Di Summa, Shawn Loht, 2019-10-30 This handbook brings together essays in the philosophy of film and motion pictures from authorities across the spectrum. It boasts contributions from philosophers and film theorists alike, with many essays employing pluralist approaches to this interdisciplinary subject. Core areas treated include film ontology, film structure, psychology, authorship, narrative and viewer emotion. Emerging areas of interest including virtual reality, video games and nonfictional and autobiographical film also have dedicated chapters. Other areas of focus include the film medium's intersection with contemporary social issues, film's kinship to other art forms and the influence of historically seminal schools of thought in the philosophy of film. The Bloomsbury Companion to Dance Studies Sherril Dodds,2019-03-21 The Bloomsbury Companion to Dance Studies brings

together leading international dance scholars in this single collection to provide a vivid picture of the state of contemporary dance research. The book commences with an introduction that privileges dancing as both a site of knowledge formation and a methodological approach followed by a provocative overview of the methods and problems that dance studies currently faces as an established disciplinary field. The volume contains eleven core chapters that each map out a specific area of inquiry: Dance Pedagogy, Practice As Research, Dance and Politics, Dance and Identity, Dance Science, Screen Dance, Dance Ethnography, Popular Dance, Dance History, Dance and Philosophy, and Digital Dance. Although these sub-disciplinary domains do not fully capture the dynamic ways in which dance scholars work across multiple positions and perspectives, they reflect the major interests and innovations around which dance studies has organized its teaching and research. Therefore, each author speaks to the labels, methods, issues, and histories of each given category while also exemplifying this scholarship in action. The dances under investigation range from experimental, conceptual, concert dance through to underground street dance practices, and the geographic reach encompasses dance making from Europe, North and South America, the Caribbean, and Asia. The book ends with a chapter that looks ahead to new directions in dance scholarship, in addition to an annotated bibliography and list of key concepts. The volume is an essential guide for students and scholars interested in the creative and critical approaches that dance studies can offer.
