CD parties in postwar Europe from a pan European perspective It shows how Christian Democratic parties became the dominant political force in postwar Western Europe and how the European People s Party is currently the largest group in the European Parliament CD parties and political leaders like Adenauer Schuman and De Gasperi played a particularly important role in the evolution of the core Europe of the EEC EC after 1945 Key chapters address the same questions about the parties membership and social organization their economic and social policies and their European and international policies during the Cold War The book also includes two survey chapters setting out the international political context for CD parties and comparing their postwar development and two chapters on their transnational party cooperation after 1945 This is the companion volume to Political Catholicism in Europe 1918 1945 **European Disintegration** Hans

Vollaard,2018-05-16 This book accounts for whether and how the path of the European Union EU has developed towards potential disintegration These questions have become particularly relevant since the outbreak of the debt crises in the Eurozone and the Brexit referendum The author critically subverts theories of European integration and analyses the rise and fall of federations empires and states in a comparative perspective The most promising theory presented here indicates that Brexit is not likely to be followed by other member states leaving the EU Nevertheless the EU has been undermined from within as it cannot adequately address Eurosceptic dissatisfaction from both the left and right This book is an essential read for everyone interested in the EU and its future The Oxford Handbook of Religion and Europe Grace Davie, Lucian

Leuștean,2022 Features contributions from leading scholars providing crucial insight into the role of religious ideas structures and institutions in the making of Europe Introduces the building blocks of Europe s religious and the part that they played in the formation of the continent Explores the relationship between religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket The Disarmament of Hatred G. Barry,2012-03-29

Documenting an audacious Franco German movement for moral disarmament instigated in 1921 by war veteran and French Catholic politician Marc Sangnier in this transnational study Gear id Barry examines the European resonance of Sangnier s Peace Congresses and their political and religious ecumenism within France in the era of two World Wars **Political**

**Catholicism and Euroscepticism** Bartosz Napieralski,2017-08-16 This book explores the phenomena of both Political Catholicism and the growth of Euroscepticism across Eastern and Western Europe It focuses in particular on Political Catholicism in Poland but sets this in its wider European context It examines the nature of Political Catholicism as a political movement discusses the circumstances in which Political Catholicism which has traditionally been pro European can turn to being Eurosceptic and argues that Political Catholicism in Poland is a special case because of its Catholic nationalist nature The book concludes by assessing the role religion plays in the politics of modern Europe and outlines the implications for the

future studies of European integration      *Catholic Cosmopolitanism and Human Rights* Leonard Francis Taylor, 2020-03-05  
Provides a more complete account of the human rights project that factors in the contribution of cosmopolitan Catholicism

Between Yesterday and Tomorrow Christian Bailey, 2013-10-01 An intellectual and cultural history of mid twentieth century plans for European integration this book calls into question the usual pre and post war periodizations that have structured approaches to twentieth century European history It focuses not simply on the ideas of leading politicians but analyses debates about Europe in civil society and the party political sphere in Germany asking if and how a permissive consensus was formed around the issue of integration Taking Germany as its case study the book offers context to the post war debates analysing the continuities that existed between interwar and post war plans for European integration It draws attention to the abiding scepticism of democracy displayed by many advocates of integration indeed suggesting that groups across the ideological spectrum converged around support for European integration as a way of constraining the practice of democracy within nation states      **Re-Inventing Western Civilisation** Niklas Olsen, Hagen Schulz-Forberg, 2014-08-20 The volume shows that neoliberalism concerns a tradition carried by a network of people who understood themselves as liberals and at times as neoliberals and who sought to create societies based on individual freedom and a free market economy It also shows that neoliberalism emerged as a transnational and multilingual phenomenon and that it cannot be reduced to one doctrine or practice The book will enrich the reader's knowledge of the political ideological landscapes and developments in various European regions and countries in addition to transforming the overall picture of European neo liberalism in the twentieth century      **History of communism in Europe: Vol. 5 / 2014** Dalia Bathory, Nu s au introdus date      The Rise and Fall of the People's Parties Pepijn Corduwener, 2023 The Rise and Fall of the People's Parties explores the striking parallels between the history of democracy and that of the people's parties since 1918 It demonstrates that understanding the rise and fall of the people's parties is pivotal to understanding the contemporary crisis of democracy      Debating Turkey in Europe Caner Tekin, 2019-12-16 In contemporary history a much debated issue has been whether European nations have a common identity and what relevance the European Union has for a shared definition of Europeanness The present book examines the link between historical conceptions of Europe and the contestations over Turkey's compatibility with the European Union during the 2000s      **Christian Democracy and the Fall of Communism** Michael Gehler, Piotr H. Kosicki, Helmut Wohnout, 2019-11-20 Debates on the role of Christian Democracy in Central and Eastern Europe too often remain strongly tied to national historiographies With the edited collection the contributing authors aim to reconstruct Christian Democracy's role in the fall of Communism from a bird's eye perspective by covering the entire region and by taking third way options in the broader political imaginary of late Cold War Europe into account The book's twelve chapters present the most recent insights on this topic and connect scholarship on the Iron Curtain's collapse with scholarship on political Catholicism Christian Democracy and the Fall of Communism offers the reader a two fold perspective The first

approach examines the efforts undertaken by Western European actors who wanted to foster or support Christian Democratic initiatives in Central and Eastern Europe The second approach is devoted to the re emergence of homegrown Christian Democratic formations in the 1980s and 1990s One of the volume s seminal contributions lies in its documentation of the decisive role that Christian Democracy played in supporting the political and anti political forces that engineered the collapse of Communism from within between 1989 and 1991

**Catholicism and Nationalism** Madalena Meyer Resende,2014-10-03 This book addresses the adaptation of nationalism to the sharing of sovereignty with other nations in supranational arrangements beyond the state or with nations and nationalities within the state It compares two cases Poland and Spain where the outcome of this processes of transformation differed whereas in Spain a unified right wing partially reconciled Spain with the Catalanian Basque and Galician nationalisms in Poland the right wing was structured around two opposed conceptions of Polish nationalism and their relation to other nations The book relates the transformation of nationalism in Poland and Spain where the national and religious identity was closely interconnected with the interaction between the Catholic Church and the political regimes in the second part of the 20th century Catholicism and Nationalism argues that the decision of the Polish hierarchy to mobilize National Catholicism as a political identity in the early years of democracy had a lasting impact on the shape of the right wing and ultimately also on the consolidation of an introverted nationalism skeptical of European integration

*Politics and Social Visions* Maurizio Ferrera,2024-03-04 The starting point of this book is the civil war of ideas that broke out during the early 2010s about the purpose and even the desirability of the European Union as a polity with a number of right wing populist formations openly advocating for exiting the Union The sovereign debt crisis triggered a spiral of ideological decommunalization national leaders seemed to have lost that sense of togetherness and mutual bonds that had been laboriously developed over decades of integration *Politics and Social Visions* explores this politically disruptive process from an ideational perspective on the assumption that symbols and visions play a crucial role In processes of polity formation ideologies offer competing partisan views but tend to converge along the communal dimension which defines the nature and boundaries of the emerging polity This convergence has been a challenge for the EU since its origins as it has required the construction of a coherent and acceptable image of Europe as a compound polity of nation states with a divisive past Maurizio Ferrera offers a reconstruction of how the main ideological currents have struggled and often failed to reconfigure their horizontal profiles i e their images of the national within Europe into a new vertical profile i e an image of the European within the national The challenge has been especially demanding for European left wing parties which have been largely unable to forge a shared and recognizable social vision of the European Union Only during the COVID pandemic have the seeds of a novel communal consensus emerged that might prove capable of defeating the anti communal views of Eurosceptic ideologies and free market technocrats

Imagining European Unity since 1000 AD Patrick Pasture,2015-05-28 European unity is a dream that has appealed to the imagination since the Middle Ages Its motives

have varied from a longing for peace to a deep rooted abhorrence of diversity as well as a yearning to maintain Europe's colonial dominance This book offers a multifaceted history that takes in account the European imagination in a global context

**Universalism and Liberation** Jacopo Cellini, 2017-05-11 The changing attitude of Catholic culture towards modernity After decades of a problematic if not plainly hostile approach to modernity by Catholic culture the 1960s marked the beginning of a new era As the Church employed a more positive approach to the world voices in the Catholic milieu embraced a radical perspective channeling the need for social justice for the poor and the oppressed The alternative and complementary world views of universalism and liberation would drive the engagement of Catholics for generations to come shaping the idea of international community in Catholic culture Because of its traditional connection with the papacy and because of its prominent role in the map of European progressive Catholicism Italy stands out as an ideal case study to follow these dynamics By locating the Italian scenario in a broader geographical frame Universalism and Liberation offers a new vantage point from which to investigate the social and political relevance of religion in an age of crisis
