Light, Life, and Love W.R. Inge, 2008-12 William Inge was an English author, Anglican priest, and professor of divinity at Cambridge University. He was nicknamed the Gloomy Dean because of his pessimistic views in his writings. Besides being a priest, Inge was a columnist for the *Evening Standard* and a trustee of London's National Portrait Gallery. He is best known for his works on Plotinus and neoplatonic philosophy and on Christian mysticism. *Light, Life, and Love: Selections from the German Mystics of the Middle Ages* was published in 1904.

The Path to God's Heart Bernard Huber, 2011 Bernard Huber was born in France in 1954 and is today pastor in the Reformed Church of Switzerland. He has been deeply involved in development aid in India and with the Bartimaeus Project for many years. He spends part of his time in India every year. He discovered very soon that people in great material need are also in need of spiritual help. So he introduced the Prayer of Stillness amongst Indian Christians many years ago and has been able to see incredible changes taking place in the lives of those who faithfully practise this form of prayer. The Prayer of Stillness leads us to a place where we can rediscover our own hearts and learn to use our innate strength and energy in a more healthy way. Many individuals in the vast ocean of mankind have feelings of insecurity and become aware of the fact that a person needs a retreat; they can retire to whenever they feel the need. We need to find our innermost selves and to rediscover God. The Prayer of Stillness will help us along the path to the ultimate goal. The time has come for the Christian world to realise that changing anything of any importance is going to demand a sacrifice and that we are the ones who will have to make that sacrifice.

known for his works on Plotinus and neo platonic philosophy and on Christian mysticism From the Introduction TO most English readers the Imitation of Christ is the representative of mediaeval German mysticism In reality however this beautiful little treatise belongs to a period when that movement had nearly spent itself Thomas a Kempis as Dr Bigg has said was only a semi mystic He tones down the most characteristic doctrines of Eckhart who is the great original thinker of the German mystical school and seems in some ways to revert to an earlier type of devotional literature The Imitation may perhaps be described as an idealised picture of monastic piety drawn at a time when the life of the cloister no longer filled a place of unchallenged usefulness in the social order of Europe To find German mysticism at its strongest we must go back a full hundred years and to understand its growth we must retrace our steps as far as the great awakening of the thirteenth century the age of chivalry in religion the age of St Louis of Francis and Dominic of Bonaventura and Thomas Aquinas
