Legal Education in the Global Context Christopher Gane, Robin Hui Huang, 2017-05-15 This book discusses the opportunities and challenges facing legal education in the era of globalization It identifies the knowledge and skills that law students will require in order to prepare for the practice of tomorrow and explores pedagogical shifts legal education needs to make inside and outside of the classroom With contributions from leading experts on legal education from various jurisdictions across the globe the work combines theoretical depth with practical insights Seeking to understand the changing landscape of legal education in the era of globalization the contributions find that law schools can and must adopt educational strategies that at least present students with different understandings of what studying and practicing law is meant to be about They find that law schools need to offer their students choices a vision of practice that is not driven entirely by the demands of the marketplace or the needs of major international law firms Bridging the gap between theory and practice this book makes a significant contribution to the impact of globalization on legal education and how students

and law schools need to adapt for the future It will be of great interest to academics and students of comparative legal studies and legal education as well as policy makers and practitioners **Legal Education Digest** ,1997 *The Internationalisation of Legal Education* William van Caenegem,Mary Hiscock,2014-08-29 For graduate lawyers to succeed in a global environment legal education in every system must undergo revolutionary change Professors van Caenegem and Hiscock explore in detail the new initiatives that are emerging as a response to this development an **Teaching of Rights and Justice in the Law School** Stephen Hurley,Chris Monaghan,2025-03-04 This book examines the challenges of bringing cutting edge research in often controversial areas into the law syllabus and explores how academics can effectively adopt a holistic approach to research and pedagogy when teaching rights and justice The collection brings together experts from all areas of legal scholarship to discuss how they fuse often controversial aspects of rights and justice into their teaching in a way that responds to and is ultimately led by academic research As such it advances legal education through the opportunity to explore the interplay between rights and justice and how scholars both ensure that their teaching is research led whilst responding to the needs and views of students and issues such as generational differences in viewpoints on controversial issues This topical volume will appeal to academics and researchers interested in academic freedom the challenges of research led teaching and the pedagogy around the teaching of rights and justice **APAIS 1994: Australian public affairs information service , Foreign Operations, Export Financing, and Related Programs Appropriations for Fiscal Year 1999** United States. Congress. Senate. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs,1999 **Law Student Professional Development and Formation** Neil W. Hamilton,Louis D. Bilonis,2022-05-05 Law schools currently do an excellent job of helping students to think like a lawyer but empirical data show that clients legal employers and the legal system need students to develop a wider range of competencies This book helps legal educators to understand these competencies and provides practical ways to build them into a law school curriculum Based on recommendations from the American Bar Association the American Association of Law Schools and the Carnegie Foundation for the Advancement of Teaching it will equip students with the skills they need not only to think but to act and feel like a lawyer With this proposed model students will internalize the need for professional development toward excellence their responsibility to others a client centered approach to problem solving and strong well being practices These four goals constitute a lawyer s professional identity and this book empowers legal educators to foster each student s development of a professional identity that leads to a gratifying career that serves society well This title is Open Access Law Books Published ,1997 *Current Publications in Legal and Related Fields* ,1998 Designing Print Materials for Flexible Teaching & Learning In Law Associate Professor at the Center for Employment and Labour Relations Law Faculty of Law Richard Johnstone,Richard Johnstone,Gordon Joughin,2012-07-23 This work is designed for individual teachers and teaching teams who want to develop materials for a whole subject or part of a subject encourage active learning

by students and integrate the use of materials with other teaching and learning strategies **Legal Education in Asia**
Andrew J. Harding, Jiaxiang Hu, Maartje de Visser, 2017-11-20 Legal education systems like legal systems themselves were framed across Asia without exception according to foreign models These reflect the vestiges of colonialism and can be said to amount to imitating the style and purposes of legal education typical in Western and relatively pure common law and civilian systems Today however we see Asian legal education coming into its own and beginning to accept responsibility for designing curricula and approaches that fit the region's particular needs This book explores how conventional transplanted approaches as regards program design as well as modes of teaching are or are on the cusp of being reimagined and discerns emerging home grown traces of innovation replacing imitation in countries and universities across East Asia
