The Devil's Chain Keely Stauter-Halsted, 2016-02-19 In the half century before Poland's long awaited political independence in 1918 anxiety surrounding the country's burgeoning sex industry fueled nearly constant public debate The Devil's Chain is the first book to examine the world of commercial sex throughout the partitioned Polish territories uncovering a previously hidden conversation about sexuality gender propriety and social class Keely Stauter Halsted situates the preoccupation with prostitution in the context of Poland's struggle for political independence and its difficult transition to modernity She traces the Poles growing anxiety about white slavery venereal disease and eugenics by examining the regulation of the female body the rise of medical authority and the role of social reformers in addressing the problem of paid sex Stauter Halsted argues that the sale of sex was positioned at the juncture of mass and elite cultures affecting nearly every aspect of urban life and bringing together sharply divergent social classes in what had long been a radically stratified society She captures the experiences of the impoverished women who turned to the streets and draws a vivid picture of the social milieu that shaped their choices The Devil's Chain demonstrates that discussions of prostitution and its attendant disorders sexual deviancy alcoholism child abuse vagrancy and other related problems reflected differing visions for the future of the Polish nation

Narrating the Sex Trade Tracie L. Wilson, 2025-09-30 Examining a range of sex trade accounts from state documents activist groups folk narratives and key figures in Polish Ukrainian and Yiddish literature this book applies new materialist perspectives to cultural history coloniality and imperialism in the study of Europe's eastern borderlands The text centers on late nineteenth and early twentieth century contexts with eastern Galicia and Lviv as its focal point However these narratives flow across time and space stretching back to the early modern period and continuing to the present across cities in the Americas in Asia and along the Mediterranean Sea The book addresses the convergence of sex trade stories with older narratives including links to early modern abduction accounts and antisemitic tropes It also examines the involvement of prominent activists whose personal lives contributed to modern research in psychology and sexuality such as Bertha Pappenheim Anna O and Karl M Baer Its groundbreaking approach unsettling notions of center and periphery is relevant to study of a myriad of geographic contexts worldwide and to both historical analysis and present day situations This volume is intended for undergraduates postgraduates specialists and general readers interested in east central Europe gender coloniality imperialism migration technology and modernity narrative and literary studies and new materialist approaches

Polish and Irish Struggles for Self-Determination Galia Chimiak, Bożena Cierlik, 2020-02-26 This book discusses little known linkages between two seemingly distant peoples the Polish and the Irish whose historical experiences share important similarities Both Ireland and Poland have been subject to foreign rule which they overturned in 1916 and 1918 respectively Their predominantly Catholic societies were among the first to grant voting rights to women a century ago This volume uses the centenary of both Ireland and Poland re gaining national independence and the political

empowerment of women in these countries as a point of departure to analyse selected aspects of Polish and Irish people's struggle for autonomy. Cases of mutual assistance including the awareness raising campaigns organized by Western women in support of the independence and suffragist movements in Poland are presented along with examples of grassroots self-organization, foreign press coverage and military and diplomatic efforts to empower the Poles and the Irish.

State-Making in an Age of Revolution, 1830-1880 Christos Aliprantis, Anna Ross, 2025-07-02 How did states expand in the mid nineteenth century? While scholars now associate the period after the 1848 revolutions with a striking increase in state activity, few have demonstrated how new state building measures were put into practice. From France to Hungary and Scandinavia to Spain, *State Making in An Age of Revolution* shows how officials went about implementing reform. With original contributions grounded in extensive archival research, this volume casts light on the scale at which officials relied on elites, professionals and technical experts both inside and outside of government and even from outside their own states to carry out their expanding work. Together, these findings help us to re-think the reach and nature of growing states during these pivotal decades of change.

Love for Sale Colleen Lucey, 2021-09-15 *Love for Sale* is the first study to examine the ubiquity of commercial sex in Russian literary and artistic production from the nineteenth century through the fin de siècle. Colleen Lucey offers a compelling account of how the figure of the sex worker captivated the public's imagination through depictions in fiction and fine art, bringing to light how imperial Russians grappled with the issue of sexual commerce. Studying a wide range of media from little known engravings that circulated in newspapers to works of canonical fiction, Lucey shows how writers and artists used the topic of prostitution both to comment on women's shifting social roles at the end of tsarist rule and to express anxieties about the incursion of capitalist transactions in relations of the heart. Each of the book's chapters focus on a type of commercial sex, looking at how the street walker, brothel worker, demimondaine, kept woman, impoverished bride and madam traded in sex as a means to acquire capital. Lucey argues that prostitution became a focal point for imperial Russians because it signaled both the promises of modernity and the anxieties associated with Westernization. *Love for Sale* integrates historical analysis, literary criticism and feminist theory and conveys how nineteenth century beliefs about the fallen woman drew from medical, judicial and religious discourse on female sexuality. Lucey invites readers to draw a connection between rhetoric of the nineteenth century and today's debate on sex workers' rights, highlighting recent controversies concerning Russian sex workers to show how imperial discourse is recycled in the twenty-first century.

Antisemitism Before the Holocaust Richard E. Frankel, 2023-04-07 This book examines the history of antisemitism in the United States and Germany in a novel way by placing the two countries side by side for a sustained comparison of the anti-Jewish environments in both countries from the 1880s to the end of World War II. Author Richard E. Frankel shatters the widely held notion of exceptionalism in Germany and America, the belief that antisemitism in Germany was uniquely murderous and led inevitably to the Holocaust, and that antisemitism in the United States was uniquely benign.

making an American Holocaust all but unthinkable In a series of new and previously published essays that have been revised updated and expanded the book relates antisemitism to issues including Jewish and Chinese immigration discrimination and exclusion World War I and its aftermath Hitler and Henry Ford Nazis the American Right and the Roosevelt Administration and a German Ku Klux Klan Taken together these essays reveal that antisemitism in Germany was less aberrant than commonly believed and that American antisemitism was indeed dangerous and more similar to what existed in Germany during the same period Antisemitism Before the Holocaust is an essential volume for students and scholars alike interested in European and American history the history of the Holocaust and World War I **Impure Migration** Mir Yarfitz, 2019-04-04 Introduction White slave wives on the road to Buenos Aires White slaves and dark masters Jewish traffic in women Marriage as ruse or migration strategy Immigrant mutual aid among pimps The impure shape Jewish Buenos Aires Conclusion After the Varsovia Society **Remaking Central Europe** Peter Becker, Natasha Wheatley, 2020-12-29 Over the last two decades the new international order of 1919 has grown into an expansive new area of research across multiple disciplines With the League of Nations at its heart the interwar settlement s innovations in international organizations international law and many other areas shaped the world we know today This book presents the first study of the relationship between this new international order and the new regional order in Central and Eastern Europe after the collapse of the Habsburg empire An analysis of the co implication of these two orders is grounded in four key scholarly interventions understanding the legacies of empire in international organizations examining regionalism in the work of interwar international institutions creating an integrated history of the interwar order in Europe and testing recent claims of the conceptual connection between nationalism and internationalism With chapters covering international health international financial oversight human trafficking minority rights scientific networks technical expertise passports commercial treaties borders and citizenship and international policing this book pioneers a regional approach to international order and explores the origins of today s global governance in the wake of imperial collapse **Selling French Sex** Elisa Camiscioli, 2024-01-25 This illuminating global history challenges the notion that coercion alone dictated women s migrations for work in the sex industry Migration and Mobility in the Modern Age Anika Walke, Jan Musekamp, Nicole Svobodny, 2016-12-12 A collection that eloquently examines the numerous forms of movement from and across Central Eastern Europe and Russia from a historical perspective Comparative Literature Studies Combining methodological and theoretical approaches to migration and mobility studies with detailed analyses of historical cultural or social phenomena the works collected here provide an interdisciplinary perspective on how migrations and mobility altered identities and affected images of the other From walkways to railroads to airports the history of travel provides a context for considering the people and events that have shaped Central and Eastern Europe and Russia The Routledge Handbook of Sexuality in East Central Europe Agnieszka Kościńska, Anita Kurimay, Kateřina Lišková, Hadley Z. Indian Sex Life Durba Mitra, 2020-01-07 During the colonial period Indian intellectuals philologists lawyers scientists and literary figures all sought to hold a mirror to their country Whether they wrote novels polemics or scientific treatises all sought a better understanding of society in general and their society in particular Curiously female sexuality and sexual behavior play an outside role in their writing The figure of the prostitute is ubiquitous in everything from medical texts and treatises on racial evolution to anti Muslim polemic and studies of ancient India In this book Durba Mitra argues that between the 1840s and the 1940s the new science of sexuality became foundational to the scientific study of Indian social progress The colonial state and an emerging set of Bengali male intellectuals extended the regulation of sexuality to far reaching projects that sought to define what society should look like and how modern citizens should behave An exploration of this history of social scientific thought offers new perspectives to understand the power of paternalistic and deeply violent claims about sexual norms in the postcolonial world today These histories reveal the enduring authority of scientific claims to a tradition that equates social good with the control of women s free will and desire Thus they managed to dramatically reorganize their society around upper caste Hindu ideals of strict monogamy

Rethinking Modern Polish Identities Agnieszka Pasięka, Paweł Rodak, 2023 A critical examination of the category of Polishness that is the formation redefinition and performance of various kinds of Polish identities from a wide range of disciplinary perspectives Inspired by new research in the humanities and social sciences as well as recent scholarship on national identities this volume offers a rigorous examination of the idea of Polishness Offering a diversity of case studies and methodological theoretical approaches it demonstrates a profound connection between national and transnational processes and places the Polish case in a broader context This broader context stretches from a larger Eastern European one a usual frame of comparison to the overseas

immigrant communities The authors renowned scholars from Europe and the United States thus demonstrate that an understanding of modern Polish identity means crossing not only historical but also geographical boundaries Consequently the narrative on Polish identity that unfolds in the volume is a personalized and multivocal one that presents the perspectives of a wide range of subjects peasants workers migrants ethnic and sexual minorities that is all those actors who have been absent in grand national narratives As such the examination of Polishness sheds light on the identity question more broadly emphasizing the interplay of pluralizing and homogenizing tendencies and fostering a reflection on national identity as encompassing both sameness and difference

The Migrant and her Trafficker Ruth Ennis,2025-06-16 By the end of the nineteenth century terms like white slavery la traite des blanches and M dchenhandel had become linguistic equivalents to describe the coerced transnational migration of women and their subsequent sale of sex This book explores the historical roots of this Eurocentric conceptualization which since its development has fed into contemporary twenty first century understandings of human trafficking especially in women and children In unpacking these origins the books explores how populist narratives became entangled with state and organisational practices of categorising subalterns on the move Contributing to the historiography white slavery is shown to have been not only a component of a shifting legal dogma on mobility control and international police cooperation but also a political concern of women s rights and moral reformist movements Contrary to the sensationalized claims of the times white slavery was not a phenomenon reflecting such exaggerations but rather was part of the historical development of state mechanisms to define the voluntary and coerced migration based on race and gender based desirability

Servants of Culture Ambika Natarajan,2023-05-12 In nineteenth century Cisleithanian Austria poor working class women underwent mass migrations from the countryside to urban centers for menial or unskilled labor jobs Through legal provisions on women s work in the Habsburg Empire there was an increase in the policing and surveillance of what was previously a gender neutral career turning it into one dominated by thousands of female rural migrants *Servants of Culture* provides an account of Habsburg servant law since the eighteenth century and uncovers the paternalistic and maternalistic assumptions and anxieties which turned the interest of socio political players in improving poor living and working conditions into practices that created restrictive gender and class hierarchies Through pioneering analysis of the agendas of medical experts police socialists feminists legal reformers and even serial killers this volume puts forth a neglected history of the state of domestic service discourse at the turn of the 19th century and how it shaped and continues to shape the surveillance of women

Human Trafficking Augustine Avwunudiogba,Elisha Jasper Dung,2021-11-05 *Human Trafficking Global History and Perspectives* argues that far from being a recent development human trafficking is rooted in the history of the human condition and has only been amplified by globalization Using a multidisciplinary approach that traces the historical roots of human trafficking in global history the chapters explore case studies from different parts of the world to show that human trafficking is not only a global phenomenon but a localized

enigma The contributors contend that the causes and thus the solutions are rooted in local and regional social cultural political and economic conditions of victims The case studies include global regional and local examples to analyze the complex causes and effects of human trafficking as well as the legal ramifications *The Routledge Handbook of Gender in Central-Eastern Europe and Eurasia* Katalin Fábíán, Janet Elise Johnson, Mara Lazda, 2021-07-25 This Handbook is the key reference for contemporary historical and political approaches to gender in Central Eastern Europe and Eurasia Leading scholars examine the region's highly diverse politics histories cultures ethnicities and religions and how these structures intersect with gender alongside class sexuality coloniality and racism Comprising 51 chapters the Handbook is divided into six thematic parts Part I Conceptual debates and methodological differences Part II Feminist and women's movements cooperating and colliding Part III Constructions of gender in different ideologies Part IV Lived experiences of individuals in different regimes Part V The ambiguous postcommunist transitions Part VI Postcommunist policy issues With a focus on defining debates the collection considers how the shared experiences especially communism affect political forces organization of gender through a broad variety of topics including feminisms ideology violence independence regime transition and public policy It is a foundational collection that will become invaluable to scholars and students across a range of disciplines including Women's Gender and Sexuality Studies and Central Eastern European and Eurasian Studies

Undesirable Jennifer Anne Boittin, 2022-11-01 Archival research into policing and surveillance of migrant women illuminates pressing contemporary issues Examining little known policing archives in France Senegal and Cambodia Jennifer Anne Boittin unearths the stories of hundreds of women labeled undesirable by the French colonial police and society in the early twentieth century These undesirables were often women traveling alone women who were poor or ill women of color or women whose intimate lives were deemed unruly To refute the label and be able to move freely they spoke out or wrote impassioned letters some emphasized their undesirable qualities to suggest that they needed the care and protection of the state to support their movements while others used the empire's own laws around Frenchness and mobility to challenge state or societal interference Tacking between advocacy and supplication these women summoned intimate details to move beyond contest or confound surveillance efforts bringing to life a practice that Boittin terms passionate mobility In considering how ordinary women pursued autonomy security companionship or simply a better existence in the face of surveillance and control *Undesirable* illuminates pressing contemporary issues of migration and violence **On Civilization's Edge** Kathryn Ciancia, 2021 Inhaltsverzeichnis A Conversation On the Edge In the World Democracy as Civilizing Mission The Integration Myth The Many Meanings of the Border Polish Towns Jewish Towns Depoliticizing the Volhynian Village Regionalism or The Limits of Inclusion Thinking Technocratically **Metropolitan Belgrade** Jovana Babović, 2018-06-12 Metropolitan Belgrade presents a sociocultural history of the city as an entertainment mecca during the 1920s and 1930s It unearths the ordinary and extraordinary leisure activities that captured the attention of urban residents and considers the broader role of popular

culture in interwar society As the capital of the newly unified Yugoslavia Belgrade became increasingly linked to transnational networks after World War I as jazz film and cabaret streamed into the city from abroad during the early 1920s Belgrade's middle class residents readily consumed foreign popular culture as a symbol of their participation in European metropolitan modernity The pleasures they derived from entertainment however stood at odds with their civic duty of promoting highbrow culture and nurturing the Serbian nation within the Yugoslav state Ultimately middle class Belgraders learned to reconcile their leisured indulgences by defining them as bourgeois refinement But as they endowed foreign entertainment with higher cultural value they marginalized Yugoslav performers and their lower class patrons from urban life Metropolitan Belgrade tells the story of the Europeanization of the capital's middle class and how it led to spatial segregation cultural stratification and the destruction of the Yugoslav entertainment industry during the interwar years
