Developments In European Politics 2:

Developments in Central and East European Politics 2 Stephen White, Judy Batt, Paul G. Lewis, 1998 *Developments in European Politics 3* Veronica Anghel, Erik Jones, 2022-09-08

Developments in European Politics considers what Europe is where it came from and what European citizens can make of it It brings together specially commissioned chapters by leading authorities to give an up to date and systematic analysis of European political developments in institutions processes and policy at national regional and international levels It provides wide ranging and clear analysis of the factors influencing European politics from populism and extremism in national politics to the broader forces of globalization immigration climate change and international terrorism Bringing together a brand new contributor team this new edition offers More coverage of Europe s role in the world Increased focus on the attitudes of European citizens as the motor of European politics End of chapter reading suggestions and key questions enabling readers to engage with the important issues at stake An overarching framework that hones in on four contemporary themes the rise of authoritarian politics the mismanagement of globalization the perception of collective insecurity and the disintegration of Europe This is an ideal text for students undertaking courses on European Politics as well as anyone interested in understanding the political challenges facing Europe today

Developments in European Politics Paul M. Heywood, Erik Jones, Martin Rhodes, Ulrich Sedelmeier, 2006-11-14 This major new text brings together specially commissioned chapters by leading authorities on European politics East and West to provide a systematic assessment of developments in political institutions and processes politics and society and policy set in the context of globalization EU enlargement and Europe s changing role on the world stage Carefully planned and edited by an international team of editors it will like its predecessor volumes on *Developments in West European Politics* be essential reading for students and scholars

Developments in Central and East European Politics 4 Stephen White, Judy Batt, Paul G. Lewis, 2007 The face of Central and Eastern Europe has been dramatically transformed since the collapse of communism The region faces new challenges including the needs to find a balance between effective leadership and accountability and to reverse the economic decline of the late communist years Addressing these concerns and others *Developments in Central and East European Politics 4* brings together specially commissioned chapters by leading scholars from both sides of the Atlantic The chapters all of which are new to this edition focus on key features of the political systems that have emerged following the transition to postcommunist rule and the enlargement of the European Union through 2006 Full attention is given to the pattern of events in individual nations but the main emphasis is on the framework of politics across the region constitutions leadership parliaments parties and electoral systems and the process of politics as it is revealed in political participation civil society economic change and the quality of democratic government within and beyond the region Clearly written and well supported with references and suggestions for further reading *Developments in Central and East European Politics 4* is the ideal guide to the process of change in a group of states that were formerly modeled on the Soviet Union but

Developments in Central and East European Politics 5 Stephen White, Judy Batt, 2013-08-30 The new edition of this market leading text brings together specially commissioned chapters by a team of top international scholars on the changing politics of this diverse region negotiating the competing pulls of the European Union and post communist Russia

The Trade-Development Nexus in the European Union Maurizio Carbone, Jan Orbie, 2016-03-22 This volume offers new perspectives on the evolution of the trade development nexus in the European Union against dramatic changes in the international context Without disregarding them it seeks to go beyond the controversial and extensively researched Economic Partnership Agreements EPAs In particular it focuses on the reform of the Generalised System of Preferences the negotiation of various Preferential Trade Agreements the application of trade sanctions the allegedly ambitious agendas on decent work Aid for Trade and aid untying and the implications of the changing balance of power in global economic relations Taking diverse approaches and at times reaching different conclusions contributors directly or indirectly address one or more of the three general themes of the book differentiation coherence and norms This book was published as a special issue of Contemporary Politics

The European Union and Global Development S. Gänzle, S. Grimm, D. Makhan, 2012-04-17 An assessment of the capacity of the EU to coordinate actors and policies with regards to global development The authors argue that the EU and its member states have the potential to act for global development when they are able to improve policy and actor coherence such as through better linking of bilateral and community programmes

Territorial Development, Cohesion and Spatial Planning Neil Adams, Giancarlo Cotella, Richard Nunes, 2012-08-06 This book examines some of the evolving challenges faced by EU regional policy in light of enlargement and to assess some of the approaches and trends in terms of territorial development policy and practice that are emerging out of this process Focusing on the experiences on Central and Eastern Europe these chapters reflect on the diversity of approaches to spatial planning and the the politics of policy formation and multi level governance operations from local to trans national agendas Promoting increased awareness and understanding of these issues is the main purpose of the book as well as harnessing the extensive capacity and knowledge within these countries that can greatly enrich the discourse within an enlarged epistemic community of European spatial planning academics practitioners and policy makers The recently acquired CEE dimension provides a unique opportunity to examine the evolution of existing epistemic communities as well as to explore the potential emergence of new ones

The Southern African Development Community (SADC) and the European Union (EU)

Johannes Muntschick,2017-10-09 This book explores regionalism in the Southern African Development Community SADC and highlights the influence of the European Union EU as an extra regional actor on the organization and integration process The analysis is guided by theory and explains the emergence institutional design and performance of SADC s major integration projects in the issue areas of the economy security and infrastructure It provides in this way a profound assessment of the organization as a whole The study shows that South Africa plays a regional key role as driver for integration while external influence of the EU is ambivalent in character because it unfolds a supportive or obstructive impact The author argues that the EU gains influence over regional integration processes in the SADC on the basis of patterns of asymmetric interdependence and becomes a game changer insofar as it facilitates or impedes solutions to regional cooperation problems

History of the Intellectual Development of Europe John William Draper,1904 **Communism and its Collapse** Stephen White,2002-01-04 Ranging from the Russian revolution of 1917 to the collapse of Eastern Europe in the 1980s this study examines Communist rule By focusing primarily on the USSR and Eastern Europe Stephen White covers the major topics and issues affecting these countries including communism as a doctrine the evolution of Communist rule the challenges to Soviet authority in Hungary and Yugoslavia the emerging economic fragility of the 1960s the complex process of collapse in the 1980s Any student or scholar of European history will find this an essential addition to their reading list The European Parliament and its International Relations Stelios

Stavridis,Daniela Irrera,2015-03-24 Following the Lisbon Treaty the powers of the European Parliament in external relations have gradually expanded and it is increasingly influencing the foreign policy of the European Union This book analyses the role of the European Parliament as an international actor and presents a new debate about its role outside the EU territory It explores different policy areas including human rights international aid trade crisis management and the environment to provide a systematic analysis of the modern global role of the European Parliament The book also considers the European Parliament s regional interactions with Africa Latin America the United States Asia and the Middle East With a common analytical framework and research covering the lifespan of the European Parliament from its first direct elections in 1979 to the present day this comprehensive volume presents an unparalleled analysis of one of the most important institutions in the European Union This book will be of interest to students and scholars of European Union politics and institutions European policy government international relations and European history European Civil Society and International Development Aid Balázs Szent-Iványi,2022-10-26 This book explains how and why European non governmental development organisations NGOs engage in advocacy towards the European Union EU It analyses the heterogenous structure of the sector with examples ranging from large multinational networks to essentially single person NGOs The book provides a detailed map of

the topics which have featured in NGDO advocacy since 2006 arguing that NGDOs have generally been reactive in their advocacy towards the EU The author explains how they have contested a number of policy issues on the agendas of the EU institutions especially around the diversion of aid to manage migration and leverage private sector investments Furthermore some NGDOs have used the COVID 19 pandemic as an opportunity to re package their pre existing policy demands Based on an analytical framework focused around three variables namely moral vision funding concerns and the need to build maintain a good reputation the book explains these advocacy choices and argues that much of NGDO advocacy seems to be consistent with funding motivations The author highlights the importance of moral vision and reputational concerns in moderating how far NGDOs will go with funding driven advocacy arguing that motivations need to be looked at in their complexity and within the specific policy context Drawing on a range of quantitative and qualitative data sets to provide a rich and varied picture of the advocacy work of European development NGOs European Civil Society and International Development Aid is a key reference for researchers and practitioners working in the field Owning Development Susan Park,Antje Vetterlein,2010-10-07 As pillars of the post 1945 international economic system the International Monetary Fund IMF and the World Bank are central to global economic policy debates This book examines policy change at the IMF and the World Bank providing a constructivist account of how and why they take up ideas and translate them into policy creating what we call policy norms The authors compare processes of policy emergence and change and using archival and interview data analyse nine policy areas including gender debt relief and tax and pension reform Each chapter traces the policy norm process in order to shed light on the main sources and mechanisms for norm change within international organizations Owning Development details the strength of these policy norms which emerge then either stabilize or decline The book establishes valuable insights into the strength of current development policies propounded by international organizations and the possibility for change Constitutional Preferences and Parliamentary Reform Thomas Winzen,2017-01-13 This book provides a comprehensive account of national parliaments adaptation to European integration Advancing an explanation based on political parties constitutional preferences the volume investigates the nature and variation of parliamentary rights in European Union affairs across countries and levels of governance In some member states parliaments have traditionally been strong and parties hold intergovernmental visions of European integration In these countries strong parliamentary rights emerge in the context of parties efforts to realise their preferred constitutional design for the European polity Parliamentary rights remain weakly developed where federally oriented parties prevail and where parliaments have long been marginal arenas in domestic politics Moreover divergent constitutional preferences underlie inter parliamentary disagreement on national parliaments collective rights at the European level Constitutional preferences are key to understanding why a Senate of national parliaments never enjoyed support and why the alternatives subsequently put into place have stayed clear of committing national parliaments to any common policies This volume calls into question existing

explanations that focus on strategic partisan incentives arising from minority and coalition government. It furthermore rejects the exclusive attribution of parliamentary deficits to the structural constraints created by European integration and instead restores a sense of accountability for parliamentary rights to political parties and their ideas for the European Union's constitutional design. *Routledge Handbook of Political Corruption* Paul Heywood, 2014-12-17

Since the early 1990s a series of major scandals in both the financial and most especially the political world has resulted in close attention being paid to the issue of corruption and its links to political legitimacy and stability. Indeed in many countries in both the developed as well as the developing world corruption seems to have become almost an obsession. Concern about corruption has become a powerful policy narrative, the explanation of last resort for a whole range of failures and disappointments in the fields of politics, economics and culture. In the more established democracies worries about corruption have become enmeshed in a wider debate about trust in the political class. Corruption remains as widespread today, possibly even more so as it was when concerted international attention started being devoted to the issue following the end of the Cold War. This Handbook provides a showcase of the most innovative and exciting research being conducted in Europe and North America in the field of political corruption as well as providing a new point of reference for all who are interested in the topic. The Handbook is structured around four core themes in the study of corruption in the contemporary world: understanding and defining the nature of corruption; identifying its causes; measuring its extent; and analysing its consequences. Each of these themes is addressed from various perspectives in the first four sections of the Handbook, whilst the fifth section explores new directions that are emerging in corruption research. The contributors are experts in their field, working across a range of different social science perspectives.
