Nursing Care Optimizing Outcomes for Mothers, Children, & Families Susan Ward, Shelton Hisley, 2015-06-03 It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity pediatric courses. A unique emphasis on optimizing outcomes evidence based practice and research supports the goal of caring for women, families, and children not only in traditional hospital settings but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes: holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material.

Wong's Nursing Care of Infants and Children - E-Book Marilyn J. Hockenberry, 2022-12-23 American Journal of Nursing (AJN) Book of the Year Awards 1st Place in Child Health. Provide quality nursing care through each stage of child development. Wong's Nursing Care of Infants and Children 12th Edition uses an easy to follow, family centered approach to describe the care of children at each age and stage of development. The book begins with a discussion of the influences on and assessment of child health, then provides chapters on child health promotion and health problems, all organized by age groups and body systems. Up to date evidence based information helps you develop critical thinking skills along with the sensitivity needed to become a compassionate caring pediatric nurse. Written by a team of experts led by Marilyn J. Hockenberry, Wong's continues to be the leading text in pediatric nursing. Focus on family centered care emphasizes the role and influence of the family in child health and illness with a separate chapter and Family Centered Care boxes. Full color drawings and photographs reflect the latest in nursing care. Nursing Care Guidelines boxes offer clear step by step instructions for interventions in a variety of situations and conditions, and Nursing Care Plan boxes include expected patient outcomes and rationales for nursing interventions. Nursing Tips include helpful hints and practical clinical information. Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to improve the outcomes of nursing care. Atraumatic Care boxes contain techniques for care that manage pain, discomfort, or stress along with approaches to promote self esteem and prevent embarrassment. Emergency Treatment boxes serve as a quick reference for interventions in critical situations. Cultural Considerations and Cultural Competence content provides tips from clinical experts. Community and Home Health Considerations boxes address issues such as increasing immunization rates, decreasing smoking among teens, and preventing lead poisoning. Drug Alerts highlight important drug related information for safe, appropriate care. Nursing Alerts call out critical considerations such as key assessment data, risk factors, and danger signs that must be considered in providing care. Research Focus boxes emphasize research with concise reviews of important evidence.
