Death, Dissection and the Destitute Ruth Richardson, 2000 In the early nineteenth century body snatching was rife because the only corpses available for medical study were those of hanged murderers With the Anatomy Act of 1832 however the bodies of those who died destitute in workhouses were appropriated for dissection At a time when such a procedure was regarded with fear and revulsion the Anatomy Act effectively rendered dissection a punishment for poverty Providing both historical and contemporary insights *Death Dissection and the Destitute* opens rich new prospects in history and history of science The new afterword draws important parallels between social and medical history and contemporary concerns regarding organs for transplant and human tissue for research **Facing Death: Images, Insights, and Interventions**

Sandra L. Bertman, 2016-01-08 *Facing Death* is a unique handbook for educators healthcare professionals and counselors It uses materials from the visual arts excerpts from poetry fiction drama and examples from popular culture to sensitize the reader to important universal issues confronting the dying and those responsible for their care *The Invention of Suspicion*

Lorna Hutson, 2011-04-14 *The Invention of Suspicion* argues that the English justice system underwent changes in the sixteenth century that because of the system s participatory nature had a widespread effect and a decisive impact on the development of English Renaissance drama These changes gradually made evidence evaluation a popular skill justices of peace and juries were increasingly required to weigh up the probabilities of competing narratives of facts At precisely the same time English dramatists were absorbing from Latin legal rhetoric and from Latin comedy poetic strategies that enabled them to make their plays more persuasively realistic more probable The result of this enormously rich conjunction of popular legal culture and ancient forensic rhetoric was a drama in which dramatis personae habitually gather evidence and invent

arguments of suspicion and conjecture about one another thus prompting us as readers and audience to reconstruct this evidence as stories of characters private histories and inner lives In this drama people act in uncertainty inferring one another's motives and testing evidence for their conclusions As well as offering an overarching account of how changes in juridical epistemology relate to post Reformation drama this book examines comic dramatic writing associated with the Inns of Court in the overlooked decades of the 1560s and 70s It argues that these experiments constituted an influential sub genre assimilating the structures of Roman comedy to current civic and political concerns with the administration of justice This sub genre's impact may be seen in Shakespeare's early experiments in revenge tragedy history play and romance comedy in *Titus Andronicus* *Henry VI* and *The Comedy of Errors* as well as Jonson's *Every Man in his Humour* *Bartholomew Fair* and *The Alchemist* The book ranges from mid fifteenth century drama through sixteenth century interludes to the drama of the 1590s and 1600s It draws on recent research by legal historians and on a range of legal historical sources in print and manuscript

Mephistopheles Jeffrey Burton Russell, 1990 An excellent and important intellectual history *Library Journal* Using examples from theology philosophy art literature and popular culture Russell describes the great changes effected in our idea of the Devil by the intellectual and cultural developments of modern times *Mephistopheles* is the fourth and final volume of Jeffrey Burton Russell's critically acclaimed history of the concept of the Devil The series constitutes the most complete historical study ever made of the figure called the second most famous personage in Christianity In the first three volumes the author brought the history of Christian diabolology to the end of the Middle Ages This volume continues the story from the Reformation to the present tracing the fragmentation of the tradition

Medieval Death Paul Binski, 1996 In this richly illustrated volume Paul Binski provides an absorbing account of the social theological and cultural issues involved in death and dying in Europe from the end of the Roman Empire to the early sixteenth century He draws on textual archaeological and art historical sources to examine pagan and Christian attitudes toward the dead the aesthetics of death and the body burial ritual and mortuary practice Illustrated throughout with fascinating and sometimes disturbing images Binski's account weaves together close readings of a variety of medieval thinkers He discusses the impact of the Black Death on late medieval art and examines the development of the medieval tomb showing the changing attitudes toward the commemoration of the dead between late antiquity and the late Middle Ages In one chapter Binski analyzes macabre themes in art and literature including the Dance of Death which reflect the medieval obsession with notions of humility penitence and the dangers of bodily corruption In another he studies the progress of the soul after death through the powerful descriptions of Heaven Hell and Purgatory in Dante and other writers and through portrayals of the Last Judgment and the Apocalypse in sculpture and large scale painting

Bible through medieval renaissance metaphysical and baroque poetry to romantic and symbolistic poetry **Christopher Marlowe the Craftsman** M.L. Stapleton, 2016-05-23 Contributions to this volume explore the idea of Marlowe as a working artist in keeping with John Addington Symonds characterization of him as a sculptor poet Throughout the body of his work including not only the poems and plays but also his forays into translation and imitation a distinguished company of established and emerging literary scholars traces how Marlowe conceives an idea shapes and refines it then remakes and remodels it only to refashion it further in his writing process These essays necessarily overlap with one another in the categories of lives stage and page which signals their interdependent nature regarding questions of authorship theater and performance history as well as interpretive issues within the works themselves The contributors interpret and analyze the disputed facts of Marlowe s life the textual difficulties that emerge from the staging of his plays the critical investigations arising from analyses of individual works and their relationship to those of his contemporaries The collection engages in new ways the controversies and complexities of its subject s life and art It reflects the flourishing state of Marlowe studies as it shapes the twenty first century conception of the poet and playwright as master craftsman Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1975 *Beyond the Body* Elizabeth Hallam, Jenny Hockey, Glennys Howarth, 2005-08-16 The authors challenge theories that put the body at the centre of identity going beyond the body to highlight the persistence of self identity even when the body itself has been disposed of or is missing *The Politics of Death* Michael J. Blain, 2001 This dissertation reports the results of a sociological analysis of the narrative form and functions of revolutionary discourse Chapter I poses two questions How do representations of death function in political processes How do signifiers of violent death function in the structure of revolutionary statements Chapter II reviews relevant sociological concepts and articulates a dramatistic political sociology of death concepts mainly derived from Emile Durkheim Robert Hertz and Arnold van Gennep on death and the sacred Max Weber on violence and politics and Burke Duncan and Edelman s view of politics as symbolic action Chapter III presents the results of a formal narrative and semiotic analysis of a large sample of revolutionary statements Saussure Levi Strauss Foucault Two symbolic complexes were clearly evident First revolutionaries employ a tragic narrative form employing the blood of innocent victims and heroic martyrs to construct the villainy of their enemies to provoke moral outrage and to legitimate acts of righteous retaliation against established authority Second metaphors of fire storm explosion and eruption are used to infuse revolutionary acts with powerful impersonal forces Chapter IV validates these results through an exploratory study of political meanings employing Osgood s semantic differential technique Chapter V concludes that in revolutionary discourse at least revolutionary action is a form of tragic drama an violent appeal to a public audience made on behalf of powerless people a statement that one is willing to kill and die in the name of the ultimate principles of social order The results of the semantic differential analysis show that these meanings can be studied empirically employing this technique They also illustrate the validity and usefulness of the analytic
