The Oxford Handbook of Reciprocal Adult Development and Learning Carol Hoare, 2011-09-06 One of the Best Books of 2011 from the Center for Optimal Adult Development The fields of adult development and the study of learning have traditionally been considered separate with development falling under psychology and learning under education However recent ideas research and practices that have emerged in these fields of study effectively emphasize the inherent reciprocal relationship that exists between them advances in development frequently lead to learning and conversely learning almost necessarily fuels development In this second edition of The Oxford Handbook of Reciprocal Adult Learning and Development the synchronicity between development and learning is explored further as expert authors advance the latest theories to provide a rich foundation for this new area of study and practice for this interrelated field of study At the border of two disciplines this handbook focuses on the capacities of intelligence meta cognition insight self efficacy spirituality interpersonal competence wisdom and other key adult attributes as they relate to positive changes and personal growth in adults Contexts for development and learning e.g. the work role and environment are also addressed and mixed in throughout the volume are emanating implications for research practice and policy What emerges is a thoughtful handbook for all who promote optimal aging and is a must read for academics psychologists and practitioners in adult development

Handbook of Social Work in Health and Aging Barbara Berkman, 2006-02-09 The Handbook of Social Work in Health and Aging is the first reference to combine the fields of health care aging and social work in a single authoritative volume These areas are too often treated as discrete entities while

the reality is that all social workers deal with issues in health and aging on a daily basis regardless of practice specialization. As the baby boomers age the impact on practice in health and aging will be dramatic and social workers need more specialized knowledge about aging health care and the resources available to best serve older adults and their families. The volume's 102 original chapters and 13 overviews written by the most experienced and prominent gerontological health care scholars in the United States and across the world provide social work practitioners and educators with up-to-date knowledge of evidence-based practice guidelines for effectively assessing and treating older adults and their families, new models for intervention in both community-based practice and institutional care, and knowledge of significant policy and research issues in health and aging. A truly monumental resource, this handbook represents the best research on health and aging available to social workers today.

Dimensions of Long-Term Care Management: An Introduction, Third Edition Mary Helen McSweeney-Feld, PhD, LNHA, FACHCA, Carol Molinari, PhD, 2023-04-10

Instructor Resources: Test bank, PowerPoint slides, answers to end-of-chapter questions, and case studies; sample course syllabi and a transition guide to the new edition. Long-term care continues to evolve and change, especially in response to the global COVID-19 pandemic. *Dimensions of Long-Term Care Management* provides a comprehensive overview of this field and how it has been affected by regulatory changes, the response to these changes by managers performing their day-to-day operations, and the opportunities presented by the growing use of technology along with skilled workforce shortages. Readers will gain a thorough understanding of how long-term services and supports are delivered and what it is like to work in this sector. The book opens with an overview of long-term services, supports, and systems for coordination of care and care transitions from acute to post-acute and long-term in light of policy changes. The next chapters focus on the importance of taking a population health and health equity perspective in administration of these services, as well as support for cultural competence training. The book's final section covers long-term care community operations, leadership, and administration of these services, legal and ethical challenges, and risk management and quality improvement to ensure successful patient outcomes and safety. This revised edition includes updated statistics throughout and is aligned with the National Association of Long-Term Care Administrator Boards' Domains of Practice for Health Services Executives. It also features the following updates: A new chapter detailing the key business and clinical operations of long-term care communities and the administrator's responsibilities; A new chapter describing models for population health and wellness and their application to long-term care consumers; Expanded discussion of workforce shortages, including recruitment and retention strategies, and a new human resources case study; Updated regulatory information, including the new Medicare Conditions of Participation for all long-term care providers and the new Minimum Data Set assessment; Expanded coverage of long-term care services, leadership, including a new case study; New case studies in several chapters that highlight the health disparities and health equity issues affecting long-term services and supports. *Dimensions of Long-Term Care Management* can be used in any business gerontology, healthcare management, long
