trade in developing countries Kunio Mikuriya Secretary General of the World Customs Organisation Brussels An extremely interesting and stimulating collection of papers Ledeneva s challenging ideas first applied in the context of Russia s economy of shortage came to full blossom and are here contextualized by practices from other countries and contemporary systems Many original and relevant practices were recognized empirically in socialist countries but this book shows their generality J nos Kornai Allie S Freed Professor of Economics Emeritus at Harvard and Professor Emeritus at Corvinus University of Budapest Alena Ledeneva s Global Encyclopedia of Informality is a unique contribution providing a global atlas of informal practices through the contributions of over 200 scholars across the world It is far more rewarding for the reader to discover how commonalities of informal behavior become apparent through this rich texture like a complex and hidden pattern behind local colors than to presume top down universal benchmarks of good versus bad behavior This book is a plea against reductionist approaches of mathematics in social science in general and corruption studies in particular and makes a great read as well as an indispensable guide to understand the cultural richness of the world Alina Mungiu Pippidi Professor of Democracy Studies Hertie School of Governance Berlin Transformative scholarship in method object and consequence Ledeneva and her networked expertise not only enable us to view the informal comparatively but challenge conventionally legible accounts of membership markets domination and resistance with these rich accounts from five continents This project offers nothing less than a social scientific revolution if the broader scholarly community has the imagination to follow through And by globalizing these informal knowledges typically hidden from view the volumes contributors will extend the imaginations of those business consultants movement mobilizers and peace makers who can appreciate the value of translation from other world regions in their own work Michael D Kennedy Professor of Sociology and International and Public Aff irs Brown University and author of Globalizing Knowledge Don t mistake these weighty volumes for anything directory like or anonymous This wonderful collection of short essays penned by many of the single best experts in their fields puts the reader squarely in the kinds of conversations culled only after years of friendship trust and with the keen eye of the practiced observer Perhaps most importantly the remarkably wide range of offerings lets us de parochialise corruption and detach it from the usual hyper local and cultural explanations The reader in the end is the one invited to consider the many and striking commonalities Bruce Grant Professor at New York University and Chair of the US National Council for East European and Eurasian Research

Learning Criminal Law as Advocacy Argument John Delaney, 2004 More than most other books about the criminal law this presentation focuses on Learning Criminal Law as Advocacy Argument In each criminal law topic it presents in building block form the limited repertoire of core issues and related arguments so that you can concentrate on learning and practicing those that your professor has stressed in class in her materials and on her old exams You can know the issues on the exam before you go into the exam room In each criminal law topic there is a limited repertoire of core issues that must be identified and then resolved with advocacy argument This pattern of issues and arguments arises from embedded and recurring factual patterns and the resulting criminal law performance of prosecutors defense lawyers and trial and appellate judges over decades and even centuries Your professor presents only some of the core issues and related arguments from these repertoires in her course and on her criminal law exam Thus you can systematically learn the set of core issues and arguments in each topic presented by your and know the issues before you go into the exam room The exam then presents no surprises What do you mean by resolving the core issues with advocacy argument Identifying the core issues from your professor's course is the first critical task The second critical task is resolving these issues with advocacy argument Advocacy argument is the lawyer's single minded marshalling of the relevant facts and doctrine that are necessary to resolve the identified issues in favor of either the prosecution or defense This book helps you with both tasks identifying the exam issues and resolving them
