores

Finalmente en este documento se propone por primera vez una senda progresiva de gestión centrada en las abejas melíferas así como encuestas para evaluar las prácticas apícolas actuales y la conciencia general acerca de ciertas cuestiones de interés como la resistencia a los antimicrobianos RAM El objetivo general de estas directrices es proporcionar información sobre los problemas a los que se enfrenta el sector hoy en día y promover una producción sostenible y la salud de las colonias de abejas melíferas

Gestión técnica y económica en explotaciones ganaderas Francisco Javier Moyano López, Manuel Díaz López, Tomás Martínez Moya, 2002-01 Texto orientado a alumnos y profesores de Escuelas de Agronomía o Facultades de Veterinaria basado en la recopilación de casos prácticos relacionados con diferentes aspectos, índices y valoraciones técnicas normalmente llevadas a cabo en una explotación ganadera. El objetivo es familiarizar al alumno con algunos de los diversos aspectos relacionados con la gestión de explotaciones animales que deberá abordar a lo largo de su vida profesional. Se proponen problemas orientados hacia la planificación de producciones y se destaca el manejo reproductivo que permite una optimización de las mismas. En el dimensionamiento de explotaciones se presta especial atención al número de animales sustentables por una finca o al tamaño y tipo de instalaciones necesarias para albergar un ciclo productivo dado. Por último los estudios económicos permiten valorar los costes productivos en determinados sistemas y analizar alternativas de mejora. Se ha considerado que la mejor forma de analizar los casos prácticos desde distintos puntos de vista es realizar su planteamiento como modelos muy sencillos elaborados en una hoja de cálculo. Por ello se incluye un CD que sin duda ofrece una herramienta mucho más completa desde el punto de vista didáctico ya que hace especial hincapié en la utilización de hojas de cálculo tipo Excel dado que facilitan enormemente el desarrollo de los problemas y la búsqueda de alternativas de gestión.
