Christianity And Developmental Psychopathology Foundations And Approaches:

Christianity and Developmental Psychopathology Kelly S. Flanagan, Sarah E. Hall, 2014-03-19 Since its origin in the early 1980s developmental psychopathology has become one of the most significant frameworks for child clinical psychology This volume of essays explores this framework from an integrative Christian viewpoint combining theory empirical research and theology to explore a holistic understanding of children s development *Integrative Approaches to Psychology and Christianity, Fourth Edition* David N. Entwistle, 2021-11-03 Since the first edition of *Integrative Approaches to Psychology and Christianity* was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle s book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

Mirrors of Self Jonathan P. Badgett, 2021-10-14 Orthodox Christology maintains that Jesus Christ is both truly God and truly human As such he is the key to knowing both God and self In a series of applications of christological anthropology *Mirrors of Self* develops this epistemic premise in dialogue with a diversity of Christian and secular historical and modern perspectives Aspects of human personhood including the ever elusive self gain greater clarity and significance in the light of Christ s person and work At the center of individual human subjectivity we encounter a broken sin blinded self in need of renewal and release What healing we find comes to us as Christ s ecological presence works in and through others the mirrors of self whose instrumental agency Christ employs in service to his own redemptive ends *Lay Counseling, Revised*

and Updated Siang-Yang Tan, Eric T. of the teachers and the students this is the book for you **A Christian Spirituality and Psychotherapy** Richard H. York, 2009-06-01 This book describes a method of therapy based upon the Christian spirituality and psychotherapy perspective developed by Dr Richard York This clinical theology perspective is a phenomenological approach that integrates spiritual theological and psychological concepts and was developed in large part through York's own experience of being relieved of depression and anxiety through interweaving of psychotherapy prayer and meditation spiritual direction and the relationship with his Indwelling Spirit Because human beings are the products of relationships York critiques approaches to psychology premised upon the subject object epistemology of empirical science that study human behavior He suggests instead that a relational ontology research method offers an approach superior to that of standard psychotherapy and uses experience in relationship as the fundamental concept in this clinical theology Because people are prone to hurt themselves and others York also argues that standard approaches to psychology need to develop a psychology of sin and evil including some form of a Higher Power as essential parts of the spiritual aspect of psychotherapy York critiques Christian theologians for developing theology that seldom uses empirical data and that is irrelevant to the process of helping people heal and grow He criticizes those pastoral ministers who moralize with people instead of listening to them as well as those who preach more about sin and suffering than God's presence and saving grace through the forgiveness of sins While he acknowledges that most of his perspective is not new York does offer a unique contribution to the field of psychotherapy through the concept of the Indwelling Spirit He describes how the Indwelling Spirit works in psychotherapy and the various techniques to access it He further argues that his experience as a gay psychologist is an essential aspect of his method because in being healed through his experience with his Indwelling Spirit he was able to define this experience for use in psychotherapy an insight used by very few straight therapists York challenges the notion of how a gay man who worships God regularly found healing through a relationship with Christ in the Holy Spirit of God and developed the concept of the Indwelling Spirit for psychotherapy could be considered objectively disordered and intrinsically evil by the Roman Catholic Magisterium Furthermore York describes a new principle of moral theology for sexual relationships based on love rather than procreation and suggests seven research hypotheses to study the phenomenon of the Indwelling Spirit and the love that is exhibited in both same sex and opposite sex relationships Positive Psychology Coaching in Practice Suzy Green, Stephen Palmer, 2018-07-17 Positive Psychology Coaching in Practice provides a comprehensive overview of positive psychology coaching bringing together the best of science and practice highlighting current research and emphasising the applicability of each element to coaching With an international range of contributors this book is a unique resource for those seeking to integrate positive psychology into their evidence based coaching practice Beginning with an overview of positive psychology coaching the book includes an assessment of theories of wellbeing an examination of mindfulness research a guide to relevant neuroscience and a review of a strengths based approach It also contains chapters which explore the application of

Developmental Psychology in Historical Perspective Dennis Thompson, John D. Hogan, Philip M. Clark, 2012-02-13 This is the first book to provide a comprehensive overview of the history of developmental psychology from the pre scientific era to the present day Covers the first research published in Germany America and France during the late 19th century Examines the work and influence of key international scholars in the area Incorporates the contributions of psychologists from diverse backgrounds Pays attention to the historical research on development in adulthood and old age Highlights the relationship between the growth of developmental psychology and renewed interest in child rearing practices

Developmental Psychology and Young Children's Religious Education Olivera Petrovich, 2022-12-16 Developmental Psychology and Young Children's Religious Education sets out to identify the conceptual pre requisites for young children's religious education learning and clearly highlights the challenges that children and their teachers encounter in the RE educational process Based on a study with 431 children aged 5 to 7 years from different schools faith and non faith and 47 teachers from the same schools as the children this book offers an insightful look into younger children's religious education providing statistical evidence to dismantle the belief that young children lack the ability to conceptualise God in abstract terms The information obtained from these children and their teachers reveals a major discrepancy between the teachers perceptions of young children's conceptual abilities for RE learning on the one hand and children's actual abilities revealed in their responses throughout the study on the other Based on the evidence described in the volume Petrovich argues that teacher training courses for primary RE need to be designed to include a substantial component of contemporary developmental research that is of direct relevance to children's conceptual abilities and understanding of abstract concepts Developmental Psychology and Young Children's Religious Education is essential reading for students and researchers in developmental psychology religious education teacher education education studies and cultural anthropology

Christianity and Psychiatry John R. Peteet, H. Steven Moffic, Ahmed Hankir, Harold G. Koenig, 2021-09-02 This book aims to help readers appreciate the many faceted relationship between Christianity one of the world's major faith traditions and the practice of psychiatry Chapter authors in this book first consider challenges posed by historical antagonisms church based mental health stigma and controversy over phenomena such as hearing voices Next others explore both how Christians often experience conditions such as mood and psychotic disorders disorders in children

and adolescents moral injury and PTSD and ways that their faith can serve as a resource in their healing Twelve Step spirituality originally informed by Christianity is the subject of a chapter as are issues raised for Christians by disability death and dying A set of chapters then focuses on the state of integration of Christian beliefs and practices into psychotherapy treatment delivery educational programming clergy clinician collaboration and treatment by a non Christian psychiatrist Finally there are chapters by a mental health professional who has been a patient a Jewish psychiatrist a Muslim psychiatrist knowledgeable about Christianity and psychiatry in the Muslim majority world and a Christian psychiatrist These chapters provide context diversity and personal perspectives Christianity and Psychiatry is a valuable resource for mental health professionals seeking to understand and address the particular challenges that arise when caring for Christian patients

Theological Education in a Cross-Cultural Context A. Kay Fountain, 2016-03-18 It is both a pleasure and a privilege to introduce this volume of essays in honour of John and Bea Carter I have known the Carters for about 30 years and have appreciated their gracious and forthright approach to both ministry and the Christian life Friends and colleagues have contributed to this volume with the underlying theme of Christian Education specifically in an intercultural environment The authors of these articles come from different streams within Pentecostalism and from differing ethnic backgrounds This is a fitting testimony to the influence that John and Bea have had in their ministry John s influence in the development of the Asia Pacific Theological Association and in later years in the World Association of Pentecostal Theological Educators has been both visionary and significant in encouraging high academic standards in Pentecostal Education around the world Bea s constant support encouragement and hospitality has facilitated this ministry A Kay Fountain Ph D APTS Academic Dean From the Introduction

The Theory and Practice of Christian Psychology in Europe Nicolene L. Joubert, 2022-12-01 A view of human nature generally undergirds approaches to mental health and flourishing Spirituality is accepted by most cultures as an integral part of human nature and cannot be ignored when attempting to take care of our suffering and promoting flourishing The onset of the COVID 19 pandemic in December 2019 caused worldwide shock and ripped at the very fabric of society Everybody was affected by the threat of the illness and loss of lives The disastrous economic impact is still felt in many parts of the world In this book a combination of Christian faith and scientific knowledge is presented as an answer to the question of human suffering Individual and collective suffering are addressed by various articles and therapeutic models The book further serves to deepen understanding of the value of spiritual knowledge and insight in therapy for both Christian and non Christian therapists in respect of both theory and practice The content covers a wide range of topics including collective suffering individual suffering due to abuse elements of Christian psychotherapy the role of conscience and faith in healing spiritual maturity and a Christian view of identity in a digital age
