**Curators of the Buddha** Donald S. Lopez Jr., Donald S. Berkwitz, 2013-01-21 Many researchers have explored the impact of British and French Orientalism in the reinterpretations of Buddhism in South and Southeast Asia during the nineteenth and early twentieth centuries Less noticed however and infrequently discussed is the impact of Portuguese colonialists and missionaries upon Buddhist communities in the sixteenth and seventeenth centuries across Asia Stephen C Berkwitz addresses this theme by examining five poetic works by Alagiyavanna Mukaveti b 1552 a renowned Sinhala poet who participated directly in the convergence of local and trans local cultures in early modern Sri Lanka Berkwitz follows the written works of the poet from his position in the court of a Sinhala king through the cultural upheavals of warfare and the expansion of colonial rule and finally to his eventual conversion to Catholicism and employment under the Portuguese Crown In so doing Berkwitz explores the transformations in religion and literature rendered by what was arguably the earliest sustained encounter between Asian Buddhists and European colonialists in world history Alagiyavanna s poetic works give expression to both a discourse of nostalgia for the local religious and cultural order in the late sixteenth century and a discourse of cultural assimilation with the new colonial order during its ascendancy in the early seventeenth century Employing an interdisciplinary approach that combines Buddhist Studies History Literary Criticism and Postcolonial Studies this book yields important insights into how the colonial experience contributed to the transformation of Buddhist culture in early modernity *The Oxford Handbook of American Buddhism* Ann Gleig, Scott A. Mitchell, 2024 The Oxford Handbook of American Buddhism offers the most comprehensive and up to date scholarship available on Buddhism in America It charts the history and diversity of Buddhist communities including traditions and communities that have been previously neglected and looks at the ways in which Buddhist practices such as mindfulness meditation have been adopted in non Buddhist settings *The Shape of Ancient Thought* Thomas McEvilley, 2012-02-07 Spanning thirty years of intensive research this book proves what many scholars could not explain that today s Western world must be considered the product of both Greek and Indian thought Western and Eastern philosophies Thomas McEvilley explores how trade imperialism and migration currents allowed cultural philosophies to intermingle freely throughout India Egypt Greece and the ancient Near East This groundbreaking reference will stir relentless debate among philosophers art historians and students *The Participatory Turn* Jorge N. Ferrer, Jacob H. Sherman, 2008-12-04 Cuts through traditional debates to argue that religious phenomena are cocreated by human cognition and a generative spiritual power **Flowers on the Rock** John S. Harding, Alexander Soucy, Victor Sōgen Hori, 2014-06-01 When Sasaki Sokei an founded his First Zen Institute of North America in 1930 he suggested that bringing Zen Buddhism to America was like

holding a lotus against a rock and waiting for it to set down roots Today Buddhism is part of the cultural and religious mainstream *Flowers on the Rock* examines the dramatic growth of Buddhism in Canada and questions some of the underlying assumptions about how this tradition has changed in the West Using historical ethnographic and biographical approaches contributors illuminate local expressions of Buddhism found throughout Canada and relate the growth of Buddhism in Canada to global networks A global perspective allows the volume to overcome the stereotype that Asia and the West are in opposition to each other and recognizes the continuities between Buddhist movements in Asia and the West that are shaped by the same influences of modernity and globalization *Flowers on the Rock* studies the fascinating and ingenious changes inflections and adaptations that Buddhists make when they set down roots in a local culture It is essential reading for anyone interested in Buddhism religious life in Canada and the broader issues of multiculturalism and immigration Contributors include Michihiro Ama University of Alaska D Mitra Barua University of Saskatchewan Paul Crowe Simon Fraser University Melissa Anne Marie Curley University of Iowa Mavis Fenn University of Waterloo Kory Goldberg Champlain College Sarah F Haynes Western Illinois University Jackie Larm University of Edinburgh Paul McIvor independent James Placzek University of British Columbia and Angela Sumegi Carleton University

**The Oxford Handbook of Christianity in Asia** Felix Wilfred, 2014 Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies Despite the ongoing global expansion of Christianity there remains a lack of comprehensive scholarship on its development in Asia This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions including worship theology spirituality inter religious relations interventions in society and mission The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia They analyze how the growth of Christian beliefs throughout the continent is linked with the socio political and cultural processes of colonization decolonization modernization democratization identity construction of social groups and various social movements With a particular focus on inter religious encounters and emerging theological and spiritual paradigms the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia

*Confronting Christianity* Sven Trakulhun, 2024-07-31 *Confronting Christianity* explores the history of religious encounters between Christian missionaries and Thai Buddhists during the nineteenth century a period of Western imperialism in Southeast Asia that fundamentally transformed Siamese society and religious institutions From about 1830 onward discussions on religion became a central arena of conflict between rival regimes of knowledge in Thailand confronting traditional Buddhist views on nature and man's existence with the ideals and practices of science and rationalism coming from the West Protestant missionaries mostly from the United States became important brokers of knowledge as one of their strengths was the ability to offer religion in tandem with modern science and technology Historian Sven Trakulhun explains why the intrusion of evangelical Christianity strengthened the

position of Theravada Buddhism rather than undermining people's belief in traditional forms of worship. Based on a wide range of Thai and Western primary sources, the volume describes how Christian missionaries unwittingly contributed to the making of what scholars of Buddhism have later rendered as Buddhist modernism. In response to Christian assaults on the traditional cosmology, Buddhist reformers fashioned an orthodox version of Buddhism that acknowledged the findings of modern science and at the same time deemed even more rational than Christianity. This new orthodoxy became a major source of moral authority for Thai kings and an important ideology for pushing their claims for religious leadership in the Theravada Buddhist world. Trakulhun offers a thorough study of the encounter between Christianity and Buddhism and places the history of Siamese Theravada Buddhism within the broad context of global intellectual history. *Indology, Indomania, and Orientalism* Douglas T. McGetchin, 2009. He has presented more than a dozen papers at academic conferences in North America, Europe, and South Asia, including Harvard University, Humboldt University, Heidelberg University's South Asia Institute, and the Max Mueller Bhavan in New Delhi, India.

**Religions of the World** J. Gordon Melton, Martin Baumann, 2010-09-21. This masterful six-volume encyclopedia provides comprehensive global coverage of religion, emphasizing larger religious communities without neglecting the world's smaller religious outposts. *Religions of the World: Second Edition: A Comprehensive Encyclopedia of Beliefs and Practices* is an extraordinary work bringing together the scholarship of some 225 experts from around the globe. The encyclopedia's six volumes offer entries on every country of the world, with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works. Entries include profiles on religion in the world's smallest countries, the Vatican, and San Marino; profiles on religion in recently established or disputed countries, Kosovo, and Nagorno Karabakh; as well as profiles on religion in some of the world's most remote places, Antarctica and Easter Island. *Religions of the World* is unique in that it is based in religion on the ground, tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world, its major geographical sites, and its major celebrations. Unlike other works, the encyclopedia also covers the world of religious unbelief as expressed in atheism, humanism, and other traditions.

**Desire, Faith, and the Darkness of God** Eric Bugyis, David Newheiser, 2015-11-15. In the face of religious and cultural diversity, some doubt whether Christian faith remains possible today. Critics claim that religion is irrational and violent, and the loudest defenders of Christianity are equally strident. In response, *Desire, Faith, and the Darkness of God: Essays in Honor of Denys Turner* explores the uncertainty essential to Christian commitment; it suggests that faith is moved by a desire for that which cannot be known. This approach is inspired by the tradition of Christian apophatic theology, which argues that language cannot capture divine transcendence. From this perspective, contemporary debates over God's existence represent a dead end: if God is not simply another object in the world, then faith begins not in abstract certainty but in a love that exceeds the limits of knowledge. The essays engage classic Christian thought alongside

literary and philosophical sources ranging from Pseudo Dionysius and Dante to Karl Marx and Jacques Derrida Building on the work of Denys Turner they indicate that the boundary between atheism and Christian thought is productively blurry Instead of settling the stale dispute over whether religion is rationally justified their work suggests instead that Christian life is an ethical and political practice impassioned by a God who transcends understanding

**Christianity and Religious Diversity** Harold A. Netland, 2015-05-12 This book explores how religions have changed in a globalized world and how Christianity is unique among them Harold Netland an expert in philosophical aspects of religion and pluralism offers a fresh analysis of religion in today's globalizing world He challenges misunderstandings of the concept of religion itself and shows how particular religious traditions such as Buddhism undergo significant change with modernization and globalization Netland then responds to issues concerning the plausibility of Christian commitments to Jesus Christ and the unique truth of the Christian gospel in light of religious diversity The book concludes with basic principles for living as Christ's disciples in religiously diverse contexts

*'Femininity' and the History of Women's Education* Tim Allender, Stephanie Spencer, 2020-12-18 This book draws on recent deconstructions around the idea of femininity as a social racial and class construct and explores the diversity of spaces that may be defined as educational that range from institutional contexts to family to professional outlooks to racial identity to defining community and religious groupings It explores how notions of femininity change across time and place and within individual lives Such changes take place at the interface of external forces and individual agency The application of the notion of femininity that assumes a consistent definition of the term is interrogated by the authors leading to a discussion of the rich possibilities for new directions in research into women's lives across time place and individual life histories

*The Woman Who Raised the Buddha* Wendy Garling, 2021-03-23 Nautilus Book Award Winner The first full biography of Mahaprajapati Gautami the woman who raised the Buddha examining her life through stories and canonical records Mahaprajapati was the only mother the Buddha ever knew His birth mother Maya died shortly after childbirth and her sister Mahaprajapati took the infant to her breast nurturing and raising him into adulthood While there is a lot of ambiguity overall in the Buddha's biography this detail remains consistent across all Buddhist traditions and literature In this first full biography of Mahaprajapati *The Woman Who Raised the Buddha* presents her life story with attention to her early years as sister queen matriarch and mother as well as her later years as a nun Drawing from story fragments and canonical records Wendy Garling reveals just how exceptional Mahaprajapati's role was as leader of the first generation of Buddhist women helping the Buddha establish an equal community of lay and monastic women and men Mother to the Buddha mother to early Buddhist women mother to the Buddhist faith Mahaprajapati's journey is finally presented as one interwoven with the founding of Buddhism

**Modern Buddhist Conjunctures in Myanmar** Juliane Schober, 2010-11-30 For centuries Burmese have looked to the authority of their religious tradition Theravada Buddhism to negotiate social and political hierarchies *Modern Buddhist Conjunctures in Myanmar* examines those moments in the modern

history of this Southeast Asian country when religion culture and politics converge to chart new directions Arguing against Max Weber s characterization of Buddhism as other worldly and divorced from politics this study shows that Buddhist practice necessitates public validation within an economy of merit in which moral action earns future rewards The intervention of colonial modernity in traditional Burmese Buddhist worldviews has created conjunctures at which public concerns critical to the nation s future are reinterpreted in light of a Buddhist paradigm of power Author Juliane Schober begins by focusing on the public role of Buddhist practice and the ways in which precolonial Buddhist hegemonies were negotiated Her discussion then traces the emergence of modern Buddhist communities through the colonial experience the disruption of traditional paradigms of hegemony and governance the introduction of new and secular venues to power modern concerns like nationalism education the public place of religion the power of the state and Buddhist resistance to the center The continuing discourse and cultural negotiation of these themes draw Buddhist communities into political arenas either to legitimate political power or to resist it on moral grounds The book concludes with an examination of the way in which Buddhist resistance in 2007 known in the West as the Saffron Revolution was subjugated by military secularism and the transnational pressures of a global economy A skillfully crafted work of scholarship Modern Buddhist Conjunctures in Myanmar will be welcomed by students of Theravada Buddhism and Burma Myanmar readers of anthropology history of religions politics and colonial studies of modern Southeast Asia and scholars of religious and political practice in modern national contexts
