Cabin Fever A Suburban Fathers Search For The Wild:

Cabin Fever Tom Montgomery Fate, 2012-04-17 If Tom Montgomery Fate has not found the secret formula for the deliberate balanced life he is a chief disciple of the search Chicago Tribune Try to imagine Thoreau married with a job three kids and a minivan This is the sensibility serious yet irreverent that suffuses *Cabin Fever* as the author seeks to apply the hermit philosopher's insights to a busy modern life Tom Montgomery Fate lives in a Chicago suburb where he is a husband father professor and active member of his community He also lives in a cabin built with the help of friends in the Michigan woods where he walks by the river chops wood and reads Thoreau by candlelight Fate seeks a more attentive deliberate way of seeing the world and our place in it not only in the woods but also in the context of our relationships and society In his search for a more deliberate life amid a high tech material world Fate invites readers into an interrogation of their own lives and into a new kind of vision the possibility of enough in a culture of more

City Creatures Gavin Van Horn, Dave Aftandilian, 2015-11-03 This anthology explores Chicago's surprisingly diverse wildlife through essays poetry paintings and photographs We usually think of cities as the domain of humans but we are just one of thousands of species that call the urban landscape home While Chicago residents are likely familiar with squirrels pigeons and dogs many would be surprised to learn about the leafhoppers and water bears black crowned night herons and bison beavers and massasauga rattlesnakes that are living alongside them *City Creatures* introduces readers these and other creatures through a variety of creative contributions Contributors bring a story based approach to this urban safari taking readers on birding expeditions to the Magic Hedge at Montrose Harbor on the North Side canoe trips down the South Fork of the Chicago River better known as Bubbly Creek and insect collecting forays or restoration work days in the suburban forest preserves The book is organized into six sections each highlighting one type of place in which people might encounter animals in the city and suburbs For example schoolyard chickens and warrior wasps populate Backyard Diversity and a chorus of deep freeze frogs awaits in Water Worlds Its powerful combination of insightful narratives numinous poetry and full color art will help readers see the city and the creatures who share it with us in an entirely new light

Water Lore Camille Roulière, Claudia Egerer, 2022-05-19 Located within the field of environmental humanities this volume engages with one of the most pressing contemporary environmental challenges of our time how can we shift our understanding and realign what water means to us Water is increasingly at the centre of scientific and public debates about climate change In these debates rising sea levels compete against desertification hurricanes and floods follow periods of prolonged drought As we continue to pollute canalise and desalinate waters the ambiguous nature of our relationship with these entities becomes visible From the paradisiac and pristine scenery of holiday postcards through to the devastated landscapes of post tsunami news reports images of waters surround us And while we continue to damage what most sustains us collective precarity grows Breaking down disciplinary boundaries with contributions from scholars in the visual arts history earth systems anthropology architecture literature and

creative writing archaeology and music this edited collection creates space for less prominent perspectives with many authors coming from female Indigenous and LGBTQIA contexts Combining established and emerging voices and practice led research and critical scholarship the book explores water across its scientific symbolic material imaginary practical and aesthetic dimensions It examines and interrogates our cultural construction and representation of water and through original research and theory suggests ways in which we can reframe the dialogue to create a better relationship with water sources in diverse contexts and geographies This expansive book brings together key emerging scholarship on water persona and agency and would be an ideal supplementary text for discussions on the blue humanities climate change environmental anthropology and environmental history
