New Asian Emperors George Haley, Chin Tiong Tan, Usha C V Haley, 2013-01-11 Much has been written about the rise of the Asian economies in recent decades and their coming economic dominance in the next century. The New Asian Emperors shows how and why overseas Chinese companies are achieving dominance in the Asia Pacific. In the wake of the Asian Currency crisis, this book takes a fresh look at the role of the overseas Chinese as they continue to create some of Asia's most wealthy and successful companies. In particular, the authors tackle the principal difference between Western and Eastern business practices. The overseas Chinese, due to their origins and history, developed a unique form of management; now they maintain it as their competitive advantage. Although Asian governments are currently floundering, the overseas Chinese networks continue to prosper. The authors

explain the following to Eastern and Western managers the sources and characteristics of overseas Chinese management how to combat the overseas Chinese the strengths and exploitable weaknesses of the overseas Chinese whether overseas Chinese management practices will spread in the same way as Japanese management did whether Western management technologies will find themselves outclassed A feature of the book are the exclusive in depth interviews with the New Asian Emperors since most of them avoid the press and little is known of them New Asian Emperors George T. Haley,Usha C. V. Haley,ChinHwee Tan,2012-11-26 Southeast Asia has a population of more than half a billion yet its economy is dominated by about 40 families most of Overseas Chinese descent Their conglomerates span sectors as diverse as real estate telecommunications hotels industrial goods computers and sugar plantations New Asian Emperors shows how and why Overseas Chinese companies continue to dominate the region and have extended their reach in East Asia despite the Asian financial and SARS crises of the past decade The authors base their conclusions on in depth structured interviews spanning a decade with the often elusive Overseas Chinese CEOs including Li Ka shing Stan Shih Victor Fung Stephen Riady and Sukanto Tanoto as well as on the strategic information that their companies use The analysis of the New Asian Emperors present day management techniques and practices draws on the history culture and philosophical perspectives of the Overseas Chinese in Southeast Asia In the midst of today s global economic crisis this book also takes a fresh look at the role and management practices of the Overseas Chinese as they continue to create some of Asia s wealthiest and most successful companies New Asian Emperors explains The sources and characteristics of Overseas Chinese management Whether Overseas Chinese management practices will spread in the same way that Japanese management did in the 1970s Whether Western management technologies have found themselves outmaneuvered in Asia s post crisis arena The Overseas Chinese managers strategies for the informational black hole of Southeast Asia and what Western managers can learn from them The New Asian Emperors unique strategic perspectives and management styles revealed through exclusive in depth interviews The implications for successfully co operating and competing with the Overseas Chinese of Southeast Asia New Asian Emperors offers key insights into the Overseas Chinese and the important role that cultural roots play in their dominance of Southeast Asian business Multinational Corporations In Political Environments: Ethics, Values And Strategies Usha C V Haley,2001-11-12 Multinational Corporations in Political Environments advances and tests a theory of why foreign corporations leave host states Theories of international business have often ignored the complexity of corporate decisions about leaving foreign countries generally assuming that the economic and competitive reasons that prompt multinational corporations to enter host states also explain their subsequent reasons for leaving Alternatively this book proposes a theory of how different stakeholders values and ethics shape multinationals strategic leaving behaviors Tested in South Africa when US multinationals were facing diverse pressures from stockholders governments and consumers to leave the research provides a prism to isolate how different stakeholders actions influenced multinationals behaviors Detailed analyses of

subsidiary level archival data over a period of four crucial years revealed that the multinationals engaged in diverse forms of leaving reflecting their involvements strategies and stakeholders influences The research the first to test which stakeholders strategies including boycotts and sanctions influenced multinationals and which did not and to identify their effects on multinationals behaviors has enormous implications for policy makers managers and social activists The book also applies the findings and explores implications for recent stakeholders attempts at influencing multinationals and governments such as Nike in Asia and the Burmese government through sanctions resolutions and boycotts
