Annual Report - The Urban Land Institute Urban Land Institute, 2007 *From Boom to Bubble* Rachel Weber, 2023-06-05 An unprecedented historical sociological and geographic look at how property markets change and fail and how that affects cities In *From Boom to Bubble* Rachel Weber debunks the idea that booms occur only when cities are growing and innovating Instead she argues even in cities experiencing employment and population decline developers rush to erect new office towers and apartment buildings when they have financial incentives to do so Focusing on the main causes of overbuilding during the early 2000s Weber documents the case of Chicago's Millennial Boom showing that the Loop's expansion was a response to global and local pressures to produce new assets An influx of cheap cash made available through the use of complex financial instruments helped transform what started as a boom grounded in modest occupant demand into a speculative bubble where pricing and supply had only tenuous connections to the market *From Boom to Bubble* is an innovative look at how property markets change and fail and how that affects cities
