Current Vascular Surgery 40th Anniversary:

Current Vascular Surgery Mark K. Eskandari, William H. Pearce, James S.T. Yao, 2016 **CURRENT VASCULAR SURGERY** Mark K. Eskandari, 2015-12-31 *Current Vascular Surgery* addresses contemporary topics and controversies in vascular and endovascular surgery providing a comprehensive overview of the field's recent evolution. The volume is the result of the 40th Annual Vascular Symposium sponsored by the Division of Vascular Surgery, Feinberg School of Medicine, Northwestern University. The symposium was held in Chicago on December 10-14, 2015. The symposium was held at the InterContinental Hotel on Chicago's Magnificent Mile. The symposium brought together over 50 national experts to address timely topics and controversies in vascular and endovascular surgery. As has been the tradition, presentations cover the full spectrum of vascular surgery including changes in management of extracranial cerebrovascular disease, new treatment options for lower extremity arterial occlusive disease, hemodialysis improvements in techniques for complex venous disease, and developments in aortic stent graft repair in the chest and abdomen. Each chapter in this volume is based on a presentation, but the book chapters provide deeper, more detailed information than is possible in a symposium presentation.
