Disabilities Carroll J. Jones,2010 Many teachers of students with mild disabilities experience difficulty writing IEPs and they lack a foundation in the regular education curriculum of academic skills and sequences associated with each grade level This book was designed to provide this foundation Presented in the form of scope and sequence charts that can be used as objectives for the State Frameworks goals and benchmarks this resource assists in preparing IEPs including the new process of identification of children with disabilities through their responses to intervention RTI An additional focus is on the impact of federal laws IDEA and NCLB on the curriculum and assessment in schools today The book has been reorganized into ten chapters including historical perspectives early childhood special education curricula oral expression curricula reading and

listening curricula written expression curricula mathematics curricula educational technology curricula K 12 social and self competence curricula science curricula and evaluation reports case studies Appendix The scope and sequence charts were modified to include current national education standards and benchmarks and the skills in each of the academic areas that require annual state assessment These charts will assist teachers in modifying the general education curriculum for students with mild disabilities and to write complete Individual Education Programs using age appropriate and developmentally appropriate teaching and assessment materials Chapter summaries included for review purposes also serve as selective and motivational reading With special education teachers in short supply and the demands on their time so great this book will provide a valuable resource for cutting the clutter and moving to the heart of the teaching process determining what skills students need to move effectively to the next level

Brain Literacy for Educators and Psychologists Virginia W. Berninger, Todd L. Richards, 2002-05-08 A textbook for a pre service or in service course teaching basic neuroscience and brain imaging to teachers and other professionals who assess children with school learning problems It is also suitable as a supplementary text in courses on literacy or numeracy The purpose is to provide general principles rather than a plethora of facts

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-07-27 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content
