A Guide to Curriculum Mapping Janet A. Hale, 2007-12-13 This practical step by step guide examines the stages of contemplating planning and implementing curriculum mapping initiatives that can improve student learning and create sustainable change

Case Studies in Elementary and Secondary Curriculum Marius Boboc, R. D. Nordgren, 2010 Case Studies in Elementary and Secondary Curriculum provides 21 real world cases that provide the opportunity for educators to explore the different perspectives that different stakeholders take on the concept of curriculum The cases examine how curriculum comes to life as a complex process including the whole continuum ranging from design to implementation and evaluation and how this process can be analyzed and changed

The Core: Teaching Your Child the Foundations of Classical Education Leigh A. Bortins, 2010-06-08 In the past correct spelling the multiplication tables the names of the state capitals and the American presidents were basics that all children were taught in school Today many children graduate without this essential knowledge Most curricula today follow a haphazard sampling of topics with a focus on political correctness instead of teaching students how to study Leigh Bortins a leading figure in the homeschooling community is having none of it She believes that there are core areas of knowledge that are essential to master Without knowing the multiplication tables children can't advance to algebra Without mastery of grammar students will have difficulty expressing themselves Without these essential building blocks of knowledge students may remember information but they will never possess a broad and deep understanding of how the world works In The Core Bortins gives parents the tools and methodology to implement a rigorous thorough and broad curriculum based on the classical model including Rote memorization to cement knowledge Systematic learning of geography historical facts and timelines Reading the great books and seminal historical documents instead of adaptations and abridged editions Rigorous training in math and the natural sciences

Curriculum John D. McNeil, 2003 Exceptional in relating curriculum to teaching strategies and methods this book includes the latest in curriculum development practice theory and instructional strategies based on research in how people learn It is designed to engage teachers in understanding curriculum reflecting upon it and carrying out their own role in curriculum making Constructivist pedagogy is a central element throughout the book Attention to the political and social forces impacting the teacher's role provide information on the accountability movement the profitization of education changed views of learning and the influence of technology Chapter One Who Makes Curriculum Roles and Levels of Decision Making describes federal state and local efforts to control curriculum and provides specific cases and suggestions that show how teachers can fulfill their moral critical and professional responsibilities within these official constraints Chapter Two Curriculum in the Context of School Reform offers an in depth up to date examination of the impact of various reform policies on classroom practices Coverage of multiculturalism globalization reform assessment and standards encourages consideration of the most recent trends and issues influencing curriculum development For teachers and curriculum makers

of kindergarten through 12th grade **Mapping and Empire** Dennis Reinhartz, Gerald D. Saxon, 2010-01-01 From the sixteenth through the mid nineteenth centuries Spain then Mexico and finally the United States took ownership of the land from the Gulf Coast of Texas and Mexico to the Pacific Coast of Alta and Baja California today s American Southwest Each country faced the challenge of holding on to territory that was poorly known and sparsely settled and each responded by sending out military mapping expeditions to set boundaries and chart topographical features All three countries recognized that turning terra incognita into clearly delineated political units was a key step in empire building as vital to their national interest as the activities of the missionaries civilian officials settlers and adventurers who followed in the footsteps of the soldier engineers With essays by eight leading historians this book offers the most current and comprehensive overview of the processes by which Spanish Mexican and U S soldier engineers mapped the southwestern frontier as well as the local and even geopolitical consequences of their mapping Three essays focus on Spanish efforts to map the Gulf and Pacific Coasts to chart the inland Southwest and to define and defend its boundaries against English French Russian and American incursions Subsequent essays investigate the role that mapping played both in Mexico s attempts to maintain control of its northern territory and in the United States push to expand its political boundary to the Pacific Ocean The concluding essay draws connections between mapping in the Southwest and the geopolitical history of the Americas and Europe *Math Instruction for Students with Learning Problems* Susan Perry Gurganus, 2017-02-24 Math Instruction for Students with Learning Problems Second Edition provides a research based approach to mathematics instruction designed to build confidence and competence in pre and in service PreK 12 teachers This core textbook addresses teacher and student attitudes toward mathematics as well as language issues specific mathematics disabilities prior experiences and cognitive and metacognitive factors The material is rich with opportunities for class activities and field extensions and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis **Voyaging With Kids** Behan Gifford, Sara Dawn Johnson, Michael Robertson, 2015-09-18 A treasure trove of useful well organized information on sea going parenting Gary Cap n Fatty Goodlander Author of Buy Outfit and Sail Choosing a boat that is right for your family handling the naysayers keeping your children safe healthy and entertained afloat this inspirational and comprehensive guide may be just what you need to turn your dream into a reality The three authors who have each voyaged thousands of miles with children on board provide a factual and balanced look at the realities of family life on the sea From their own experience and with information from interviews with dozens of other voyaging parents they discuss caring for an infant on board handling the changing needs of children as they grow education options ensuring parents find the private time to keep their relationships in tune and helping children make the eventual transition back to shore life Added to the authors voices are sidebars from other cruising parents with specialized information on subjects as diverse as handling special diets and how your children can keep in touch with friends around the

world A unique bonus chapter written by a dozen former cruising kids looks at the long term effects of breaking away from shoreside normalcy A substantial appendix of resources provides valuable further information on the subjects covered in this book It is said that every parent inflicts their lifestyle choices on their children Read this book to find why heading out to sea with your children may be the most rewarding infliction of all

Betrayed Laurie H. Rogers, 2011-01-16 In America more money is spent from all sources on K 12 education than on the U S Department of Defense Why then are so many children suffering what amounts to educational malpractice Why are they crippled for life with a substandard education and a life altering vision of themselves as incapable Betrayed is a passionate well researched and frank accounting of how a failing public education system continues to be forced on teachers and students despite its nearly complete lack of supporting research or successful student outcomes Betrayed roots out the self styled stakeholders whose personal professional and financial interests are served by this failing system It sympathizes with teachers many of whom aren't allowed to do their jobs yet are constantly threatened with removal for ineffectiveness or insubordination Betrayed is an expose but it's also a beacon of commonsense and hope Through the Square of Effective Learning Betrayed offers practical methods for teachers parents advocates and legislators to stand up against this broken system to effect positive change and to ensure a good quality education for all of our children
