Calabria The Other Italy:

Calabria: The Other Italy Karen Haid, 2015-01-07 Once the hub of the Mediterranean Calabria now dangles largely ignored at the bottom of the Italian boot struggling for survival acceptance and a place in modern Italy and the world Little known even to Italians outside the nefarious activities of its Ndrangheta mafia organization Calabria allures with its simplicity and rewards with an underlying complexity as in savoring an artisanal cheese appreciating an ancient Greek masterwork or interpreting a particularly expressive phrase in the local dialect Calabria The Other Italy paints a compelling picture of contemporary Calabria and Southern Italy weaving observation personal anecdote salient historical information and social commentary into a nonfiction narrative that combines travelogue with an exploration of everyday life and culture At times humorous at others poignant this engaging work portrays the joys and challenges of the other Italy **Essays on**

the History and Culture of the Unknown Calabria Caterina Pangallo, 2023-09-01 Calabria is one of the oldest civilised regions of Europe In antiquity the philosophy science literature and poetry of the Greek Pythagoreans flourished here in the Middle Ages the Norman Kingdom was the most cultured and opulent civilisation in the world However in modern times Calabria has suffered from the almost complete neglect of its multi faceted cultural legacy by dominant foreign ruling powers declining into a third world region at the toe of the Italian peninsula This book directs the attention of the world to those immense disregarded riches through a collection of essays on the region s history arts and crafts its philosophy and substantial intellectual legacy and especially its rejuvenation among the younger generations of today Each of the 16 chapters was written by a scholar with unique experience in their field of research They will be immensely useful for academics as well as students interested in Mediterranean culture **On Site Diagnostics for Architectural**

Conservation and Restoration Alessia Bianco, 2017-07 The topic of on site diagnostics for historical monumental and vernacular architecture is characterized by a twofold difficulty partially due to a sort of hiatus between the scientific community and a professional system In fact on one side universities and research centres produce advanced technologies methodologies and procedures but they are not always adequately disseminated among professionals and are sometimes inconsistent with some relevant criteria such as feasibility and cost effectiveness On the other side professionals in the field of on site diagnostics for historical architectures are holding a heritage made of experiences and practice which often is not enough shared and sometimes is contrasting with the limited possibilities to evaluate and verify the professional training and certification system which seems too heterogeneous if compared to other high scientific and technical professions as is the case for example in medicine or engineering In this book the diagnostic experiences are described though for logistical reasons often briefly following a systematic methodological approach according to three of the main steps for the knowledge of historical buildings anamnesis diagnosis and prognosis obviously with particular attention to the specifically diagnostic issues diagnosis but framed in the preliminary diagnostic plan and interpreted in the light of the performance prefigured in

the preliminary stages and connected to the visual inspection That is why this book regards not only some experimental unconventional and innovative diagnostic surveys and diagnostic experiences carried out on particularly valuable monumental buildings under the historical architectural point of view but also ordinary and simple experiences in the field of professional diagnostic practice where however it was possible to apply the methodology and the know how acquired and systematized in the performance of the experimental diagnostic surveys often included in wider scientific research projects This book is not exclusively addressing the scientific and academic community but it also pursues the aim of disseminating in the professional system a heritage of rather varied experimental researches and practical experiences but methodologically oriented toward a culture which considers the design of diagnostic plans as a regulation criterion for quality control of professionals

Bradley, 2019-07-29 In this autobiography Omar N Bradley 1893 1981 recounts his youth in Missouri his years at the US Military Academy at West Point he graduated in 1915 alongside Dwight D Eisenhower his assignments on the US Mexico border and in Montana guarding copper mines during World War I his tours teaching mathematics at West Point and in 1941 commanding of the US Army Infantry School at Fort Benning his active duty during World War II in North Africa Sicily Normandy and eventually commanding 43 divisions and 1 3 million Americans in Europe linking up with Soviet forces on the Elbe in April 1945 sealing the defeat of Nazi forces Bradley provides vivid descriptions of key figures in the liberation of Europe including Marshall Eisenhower Patton Churchill and Montgomery Back in Washington Bradley describes his years heading the Veterans Administration his tenure as Army Chief of Staff and as first Chairman of the Joint Chiefs of Staff starting in 1949 After being promoted to the rank of General of the Army five stars in 1950 Bradley was the senior military commander when the Korean War started he supported President Truman's wartime policy of containment and was instrumental in persuading Truman to dismiss General MacArthur in 1951 after MacArthur resisted administration attempts to scale back the war's strategic objectives The narrative deals skillfully with the planning and execution of campaigns that changed history an unmatched panorama of 40 years of American military history A great many writers have taken a crack at describing the 1944 Allied landings in Normandy but no overall description of that long bitter battle on the American beaches Utah and Omaha is better than the one in this book Drew Middleton The New York Times The most unassuming of the WW II military chiefs has in recompense the last stinging word a vigorous accomplished exceptionally unconstrained narrative

Explosive yet likable Kirkus Reviews A surprisingly candid account from a man long reputed to be mild mannered discreet and uncritical of the figures of his time General Bradley has given us a very informative autobiography Especially interesting are the sections on American military participation in the North African and Sicilian campaigns and Eisenhower's role there the Normandy landings and subsequent breakout the Battle of the Bulge and President Truman's removal of General MacArthur from command in Korea He is very frank in his comments on Eisenhower's weaknesses as Allied commander in North Africa and Sicily and of Patton's ill advised behavior and remarks during that period and later He is also harshly critical of Montgomery's prima donna like behavior and his continual efforts to push Eisenhower into giving him the supreme command of all Allied ground troops With the loss of General Bradley there are unlikely to be any more top rank firsthand accounts of this period in US military history Bradley's book therefore may have the last word but he hasn't abused that privilege He was too fair a man for that Howard C Thomas The Christian Science Monitor A superb book a remarkably smooth flowing account of the life of one of this country's most distinguished military leaders Bradley's candid appraisals of his superiors subordinates and peers notably Patton Montgomery Eisenhower Simpson and Hodges make fascinating reading this is a first rate addition to the growing number of biographies of prominent World War II military personalities Besides being eminently enjoyable reading for casual consumption it is of significant value to the student of military history
