I Think and Write, Therefore You Are Confused Vahid Paez,2021-08-02 The importance of good documentation can build a strong foundation for any thriving organization This reference text provides a detailed and practical treatment of technical writing in an easy to understand manner The text covers important topics including neuro linguistics programming NLP experimental writing against technical writing writing and unity of effect five elements of communication process human information processing nonverbal communication and types of technical manuals Aimed at professionals and graduate students working in the fields of ergonomics aerospace engineering aviation industry and human factors this book Provides a detailed and practical treatment of technical writing Discusses several personal anecdotes that serve as real work examples Explores communications techniques in a way that considers the psychology of what works Discusses in an easy to understand language stories and examples the correct steps to create technical documents Competency-Based Education in Aviation Suzanne K. Kearns,Timothy J. Mavin,Steven Hodge,2017-05-15 Whether a trainee is studying air traffic control piloting maintenance engineering or cabin crew they must complete a set number of training hours before being licensed or certified The aviation industry is moving away from an hours based to a competency based training system Within this approach training is complete when a learner can demonstrate competent performance Training based on competency is an increasingly popular approach in aviation It allows for an alternate means of compliance with international regulations which can result in shorter and more efficient training programs However there are also challenges with a competency based approach The definition of competency based education can be confusing training can be reductionist and artificially simplistic professional interpretation of written competencies can vary between individuals and this approach can have a high administrative and regulatory burden *Competency Based Education in Aviation Exploring Alternate Training Pathways* explores this approach to training in great detail considering the four aviation professional groups of air traffic control pilots maintenance engineers and cabin crew Aviation training experts were interviewed and have contributed professional insights along with personal stories and anecdotes associated with competency based approaches in their fields Research based and practical strategies for the effective creation delivery and assessment of competency based education are described in detail
