Through this book, you can learn basic concepts such as yin yang, the five elements, meridians, and acupoints; qi, blood flow, and constitution; how to judge your own health status through constitution tests; and develop a personalized health plan for yourself. How to make external adjustments for your health through TCM practices such as acupressure, cupping, scraping, heat treatment, acupuncture, massage, and other methods; TCM methods of natural internal adjustments including food therapy, herbal medicine, breathing techniques, sleep, meditation, qigong, and other practices that will enhance your physical and mental health from the inside out.
